

CHAUFFEUR CLUB WILL FIX BLAME FOR AUTO WRECK

Two Girls Injured When Machine Bearing "Joy Ride" Party Collided With Street-car Recovering.

Erickson's roadhouse, the Clackamas Tavern, a jolly breakfast for four, a telephone message for an automobile and a running crash into a Mount Scott car. This is the history of the little party which put Leona Peterson and Jennie Mitchell, both handsome young blondes living at 426 Alder street, in the Good Samaritan hospital, wrecked an automobile and injured five other persons at Grays Crossing at noon yesterday.

A short time before noon a telephone message from the Clackamas Tavern to the Funk Auto company asked that a machine be sent out to pick up two women and two men who had just left that place. These women were Leona Peterson and Jennie Mitchell, the first 24 years of age and the second 23. The girls had been at the Tavern with John Gilbert and J. C. Smith of San Francisco, or those at least are the names they gave.

Goes After Party.
John Poulsen was sent out to pick up the party, and with him went H. W. Eickmeyer, a student living at 287 East Seventh street and R. R. Thompson, 18 years of age, who is staying with his parents at the Perkins hotel. Gilbert, the two women and Smith had eaten breakfast at the Clackamas Tavern at 11 o'clock and had started walking down the road. They were picked up by the automobile a short time before noon and began their wild ride towards "Pooka."

At Grays Crossing the car, running at a rate of speed estimated at between 25 and 50 miles an hour, flashed upon a Mount Scott car which had just started across the street. It was impossible for the driver to stop the car in time to avoid an accident. The automobile tore the steps off the car and was itself smashed to kindling wood.

Thrown From Auto.
The two women were tossed out of the automobile and both badly shaken up. Miss Peterson had her right arm dislocated and was badly bruised. Miss Mitchell had her hip badly injured and was bruised. The men were also badly shaken up and bruised.

The Red Cross ambulance was called and the injured women were taken to Good Samaritan hospital where they at first refused to give their names.

"I did not hear any warning signal from the car," said Chauffeur Poulsen, "and could not see it because of a small store building on the corner. My machine was running at a speed of about 25 miles an hour. I should judge the street car, must have been going pretty fast because it sped on for two blocks after the collision."

Could Not See Car.
"There is nothing to indicate the railroad crossing and a car bound for the city is hidden from view from the road by the small store buildings."

The body of the machine was badly wrecked but not beyond repairs. Eickmeyer was bruised about the face and his coat was torn into shreds. He is in the employ of the Funk Auto company. Young Thompson, who lives on the east side, escaped injuries.

The Chauffeur club sent a representative to the scene of the collision as soon as it received the news and a thorough investigation will be held. Chauffeur Poulsen will be dealt with in accordance with the rules of the club should the investigation show that the collision was due to negligence on his part.

New Drug Cures Fever and Ague

(From the New York Graphic.)

Of all the prominent men gathered at the medical convention last week none attracted more attention than Prof. G. W. La Torre, whose new kerdene treatment for chills and fever and all forms of malaria has been so successful. While kerdene is known as a blood purifier and liver invigorator, its value as a cure for malarial attacks was not recognized until recently. Its use is growing rapidly, not only because of its wonderful merit but also on account of its low cost. You can make a full quart of kerdene tonic by dissolving one ounce of kerdene and 1/2 teaspoonful of sugar in 1/2 pint of alcohol and there adding 1/2 pint of boiling water. The dose is a tablespoonful before each meal and before retiring.

Kerdene tonic is doubly valuable in the spring, when the system needs toning up. Taken regularly for a few weeks it will do away with that tired feeling, restore lost energy and ambition, correct deranged digestion, arouse a torpid liver and purify and enrich the blood, enabling it to cast out of the system the impurities that cause salweenness, blotches, pimples and similar symptoms of impure blood.

Backache is quickly relieved by using SLOAN'S LINIMENT

Prices, 25c., 50c., and \$1.00.

WHERE VICTIMS OF DEMON RUM FOREGATHER

Flashlight picture showing interior of the "drunk" cell.

The above is a reproduction of a photograph taken Saturday midnight of "drunk" cell No. 6 in the city jail at Second and Oak streets. In this cell were men, about whom a story of the comedy and tragedy of life could be written. It would be the tale of men who are "down and out," and are confirmed victims of liquor.

The man standing in the back ground with a towel over his head is James Casey. The local police cannot keep him out of jail. Casey claims to be the inventor of a very important feature of the Westinghouse air brake, and

that he was cheated out of his rights to the patent. "Jim" Casey is known to have been one of the finest mechanics in the country 20 years ago. He was employed with the Westinghouse people and was sent to Oregon a few years ago to install the air brake on a railroad. He drinks alcohol, and sometimes will be out of jail an hour, sometimes a day, but seldom for two days. "Jim" is head "trustee," and supervises the cleaning of the jail. He generally determines his own sentence, and this will be for 10, 20 or 30 days, as he wishes. Until the past two years, the

police occasionally would have him sent to the rockpile, but now his services are needed around the station. If it were not for old "Jim" Casey, the city would have to employ an extra man to handle the drunken men, look after the fire and other minor matters. He has a cell of his own, but insisted upon being in the picture. "Jim" is harmless and honest. All he wants is enough to eat and a little money occasionally to get a drink of alcohol. The men lying on the floor were picked up by the patrolmen and were too drunk to go home. Some are in every Saturday night, but all are familiar with the police.

HARRIET DALY MARRIES COUNT

Copper King's Daughter; Husband Is Wealthy Hungarian and of Royal Lineage.

New York, March 29.—Another alliance of American millions and a foreign title was consummated this afternoon in the ceremony which made Miss Harriet Daly, daughter of "Copper King" Marcus Daly of New York and Montana, the bride of Count Anton Sigray, a Hungarian nobleman. Monsignor Lavelle of St. Patrick's cathedral officiated at the ceremony, which took place at the Daly residence in Fifth avenue in the presence of a small but notable company of society people.

Miss Daly had no attendants and her mother gave her in marriage. Count Sigray had as his best man the Marquis George Pallavicini, a subaltern of the Ninth regiment of Austrian Hussars and a chamberlain of Emperor Francis Joseph.

The bride of today first met her future husband when the count visited America two years ago with his friend and distant cousin, Count Szechenyi. On that occasion Count Anton paid much attention to Miss Daly, but it was not until they met again last summer in Scotland at the wedding of Prince Miguel de Braganza and Miss Anita Stewart that a real courtship began. Miss Daly attended the Braganza wedding with her sister, Mrs. James Watson Gerard.

Youngest of Three.
The bride is 24 years old and made her social debut several years ago. She is the youngest of the three daughters of the late Marcus Daly and his wife. Since her debut she has appeared with success in the various tableaux arranged for charity, and has been much admired for her charm of manner. During the past few years she has divided her time between London, New York and Newport.

Count Sigray, who is about 30 years old, is a magnate of Hungary and a hereditary member of the upper house. His family is one of the oldest and wealthiest in Hungary and holds many important positions. The count himself is said to be a large land owner, his estates being situated at Sabatka, in upper Hungary. Both of his parents are dead, his father having died some years ago. He has two older sisters, one being the Marquise San Marzano, who married an Italian and lives in Rome, and the other the Baroness Scheil who lives in Hungary.

Sigray Not a Stranger.
Count Sigray is no stranger in New York, having come here first five years ago in company with Count Michael Karolyi, one of his countrymen, and they were both much entertained in society. Count Sigray was also here at the wedding of Miss Gladys Vanderbilt and Count Szechenyi, two years ago, when he was one of the ushers. During his first visit in America he went to California to play polo, he being one of the best exponents of that sport in his own country, and later he went to Canada to hunt big game. He brought letters to the Astors, Mills and Goelts families by whom he has been frequently entertained.

exhaustively discussed and an endeavor made to reach a conclusion deferring lines of jurisdiction which the parties interested will agree not to invade.

Captain Poole Resigns.
Washington, March 29.—Captain John H. Poole, one of the best known officers of the corps of engineers, has severed his connection with the army, having voluntarily resigned to engage in business. Captain Poole is a native of Michigan and graduated from the West Point academy in 1901. He was former-

ly one of the military aides to the president and superintendent of the state, war and navy department building in this city.

To Hunt Bear at Coos Bay.
Husum, Wash., March 29.—E. Fish and G. A. Thomas left for the Coos Bay country with their famous packs of blooded bear dogs for a hunt of two weeks. These sportsmen have materially reduced the number of bears in this vicinity with the aid of their pack of dogs.
