
MANY VESSELS TO LOAD TIMBER HERE FOR FOREIGN LAND

Reports Show Grain and Lumber Freights Firmer; French Bark Fixed for Grain for the United Kingdom.

Recent reports show grain and lumber freights firmer, and during the last two weeks several vessels have been taken for lumber to load at this port, while the French bark St. Rogatien, Captain Illiaquer, has been fixed for wheat or barley to the United Kingdom, with the option of loading here or at San Francisco. This is the first vessel taken so far, with the option of coming here for the next season's loading, although several have been taken for barley from San Francisco, but it is thought that chartering will become more active before long.

The St. Rogatien, which is a vessel of 1388 tons net register, sailed from Guaymas March 27, for Sydney Heads, and will be back to this coast for fall loading. Another vessel which was said to have been taken this morning is the British steamer Janeta, Captain Maclay, which carried a cargo of wheat out of here last season. It was stated that she would be here for May loading. She is a vessel of 2779 tons net register and will carry about 5,900,000 bushels of wheat. At last reports she had sailed from Iloilo March 23 for San Francisco, passing Moji April 1.

WILL TOW GERALD C

Gas Schooner to Be Brought Up by Oshkosh Next Trip.

When she sails tonight, the gas schooner Oshkosh, Captain Lathan, will go directly to Tillamook and Nestucca, carrying about 140 tons of freight for those ports, the freight consisting principally of sawmill and creamery machinery. As soon as she is discharged at Nestucca, the Oshkosh will return immediately with the gas schooner Gerald C, in tow from that port.

On arrival at Astoria, the Gerald C will probably be sent up here to undergo an overhauling and be put in shape for next season's run, between Astoria and the smaller coast ports.

SEE MANY SEALS

Steam Schooner Passes Herd on Way to North.

Officers of the steam schooner Gasco, which arrived at Oak street dock last night from San Francisco, say that on the trip up they saw the largest number of seals, going north, they had ever seen together on this coast.

When the vessel arrived at a point a little north of the Yaquina river, she overtook a herd of fur seals headed north, and one of the officers said this morning that it was a sight that could hardly be equalled anywhere, there being thousands of the animals swimming along, apparently under the leadership of one old fellow who was some distance ahead of the others.

They were well off shore and directly in the path of the Gasco, which was running about 12 miles out. As the vessel passed them they paid not the slightest attention to her, except that a number of them swam alongside, apparently with the desire to run a race. When last seen by the officers of the Gasco they were still swimming steadily to the northward.

After leaving the seals behind, the adventures of the Gasco did not cease, according to the cook, who says that on the way up the river, while the vessel was between Rainier and Portland, a monster chinook salmon weighing 50 pounds, was caught on the log, nearly putting that instrument out of commission before the fish was hauled aboard. Since then the officers and crew of the Casco have been living royally off the salmon.

The Casco arrived at Oak street dock this morning after discharging 100 barrels of asphaltum at Columbia dock No. 1. Before leaving up the river, she discharged 50 tons of salt at Altona, the remainder of her cargo coming to Portland. She had 4000 sacks of cement, 1250 bags of blasting sand and 150 tons of general freight for Oak street.

HAS FULL LIST

Passengers on Ramona Have to Sleep in Social Hall.

When the steamer Ramona sails from here to Coos Bay next Wednesday night, it will be her last trip in the place of the Breakwater. The latter vessel will leave San Francisco April 25, according to a statement made this morning, and will probably go directly to Coos Bay, where the transfer of equipment will be made from the Ramona and that steamer, which is under charter to the Portland & Coos Bay Steamship company for the time that the Breakwater is out of commission, will probably proceed to San Francisco.

The Ramona, Captain Nelson, sailed for Coos Bay last night, and when she left Ainsworth dock all of her cabins were full and passengers had to be given accommodations in the social hall of the steamer. She also had full cargo of freight.

TAKE STEAMERS OFF RUN

British Vessels Will Replace Ella and Erna on Central American Run.

(United Press Leased Wire.)

Seattle, April 21.—The German steamers Ella and Erna will be taken off the Seattle-Central American run and Jebsen and Ostrander will turn the ships back to their owner, Captain Jebsen of Hamburg, an uncle of the senior member of the local firm. The Ella, which is due to arrive in a few days from Corinto, will be laid off as soon as her cargo is discharged. The Erna is now lying idle at Bremerton. In place of these two liners Jebsen & Ostrander will put the Knight of St. George, the Claverly and Hermine on the run.

Both the Ella and Erna were formerly splendid liners operating between Europe and the East Indies, but they have run down of late years, and it is said the lessees became tired of waiting for repairs.

RECOMMENDS ACCEPTANCE

Quartermaster General Favors Bid of Local Firm for Lumber.

Word has been received from Washington by Balfour, Guthrie & Co., that Quartermaster General Aylesbire has recommended that their bid on 2,454,678 feet of lumber, opened at Seattle April 4, be accepted as being the lowest. The lumber is for shipment to Manila and it is probable that the local firm will get the contract.

ALONG THE WATERFRONT

Having taken on all of her supplies, the steamer North King, Captain Vollstadt, of the Alaska salmon fleet, will leave down tomorrow, and will probably sail from Astoria Saturday, for Nushagak on Bristol Bay.

After two days spent in the office here attending to routine matters Commander J. M. Ellicott, lighthouse inspector for the Thirteenth district, returned last night to Puget Sound to continue his annual inspection of the light stations there.

Carrying a full cargo of general freight, the steamer Golden Gate, Captain Anderson, sailed last night for Tillamook.

After establishing a whistling buoy at the mouth of the Siuslaw and doing some buoy work at Coos Bay, the lighthouse tender Armeria returned to Astoria yesterday morning. For the next few days she will do some buoy work on the bar at the mouth of the Columbia river.

To discharge 700,000 feet of hardwood timber, the oriental liner Rygja will move from Alaska dock to Banfield's dock tomorrow or Saturday.

In order to bring up the schooner Irene, which arrived yesterday afternoon from San Pedro, the Ocklahama went to Astoria last night. The Irene will arrive at Stella today to load a cargo of lumber for San Pedro.

The British ship Arctic Stream was moved last night from the North Bank dock to Montgomery dock No. 2, where she will load wheat.

Henry Lund, Jr., of San Francisco, was in the city yesterday, on his way to Puget Sound. He said that the German steamer Augustus, the first of the line of vesels coming to this coast on a regular line for Henry Lund & Co., would sail from San Francisco today for Portland. She has about 1200 tons of general freight from Antwerp, consigned to Taylor, Young & Co., the agents here. He said that they would have another steamer for May or June.

A river pirate, who has been operating for some time, stealing some piling from the Balfour, Guthrie & Co.'s new elevator, was captured last night by the harbor patrol. The pirate, and others who are supposed to operate in connection with him, would cut out the piling from where they were held by booms, according to Harbormaster Speier, and after setting them adrift would pick them up with a launch, cut them up and sell them.

Notices to Mariners.

The following notice to mariners was issued by Lieutenant-Commander V. S. Houston, assistant to the inspector, 12 lighthouse district, Honolulu, H. T., April 7:

Oahu, southerly side, Pearl Harbor, dredged channel buoy, 5, a second class can, has been removed this day pending the completion of dredging operations in its vicinity.

We Treat You 30 Days FREE

Blood poison can never be cured with mercury or potash. You might as well know this first as last. Medical authorities say so. The most these drugs can do is to drive the blood poison back into the system and smother it for several years. Then when you think you are cured, pitiful mercury symptoms will break out and you find that your bones have been rotting all the while. Your teeth will begin to loosen and your tissues, glands, brain and vital organs will show the terrible destructive power of the mercury and potash. Locomotor Ataxia, Paralysis, Imbecility and Premature Death are then almost inevitable. Any medical authority will corroborate these statements. The remarkable vegetable Obbac Treatment does not drive in the

Blood Poison

but drives it out. It positively contains no mineral poisons whatever, so that once cured by the Obbac Treatment you never run the terrible risk of having your bones soften, your nerves collapse, your teeth fall out, your kidneys degenerate or your brain weaken. The Obbac Treatment is a marvel, producing remarkable changes in only 30 days. This is why we offer to any blood poison victim living, no matter how bad a case, a
