Tug Has Ship Alexander Gibson With Cement in Tow-Latter Making Last Trip on Coast.

While off the Rogue river May 30 the steam schooner Johan Poulsen, which arrived in from San Francisco this morning, passed the tag Hercules with the ship Alexander Gibson in tow at 9 o'clock in the morning of May 36. The Gibson has a sargo of cement for Puget

The Alexander Gibson is now on her last trip on this coast, as when she has discharged on the sound she will take on a cargo of lumber for New York, and when she arrives at that port she will be dismantled and converted into a coal barge. The Gibson is a vessel of 2043 tons not and she is 247.3 feet long, feet beam and 31.9 feet death of 42.6 feet beam and 21.9 feet depth of hold. She was built in 1877 at Thomas-

han Poulsen said that the Hercules was making good progress with her tow, in spite of the fact that a strong northwest wind was blowing. He said that the way up the wind was fresh all the way up the coast, but that the sea was smooth.

The Poulsen strived at the Oak street dock this morning at 8 o'clock with a deckload of 150 tons of asphaltum, making the trip from the Bay City to the second assemble of the se ing the trip from the Bay City to the mouth of the Columbia river in 66 hours. She will load 150,000 feet of lumber at

TEMPERATURE ABOVE NORMAL

Yesterday, With 86 Degrees, Hottest Day of May.

The mean temperature for the month of May was slightly above the normal, according to the monthly meteorologi-cal summary issued by the local weathreached 86 degrees, the lowest temperature was 44 degrees on May 15. The normal for that month was 57.3

degrees and the mean temperature was 66 degrees, making an average daily excess as compared with the normal of 2.7 degrees. The absolute maximum for the month for 36 years was 99 degrees and the absolute minimum for the same period was 32 degrees. The accumulated excess since January 1 was 191.4 degrees and the average by the inspectors, but they will probably excess since January 1, was 1.3 minutes north, longitude 127 degrees and 28 minutes north, longitude 127 degrees and 2 minutes west, a dead whale; steamship Seward, Moore, captaily excess since January 1, was 1.3 ably reach one in a day or so.

April 7.—Latitude 7 degrees and 43 minutes north, longitude 128 degrees and 28 minutes north, longitude 127 degrees and 28 minutes north, longitude 128 degrees and 28 minutes north, longitude 129 degrees and 29 minutes north, longitude 129 degrees and 29 minutes north, longitude 129 degrees and 29

The total precipitation for May was 1.82 inches and the greatest fall in 24 hours was 1.07 inches on May 2-3. The 587,172 Bushels Left This normal for the month was 2.42 inches During Month of May. and the total precipitation from September 1, 1909, until the end of the month was 40.48 inches. The normal from September 1 to date was 41.88, and the deficiency of that period as compared with the corresponding period was 1.40 inches. The normal for 30 wet seasons was 40.18 inches.

The prevailing direction of the wind was northwest with a total movement of 4239 miles, the average hourly velocity being 5.7 miles. The maximum velocity, for 5 minutes, was 23 miles per hour from the southwest on May

Clear days during the month numbered 12; partly cloudy, 8; cloudy, 11, and those on which .01 inch or more of precipitation occurred, were 9.

CASE BEFORE INSPECTORS.

Cause of Wreck of Launch by Stanley Dollar Heard,

as pliot, testified that when just below special service squadron, has been Warrior Rock, at about 5 o'clock in the ordered detached from that squadron, evening, as the Dollar was coming up and ordered to proceed to San Franthe Columbia river, the launch shot out class, via the Strait of Magellan. The of the eddy and that he gave the signal Salem is anchored off West Eighty-

It allays inflammation, heals ulceration and soothes pal It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and

Scrofula is a blood disease manifested usually by an niceration of the

glands. It is almost entirely hereditary in its origin, being the seeds or dregs of

some specific blood poison which has been transmitted, in modified form, to the

offspring of diseased parentage. Where the blood is specially vitiated Scrofula

attacks other portions of the system beside the glands, and we see its effects frequently in weak eyes, poorly developed bodies, running sores and ulcers, sl.in diseases like scalchead, catarrhal troubles etc. While the young ere the usual sufferers from scrofulous troubles, it is true that it is sometimes held in check

this destructive blood poison by removing the germs from the blood and so en-riching and building up the circulation that the disease can not remain. S. S. S.

searches out every taint and impurity from the blood; it gives to the blood the

richness and power necessary to the healthy growth of children, and it strengthens and invigorates the constitutions of older persons, by its fine tonic effects.

S. S. S. is a purely vegetable medicine, perfectly safe for young or old. Scrofula being a blood disease can only be cured by a blood purifier like S. S. S.
