

## ASSOCIATED OIL COMPANY PLACED IN COLD STORAGE

Southern Pacific Takes Over and Reorganizes Company, Capitalized at \$40,000,000—Herrin Made President.

(United Press Special Wire.) San Francisco, Feb. 12.—William F. Herrin, chief counsel of the Southern Pacific on this coast, has been made president of the Associated Oil company, which has \$40,000,000 of capital stock.

This and other radical changes in the board of directors and in the list of officers have just been consummated as a sequel to the Southern Pacific obtaining a majority control of the company's 400,000 shares of stock. Herrin takes the place of J. A. Chanslor as president. Chanslor, by the way, has been president ever since the inception of the corporation 10 years ago.

R. P. Schwerin, Paul Shoup, John C. Kirkpatrick, Rudolph Herold and E. T. Dumble, all selections of Mr. Herrin, join him on the new board. They take the places of William E. Chandler, C. A. Canfield, W. G. Karchoff and Max Whittier. W. R. Porter remains as a director and vice president and general manager. F. E. Buck, B. E. Green and O. Schriener also remain as directors.

Quoted at \$22 a Share. The new board of directors and officials in control are therefore as follows: President, William F. Herrin; vice president and general manager, W. R. Porter; secretary, O. Schriener; R. P. Schwerin, Paul Shoup, John C. Kirkpatrick, Rudolph Herold, E. T. Dumble, Frank Buck, B. E. Green and J. A. Chanslor.

These changes are due to a desire on the part of the Southern Pacific interests to have a majority of the board. It is understood also that one or two of the men dropped from the board sold all their stock and therefore have no further interest in the company.

Associated Oil has 400,000 shares of stock of the par value of \$100 a share. The market is the second largest in the state with the \$40,000,000 of capital. The Union Oil has \$50,000,000, with the Standard Oil of California \$25,000,000 of capital stock. Yesterday Associated Oil was quoted in the market at \$22 a share. The Southern Pacific is said to own 255,000 shares, for which it paid an average price of \$20 a share, or a total of \$5,100,000.

### Extent of Company's Holdings.

The company has many wells of its own, and a large acreage of oil lands in Santa Barbara, Kern, Fresno and other counties. It is also a large purchaser from other companies. One of its pipe lines extends from the Santa Maria district, in Santa Barbara county, to tide-water at Gaviota. It also has a pipe line from the Coalinga district to Monterey, and one from Kern county to Port Costa. Another is being built from Coalinga to Port Costa. By means of these pipe lines, tank steamers and tank cars, the company does a large general commercial business, like the Union and Standard, and will continue the same policy under the new management.

Its largest customer is the Southern Pacific line west of El Paso, Texas, and Sparks, Nev., and south from Ashland, Or. The Hariman Oregon Railway & Navigation company, in Oregon, is also another large customer. The Southern Pacific has wells of its own, but they do not supply enough for the demand. The large extra quantity needed is sold to it by the Associated.

Extensions Absorb Dividends. The company is not paying any dividends, and probably will not do so for some time, as there is about \$2,500,000 of a floating debt to pay off. There is

## Will Dedicate Printers' Library in Colorado Springs

Interior of new library.

Members of the International Typographical union are greatly interested in the dedication services which are to be held Wednesday afternoon in Colorado Springs, when the new library of the Union Printers' home there will be formally opened. It is a \$25,000 addition to a property already valued at \$1,000,000, and has been built and furnished through the subscriptions of the printers all over the United States and Canada.

The new library contains in the neighborhood of 10,000 volumes of fiction,

a first mortgage of \$2,750,000 of 5 per cent bonds on some of the company's property. These bonds run for 20 years. Arrangements have been made for a general mortgage of \$25,000,000, with the Union Trust company as trustee. Some of the bonds will be issued soon to wipe out the floating debt. Another batch of them will be set aside to retire the first mortgage bonds mentioned when they fall due. The remainder of the bonds will be issued from time to time for improvements.

Heretofore the policy of the company has been to use net income for improvements and extensions, and in that way about \$8,000,000 has been spent since the company was formed. This explains why dividends have not been paid.

The success of the company has made very rich men of Messrs. J. A. Chanslor, W. R. Porter, Frank Buck, W. E. Chandler, C. E. Canfield and others.

### DEMAND FOR WELLS GROWS IN VALLEY

(Special Dispatch to The Journal.) Hood River, Or., Feb. 12.—P. E. Davidson and brother, Frank, received a new well drill today and will place it in the field with the one now in operation. P. S. Davidson says the demand for deep wells throughout Hood River valley has increased to the extent that one machine is not sufficient to care for the work of drilling. The excessive irrigation throughout the valley has made it necessary to secure water from deep wells.

### Comes to Portland.

Hood River, Or., Feb. 12.—Clay Brock, ex-manager of the Bridal Veil Lumber company at Hood River, will leave for Portland this week to take a position with the Columbia Trust company. Mr. Brock is an experienced real estate man.

poetry and standard works. It was built at a cost of \$25,000, and is a beautiful and thoroughly modern addition to an already up-to-date home. The home already covers several acres, and is estimated by competent real estate men to be valued at \$1,000,000 at the very least.

The library addition to the home, besides providing for the housing of the large number of volumes in the library proper, provides additional room for the management of the home. In the basement of the building are the kitchen,

## DISSENSION IN KING'S PARLAMENT

Irish Nationalists and Liberals Quarrel and Threats and Counter Threats Are Rife.

(Publishers' Press Special Wire.) London, Feb. 12.—Parliamentary and ministerial quarters are a political boiler works. The air throbs with threats and counter threats. The Liberals are telling the Irish that they intend to do so and so, and the Irish retorting: "If you do, we will chuck you out."

"Chuck us out," reply the Liberals, "and the Irish party will go back to another generation of impotence." Undoubtedly the Irish are bent on preventing the Liberals from dodging the Lords and indefinitely sidetracking home rule. There is no evidence, however, that the government has any disposition to dodge the Lords' problem. On the contrary, it is solid for dealing roundly with the Lords, and only wishes this issue denied until the budget is presented, money for carrying on the king's government being a great necessity.

Nearly 30 wireless stations in the vicinity of New York and some in New England recently heard grand opera transmitted from a New York stage by a newly invented apparatus.

bakery, a modern refrigerating plant, storeroom, servants' quarters and serving room. In addition, a number of modern cooking appliances have been installed, and the home is now considered a model of comfort and convenience.

The home is maintained by the printers' union at a per capita tax of 15 cents a month on the union printers of the United States and Canada. It is a place where the old printers may spend their declining days in comfort. The local order is greatly interested in the development of the home.

## U. OF O. GLEE CLUB DELIGHTS CROWD

Concert at Bungalow Pronounced the Best Given by College Boys.

What a college glee club concert needs more than good voices or a knowledge of theory and harmony is lots of fun and college spirit. That the University of Oregon Glee club revels in this year and there are loads of laughs crowded into their program. Their annual concert at the Bungalow last night was by far the best they have ever given, for besides keeping the musical end up to the usual standard, things went with a snap that kept the audience awake.

The cleverest bit of work was "A Fire in the Prat," a delightful travesty on grand opera, where Kenneth Fraser and Tom Burke stand and sing long-windedly about the smoke and their rapidly escaping chance of escape, while the chorus warms and dances gleefully to the while. The whole thing was a scream. Hardly less of a hit was the latest edition of grand opera by Madame Yelba (Francis Curtis), who wore all the prima donnas' airs and sang to E in altissimo or somewhere in those celestial realms. He was joined by two other feminine fairies in "Hark, the Mountaineer," which was delicious.

A good stunt was the "Wanted, an Accompanist" turn, in which fun was mixed with clever music. Young Powell with a good many handicaps did some trombone work with a tone that made you forget how often you have wanted to kill trombone players. An especially effective jolly number was "My Irene Is the Village Queen," by the club.

Their more serious work which shows good voices and excellent training included "Hark, the Trumpet" (Buck), and a number of the Oregon songs which were sung with snap. Kenneth Fraser, young baritone, has a pretty, mellow voice, which was encased enthusiastically in his solo number. The woman's club plainly misses this year some of its older members, but its work was nevertheless acceptable.

Professor I. M. Glenn, director of the Glee club, gave "Ho, Jolly Jenkins!" and was received with enthusiasm. His splendid work for help did not fade in popularity. His enunciation is a joy. All around Oregon scored a hit last night, from the stage, hung with pennants to its little fun on the side. A crowd of Portland Academy boys occupied one of the boxes, which flattered the P. A. colors.

## COLORED TROOPER ATTACKS WOMAN

(Special Dispatch to The Journal.) Seattle, Wash., Feb. 12.—While walking home today Mrs. C. B. Alsada was attacked by a colored trooper from Fort Lawton, at the corner of First avenue west and Denny way. The soldier, who was in infantry uniform, seized the woman from behind and threw his army cape around her head. The woman's valiant fight for help did not seem to frighten the negro. His army cap fell to the ground and he kicked it to one side and continued his efforts. With a final desperate exertion of her remaining strength, the woman broke loose and ran shrieking for help to the residence of William Cochran.

Cochran rushed out of his home in search of her assailant, but the negro disappeared.

## EUGENE MANAGER IS NOT IN FAVOR OF TRI-CITY

Eugene, Or., Feb. 12.—Sid Smith, manager of the Eugene baseball team, since his interview with the officials of the Tri-City league in Portland says he does not favor entering the league and will work for the formation of a valley league with teams at Eugene, Springfield, Cottage Grove and Albany. He is still negotiating for Dolly Gray and other well known players and will have a strong team. The Springfield management is also securing good players. A meeting of representatives of the four teams mentioned will be held in Eugene soon to take steps toward the organization of a league.

In Nova Scotia coal refuse which it would not pay to ship is converted into electric power at the mines and thus distributed to nearby cities and towns to do its work.

## SHOT LAST SEPTEMBER, ASTORIA MAN DIES

(Special Dispatch to The Journal.) Seattle, Wash., Feb. 12.—Shot last September by Martin Strassburg of Astoria, with whom he had had a quarrel over a woman, and taken to the Seattle General hospital six weeks ago, suffering from a relapse from the bullet wound, Otto Peek, a German sailor, died today. Dr. N. M. Wiger, the attending physician, declares death was due directly to the bullet wound.

The bullet from Strassburg's revolver tore through Peek's mouth, coming out at the back of his head under the

ear. After he was confined in the Minor hospital for weeks he was released as cured.

## Columbia Trust Salesmen Banquet.

Salesmen, officers and a number of the friends of the Columbia Trust company sat down to the annual banquet of the company at the Commercial club Friday night. A ten-course banquet, delightfully arranged, was served the guests while a program of amusing numbers was rendered.

Among the guests invited to the banquet were W. H. Ladd, E. J. Jaeger, Dr. Hagle, Captain R. S. Greenleaf, Professor J. M. Walker, Frederick H. Strong and others. Practically every salesman and employee of the Columbia

Trust company was down to the feast. The program specially arranged by the sales force had among its numbers several amusing features. The guests were treated to an imaginary ride to Eastmoreland by automobile, in which street crossing, mud holes and scenery were passed before the guests in most rapid fashion. Other features together with a number of short addresses filled the evening.

The United States has more horses, mules, dairy cows and swine than any other country, and more cattle than any other except British India.

## Helped Build Lincoln's Cottage Only 35 Years Old in Spirit

MR. ANDY LEWIS FILLINGER, 86 Years Old

Mr. Andy Lewis Fillinger, of Danville, Ill., who is 85 years old and helped to build a cottage for Abraham Lincoln about 1855, says he has been using Duffy's Pure Malt Whiskey since that time as a tonic medicine with entire satisfaction. He feels like a man of 35.

A short time ago Mr. Fillinger wrote: "As I now remember, I began using your medicine as a tonic and stimulant in about 1855, or at least at the time I was building Abraham Lincoln's house in the city of Springfield, Ill., and I have continued its use until the present day with beneficial results."

"I am now past 85 years of age and feel like a man of 35 years. I can truthfully say Duffy's Pure Malt Whiskey gives entire satisfaction to the user."

Ministers of the gospel, doctors of medicine, nurses and people everywhere unite in commending Duffy's Pure Malt Whiskey—the only perfect tonic stimulant, the one true medicinal whiskey.

## Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system; it is a promoter of health and longevity; makes the old feel young and keeps the young young.

If in need of advice, write Medical Department, The Duffy Malt Whiskey Company, Rochester, N. Y., stating your case fully. Our doctor will send you advice free, together with a valuable illustrated medical booklet, containing rare common sense rules for health which you cannot afford to be without and some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of this great medicine and who continue to enjoy good health. It is sold by druggists, grocers and dealers, or direct, \$1.00 per large bottle.
