

LANGDON SNEERS AT CRYPTOGRAMS

Says Trick of Calhoun Defense and Not a Smart Trick Either.

(United Press Leased Wire.)
 Modesto, Cal., Feb. 25.—It is merely another job put up by the defense to be sprung at their leisure, for the purpose of embarrassing the prosecution. Heaven only knows what their next coup will be.

This was the comment of former District Attorney Langdon today when asked for a statement regarding the cryptograms bearing on the graft prosecution, which have stirred up a new sensation in San Francisco.

"They were submitted to me about the time of Heney's candidacy," said Langdon, "presumably with the idea that I would ask that they be withheld from publication until we could investigate them."

"I did nothing of the kind, however, and I told the reporter who presented the matter to me that we were absolutely indifferent as to what was done respecting its publication."

"I told him that I knew nothing whatever about it and I referred him to Detective Burns. He did submit the story to Burns and I know that Burns looked the matter up."

"In fact, Burns said as soon as he saw the cryptograms that they were the work of the defense and that they were arranged for the purpose of exploding the matter later."

"I remember that Burns pointed out at the time that it was such a trick as some of the detectives and others employed by the defense would try to spring."

"That the prosecution could have had nothing to do with it is apparent from the fact that all the members of the prosecution were in San Francisco and in almost daily communication with each other. There could have been no reason why they should communicate with each other through a newspaper. That phase of the story, of course, is absurd, but it is no more so than the frequent charges made that the prosecution dynamited Gallagher's house, killed Chief of Police Biggy, and other ridiculous and absurd charges."

"I think it is apparent that Burns' diagnosis of the matter is correct."

The largest lump yet received came yesterday from the Northern Pacific Terminal company, the taxes on its property amounting to \$21,266, with 3 per cent off for rebate because paid before March 15.

A Dental Combine in Portland

TOOTH FACTS

BY BOSTON PAINLESS DENTISTS, Corner Fifth and Morrison Streets.

The dread of the Dental Chair is now a thing of the past, advanced painless methods and the use of modern appliances for doing painless dental work have reduced the cost, until up to date modern dentistry is within reach of all, and at prices people can afford to pay. The dentists who do a large cash practice can always afford to do your work for half the price charged by the Dentist who makes you pay enough so that he makes up on you, what he loses on some one else.

Always busy, large business, and small profits, is the Boston Dentists' plan.

THE DENTAL WAR IS ON.

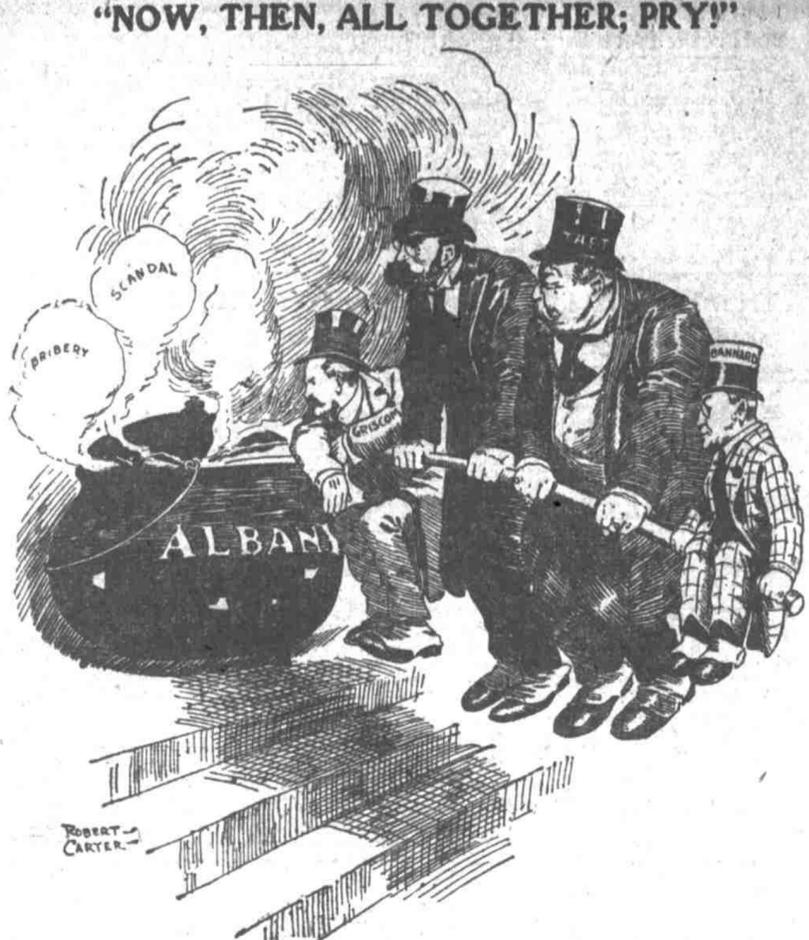

It has come to our knowledge that a Dental combine exists in the city of Portland. The Boston Dentists propose to fight this Portland combine in a fair fight. The result is lower prices and better work. We have no interest in any other office in Portland and no crowd in Denver, Colorado, or San Francisco, instructs us how much to charge, nor how to do our work. We have absolutely refused to join the Portland Dental combine.

YOUR DENTAL WORK AT YOUR OWN RISK.

Examinations free, extracting painless and free, alloy fillings 50c, Gold fillings \$1.00 to \$3.00, Gold Crowns, \$2.00 to \$5.00, Silver fillings 50c to \$1.00, Porcelain fillings \$2.50 to \$5.00, Bridge work from \$2.50 to \$5.00, enamel fillings \$1.00 to \$3.00, Porcelain front \$2.00 to \$4.00. Teeth cleaned 50c to \$1.00, a full set of upper or lower teeth, non-breakable and guaranteed to fit from \$4.00 to \$5.00. No students in our office, and we make our work good or give your money back, use. Remember we do not compete with cheap dentists, but we do the same work done by other high class dentists at half their price.

A few minutes' delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures.

The above cartoon represents the present condition of the New York legislature, as a result of inquiry into the charge that Jotham P. Allds, president pro tem of the senate, accepted a bribe in 1901 of \$1000 to defeat certain bridge legislation. It has been intimated in the testimony that this is only a "flea bite" of the graft that prevailed. In the cartoon Griscom, chairman of the New York state Republican committee, Governor Hughes and Otto Bannard, Republican candidate for mayor of New York in the last campaign, are trying to pry off the lid and reveal the scandal that existed in the legislature. The Republican machine is violently opposed to a thorough investigation, as they are afraid it will ruin their chances at the coming election.

ATHLETIC EXHIBITION PROVES INTERESTING

(Special Dispatch to The Journal.)
 Vancouver, Wash., Feb. 25.—The athletic exhibition in connection with the Eagles' smoker held at Eichenlaub's hall last night, was of more than usual interest. The wrestling match between Lieser of Vancouver and Ayers of Tacoma, in which Ayers was to throw Lieser three times in one hour, resulted in equal honors. Ayers got the first fall in 15 minutes and Lieser the second in 32.

In the big event between Bud Anderson of Vancouver and Philadelphia Joe Smith, Smith was knocked out in the second round. The agreement was for a 10 round bout. Some surprise was manifested over the result, as Smith has a national reputation as a boxer, and was once given a decision over Downey Webster, with whom he fought in California. The knockout blow was an uppercut with the right.

ASTRO'S BROTHER HELD FOR AIDING FLIGHT

Hot Springs, Ark., Feb. 25.—While the state authorities were searching for Claude Alexander ("Astro") Conlin, the "handcuff king," his brother, C. B. Conlin, was placed on trial here today charged with aiding Astro's escape. Delamartin, the "spook child," is being tried on a similar charge.

"Professor Astro" was held here for extradition to California on a warrant charging him with grand larceny. He escaped two nights ago, with several other prisoners, and is now believed to be heading for Oklahoma.

Conlin's arrest followed the escape of his brother. Shortly after Astro was jailed a remark was made, attributed to Conlin, that he would spend \$5,000 to prevent Astro's return to California. Among those alleged to have been victimized by Astro was James O'Kelley of Coos Bay, Or.

HORSE FAIR TO BE HELD BOOSTER DAY

(Special Dispatch to The Journal.)
 Oregon City, Feb. 25.—At a meeting of the board of governors held last night the various committees appointed to take charge of the club's "booster day" were present, and the work laid out for each committee was discussed, so no time will be lost in making the arrangements for the great day, March 12. E. E. Brodie and W. A. Shevman were named as additional members of the committee on printing, and William J. Wilson and William (Billie) Wilson were appointed to make arrangements for a horse fair to be held in connection with the booster gathering.

Several other matters were discussed, and as a result of the meeting all are most enthusiastic, and "booster day" promises to eclipse anything of the kind ever attempted here. Invitations will be sent to the residents and civic bodies of all sections of the county, and a large attendance is expected.

WATERWORKS CAPACITY WILL BE INCREASED

(Special Dispatch to The Journal.)
 Oregon City, Feb. 25.—The water commission held a special session last night, at which they decided to install another filter unit to the waterworks. The unit to be added has a capacity of 500,000 gallons, and will increase the capacity of the waterworks to 2,000,000 gallons. The new unit will cost \$4000 and M. Sienkine of San Francisco, who was present at the meeting, closed the contract for the unit with the company he represents. When the pumping station of the filtering plant was moved to its present location the pumping capacity of the plant was enlarged at that time, so no changes will be necessary when the new unit is installed.

(Special Dispatch to The Journal.)
 Vancouver, Wash., Feb. 25.—W. Horn, 70 years of age and a pioneer settler of Clarke county, was instantly killed about 3 o'clock yesterday afternoon by being struck by a Northern Pacific passenger train at what is known as Horn's corner, near Ridgefield. He was leading a horse across the tracks and the supposition is that he did not notice the approaching train until too late.

J., Feb. 25.—The grand jury here today returned indictments against all the officers and directors of the National Packing company with the exception of Kenneth McLaurin, the resident director of the company here. The indictments charge the big packing corporations with manipulating the prices of foodstuffs contrary to the laws of the state.

The men indicted by the grand jury are: J. Ogden Armour, A. W. Armour, L. R. Swift, E. L. Swift, E. B. Swift, Edward Morris, A. Meeker, Edward Tilden, Samuel McRoberts, T. J. Connors, L. A. Cartons, Thomas Wilson, L. Heyman, F. A. Fowler, James Bathgate Jr., George Edwards, Fred Cooper, D. E. Hartwell, Ira M. Morris, Henry Darlington, Lemuel Patterson and A. A. Fuller.

ARGUE CASE AGAINST IRRIGATION COMPANY

Arguments on a demurrer to the bill of complaint in the case brought by Frank R. Shinn and others against the Deschutes Irrigation & Power company, the Merchants' Savings & Trust company, and J. Frank Watson, took up today's sessions of the United States circuit court. Federal Judge R. S. Bean presided.

Charles H. Carey of counsel for the irrigation company, argued during the morning session. He contended that Shinn and others, who represent eastern first mortgage bondholders of the company and are endeavoring to force the appointment of a receiver, have harassed the company officers with threats of legal actions. He tried to show that the trustee, J. Frank Watson, and the Merchants' Savings & Trust company, acted fairly with the bondholders and argued that to declare the company bankrupt would work a hardship on its members and other bondholders.

SEATTLE MAN BREAKS UP PRAYER MEETING

(United Press Leased Wire.)
 Seattle, Feb. 25.—For breaking up a prayer meeting at the First Presbyterian church G. W. Kesterson is in the city jail. His sanity will be investigated.

"Hypocrites, all of you," shouted Kesterson, while the weekly prayer meeting in Dr. Matthews' church was in session last night. He had been sitting quietly up to that time. He poured forth a volume of scriptural quotations, boasted of his physical strength and denounced Presbyterians in general.

William Dresback, Dr. Frank Horsfall, Robert J. McClure and Major R. J. Chase, all prominent men, undertook to put the man out. They had their hands full, but won the first fall and were sitting on his prostrate figure when the police arrived, and Kesterson was shouting:

"Take off your glasses, you hypocrites."

DO YOU KNOW that alcohol is almost the worst possible thing for consumption?
DO YOU KNOW that many preparations made and offered as substitutes for

Scott's Emulsion

contain from 12 to 20 per cent. of alcohol, and do you know that the genuine Scott's Emulsion has not a single drop of alcohol in it?

That is one of the reasons why it is the world's standard treatment for consumption; another is its quick transformation into rich, red blood, giving immediate and lasting strength to a greater degree than any other preparation.

Scott's Emulsion is the only reliable preparation of cod liver oil; it is pure, and the most reliable treatment for consumption.
