

# THE EXHIBIT OF ARTS AND CRAFTS

Portland Society Opens Third Annual Display at Museum of Art.

The Arts and Crafts society of Portland opened its third annual exhibit at the Museum of Art last evening. The large crowd present was delighted with the display of beautiful hand-made goods in leather, gold, silver, copper, brass, wood, cloth, books, decorated china, pottery, baskets and other articles made by hand in these days.

The rooms of the exhibit are decorated in festoons of forest greens and dog wood blossoms so that the whole place is pervaded with a delightful fragrance of the woods.

Among the most interesting exhibits is the local one by the Frank W. Higgins school of metal work. Every department of hand metal work is represented, and of special interest is the silver ring set with lapis lazuli, by Mrs. Warren E. Thomas, which is to be presented to Madams Schumann-Haenk.

Mrs. John Claire Month has some striking designs in blue and white made in a bed spread and luncheon set. Miss Alice Winslow has two charming nursery bibs, Miss Anna Hoban an effective tooled leather center piece and in the local exhibit Mrs. M. Wood has two 24 Kt. gold rings done after the Chinese which are particularly fine work.

Some beautiful pieces of textiles are exhibited by D'Arcy Grew and not least in interest are the quilts in attractive pattern and design made by the mountain-Whites of the south.

L. K. Tuerck has a splendid piece of wrought iron work and there are charming pieces in carved wood, exquisite jewelry, books and pottery with a complete set of metal worker's tools loaned by the Honeyman Hardware company.

A number of the students in the school of design have pieces in the exhibit, among them Miss Norma Bassett, who has a rug of her own design for which she dyed many of the colors. Miss Olive Felling of the school of design won the competition for the design of the honorable mention tag which will appear later.

Goods have been sent from all parts of the United States as well as Canada for this exhibit and in the collection are some as fine pieces as can be found. The exhibit will be open until April 28 and will be open at the hours, and free on the same days, as is the Art Museum.

## BACHELOR BOYS NOW OWN HOME IN UNIVERSITY TOWN

(Special Dispatch to The Journal.) University of Oregon, Eugene, April 15.—With their April payment the Hood River Bachelors' club will own their home in Eugene. This is an organization of five students from the Hood River High school, who are boarding themselves while attending the university. The organized last year and began payment on a comfortable house in Gross addition, near the college. Each of the members finds time to pursue his studies and serve his work as housekeeper, cook and general domestic.

## LABORERS SCARCE AND ALL VAGS ARE NABBED

(United Press Landed Wire.) North Yakima, Wash., April 15.—The sheriff of Yakima county has ordered the arrest of every idle man. He wore arrested in Tappanish yesterday and sentenced to the chain gang today. Idleness is henceforth to be an evidence of vagrancy here, the sheriff reasoning that with farmers crying for help a man not working evidently does not want to work. Ranchers and contractors are unable to get men, though they offer \$2.50 and \$3 a day.

## Master Masons Meet.

(Special Dispatch to The Journal.) Eugene, Or., April 15.—The grand council of the Royal and Select Master Masons was held in Eugene yesterday afternoon, attended by about 25 from Portland, Salem and Albany, besides a large number living in Eugene. Last evening Hiram council met and initiated six candidates into the degree.

## TALKS ON TEETH BY THE HEE DENTAL CO., DENTISTS

Art and Nature There are only two things in the world—Art and Nature. The way Nature interprets Art, the way Art interprets Nature, is understanding. Nature and Art are one and the same. The man who invented the Alveolar method of dentistry was a genius, by accident perhaps, but he was a genius. He knew that his work to endure must be artistic and in close proximity to the nature of the teeth. He devised a plan by which missing teeth could be replaced more beautifully than the original, yet look and feel natural. The result has been that the Alveolar method has practically or is practically revolutionizing dentistry.

Might not accidents be avoided by the HEE Dental Co. what it is the largest and most successful high class dental concern in the world. It affords 25,000 satisfied patients to refer to in seven years is going some.

Alveolar Teeth. Where Retainers are placed. If only your front teeth are left, you can replace all those that have been lost on both sides clear back, with perfect Alveolar teeth, without bridgework would be impossible even if you had 8 or 16 front teeth to be replaced. We can supply all the front teeth that are missing with beautiful, life-like Alveolar teeth. This could not possibly be done by the bridge route. And where the Alveolar teeth are placed, there is no comparison between the two. A very large percentage of our work is being put in by supporting high class dentures and replacing it with the beautiful and artistic Alveolar Teeth. And, unlike bridge-work, by Alveolar support, it is practically painless. No biting or cutting into the gum, nothing to be dressed. Now, then, prices being equal, which would you choose?

Getting Freshen (loose teeth), a distinctive feature of our specialties. We care if absolutely. It's a beautiful statement to make that we can do any thing that is possible in dentistry. We want to do it all the way. Our highest class. Our beautiful, Alveolar Dentures. We can do it all. We can do it all. We can do it all.

THE HEE DENTAL CO., DENTISTS, 512 to 514 Broadway, Eugene, 1910, 24 St.

## OREGON TRUNK LINE SOON TO EXTEND

(Special Dispatch to The Journal.) Madras, Or., April 15.—That construction of the Oregon Trunk Line south of Madras is to be commenced at once is evidenced by the arrival yesterday of Resident Engineer H. E. Beard, who will be stationed at the Donibrow place, four miles south of this city. Division Engineer Litner, who has supervision of construction on the Oregon Trunk line for 44 miles south of Madras and extending 12 miles south of Bend, passed through town Sunday for Redmond, where he will be located during the construction of this portion of the line.

## Yakimas to Give Herb Feast.

(United Press Landed Wire.) Toppenish, Wash., April 15.—The annual "feast of herbs" will be given here next Sunday by the Yakima Indians. The feast is observed in different parts of the Yakima reservation, last Sunday the ceremony being performed at Wapato and Alifala. This is one of the most important holidays of the Indian religion. Rev. George Waters, recently elected chief of the tribe, explains the feast as follows: "This is the way our great grandfathers used to worship God for the first crop of Indian roots grown in the hills. Every year in April we do so."

## Journal Pictures Have Arrived

A consignment of 5000 pictures were received yesterday and more are enroute.

## What You Have a Right to Expect

When you pay more than one thousand dollars for a lot in Portland, you have a perfect right to expect that lot to be close in—served with excellent streetcar service—having every possible street improvement—to be near to a first-class school—to be restricted to residences only—to be surrounded by a built-up section. If you don't get all of these qualifications you are paying too much money if you pay over a thousand for a single lot. The closer in the lot—the better the streetcar service—the finer the improvements—the more severe restrictions—the higher the elevation—the nearer a large school—the more select the neighborhood—the faster will be the increase in value. Take careful note of the foregoing and investigate the section blocked off on the map at the top of this announcement. Mr. Mumford is in charge of our Irvington office, which is located at East Seventh and Knott streets, and is reached every three to five minutes all day long by Woodlawn, Alberta or any other of the lines running out Union avenue. The run to Knott street is a matter of twelve minutes only. Prices in the blocked off section are to be raised \$200 on every unsold lot May 1. Present prices for corners, 100x100, \$3000; May 1 prices, \$3400. Prices for inside lots, 50x100, \$1250; May 1 prices, \$1450. Terms: 10 per cent down and 2 per cent per month. Improvements bonded.

Rountree & Diamond, 241 Stark Street
