

OREGON TRAIN TO CORVALLIS

Will Leave Portland Tomorrow Morning for Corvallis to Accommodate People Who Desire to Attend Celebration.

To accommodate the great number of people who desire to attend the quarter centennial jubilee of the Oregon Agricultural college, a special train will be run to Corvallis tomorrow morning.

The Oregon Agricultural College had its origin in 1858, but its official status as a state institution dates from 1880.

Though its first few years were without special interest, it grew slowly and surely until today it stands in the great Pacific northwest.

The college officials have extended a cordial invitation to all who are interested in the welfare of our state in the activities.

This announcement means that the government's action, which has been delayed for more than 14 months, and which many feared would be killed, will come to trial soon.

TEMPERANCE QUESTION

Dr. Wilson Will Take Temperance Side, Opposed by Colonel Hofer.

Those interested in the present temperance campaign will be given an opportunity of hearing both sides of the question in a debate to be held early next week between Dr. Clarence True Wilson of the Centenary M. E. church, one of the most enthusiastic temperance workers in the state, and Colonel E. Hofer, editor of the Capital Journal of Salem, representing the other side of the question.

The debate will be held in the Hawthorne Park tabernacle on an evening to be selected during the early part of next week. It is thought Tuesday evening will be selected. The question for the debate will be: "Resolved, that prohibition will benefit the state of Oregon."

Colonel Hofer will be given his choice as to the order he will take in the debate, that is, whether he will open and close with one-half hour arguments giving Dr. Wilson the one hour argument between, or reverse the order. If Colonel Hofer makes the opening argument, Dr. Wilson will be given the word, "detachment," will be substituted for "benefit" in the wording of the question.

At a mass meeting to be held tonight in the Central Methodist church, Fargo street and Vancouver avenue, Dr. Wilson will repeat the address given recently before the Ministerial association on "Why Oregon is Going Dry, in 1910." This lecture has stirred up considerable comment all over the state among adherents of both sides of the liquor question.

Before an audience numbering about 6000 people, Clinton N. Howard, a noted temperance lecturer, yesterday afternoon spoke in the Hawthorne tabernacle on "Joy Riding on the Water Wagon." He described the property which always attends prohibition and denied the argument that liquor must be sold in hotels if they prosper. He assailed directly an editorial printed recently in a Portland newspaper, as a slur on the necessity of the sale of liquor in hotels.

She did so, but after heating it accidentally dropped it in the dresser.

MARKET A COLLEGE

Ohio City Is 122 Years Old This Month and College Established 75 Years Ago.

Marietta, O., June 12.—This is a regular home-coming week for this old city, which has donned festive attire in honor of two important events in its history, the celebration of which has attracted several thousand former residents to this famous old town which marks the site of the first settlement in Ohio and the Northwest Territory.

The celebration, which began yesterday with presiding in the churches of the city by alumni of the college and the annual baccalaureate services, will continue all through the week and will contain many interesting and enjoyable features. Today is devoted to reunions of the Greek letter societies, which will be continued tomorrow. Many of the distinguished alumni of the college have come back to their Alma Mater for this celebration and will address the students and alumni at the various meetings to be held during the week. Wednesday will be the principal day when some of the most eminent visitors will deliver addresses. President Alfred T. Perry will give a review of the history of the college and Reverend Frank W. Gunasalus of Chicago will speak on "The Heroism of Scholarship." At the alumni banquet on Thursday night Charles G. Dawes of Chicago will be toastmaster and there will be speeches from many noted guests.

Among the speakers will be Professor Edwin A. Grosvenor of Amherst college, national president of the Phi Beta Kappa; Reverend William W. Jordan, Clinton, Mass.; Colonel Douglas Putnam of Ashland, Ky.; Professor Henry B. Brown of Western Reserve university; Albert Shaw and many others. Governor Harmon and other prominent public officials are also expected to attend the celebration.

It was in 1787 that a meeting of the citizens of Marietta was held presided over by General Rufus Putnam, of revolutionary fame, to consider the plan of establishing an institution of learning. The Muskogean academy, established in a plain and modest log house, was the outcome of this meeting. David Putnam, a graduate of Yale, was the first principal. This school was steadily improved as an institution for higher education until it took on the character of a college and in 1833, at another meeting of Marietta's citizens, it was decided to establish the school upon a permanent basis. Two years later in the month of June, the institution was chartered under the name of Marietta college. Although the college was never subsidized by the state, it was maintained altogether by voluntary subscriptions. It has maintained a high educational standard and has become famous throughout the country. An effort was made by the state to raise \$50,000 to place the institution upon a better financial basis.

TEXAS DEMOCRATIC COMMITTEE TO MEET

Dallas, Texas, June 12.—In response to a call issued by State Chairman B. Stovall, the members of the state Democratic committee met here for a conference today in accordance with the provisions of the Terrell election law. The principal business before the conference will be to certify the names of candidates for governor at the official primary ballot, and to decide upon the meeting place for the state Democratic convention, which will be held on August 9. Galveston is a strong bidder for the honor of being selected as the place for the convention. Although the convention no longer has the power to nominate officers for the state, the coming convention promises to be exceptionally well attended, owing to the fact that the fight will be made on the floor on the prohibition question.

WILLIAM PITTMAN IN MADRID'S HANDS

Spirited From Rama When U. S. Consul Is Ordered to Look After His Interests.

(United Press Leased Wire.) Bluefields, June 12.—William D. Pittman, the American engineer, captured in the battle of Bluefields, is a prisoner of President Madriz at Greytown. Pittman was spirited from Rama following his capture by the administration forces and after word was received at Rama that the Washington officials had ordered the American consul at Bluefields to see that Pittman was accorded fair treatment.

It is believed that Pittman will be taken to Managua, where he will probably face trial with General Matuty on charges of treason. Pittman was instrumental in causing the death of nearly a company of government soldiers when a mine that he had planted was exploded as the troops charged upon the insurgents.

Reports from Managua indicate that the captured prisoners of the Madriz forces are treated barbarously. General Estrada is said to be preparing to ask Washington to authorize the creation of a republic to be called "New Nicaragua," which is to include half of the present state of Nicaragua, with Bluefields as the capital.

NO PUBLIC CON FOR AUTO UPKEEP

House Brings Senate to Terms—Tough on Sunny James and Uncle Joseph.

(United Press Leased Wire.) Washington, June 12.—A rebuke was administered Saturday to the proposition by the senate that Uncle Sam pay for the upkeep of the government owned automobiles used by Vice President Sherman and Speaker Cannon. These high officers were provided with expensive machines a year or two ago, and liberal provision was also made for chauffeurs, supplies and repairs. When the legislative appropriation bill was drawn up in the house several months ago, an effort to have provided \$2500 for Speaker Cannon's automobile expenses for a year was defeated. The senate generally inserted items of \$1500 for each of the presiding officers and they were among others referred to the conference committee. A deadlock resulted. The senate conference fought valiantly for the allowance, but the conferees from the house declared they would stand out until the comet arrived again, if that were necessary, to defend the treasury from this encroachment.

This rain is especially beneficial to grain crops, as it will help the wheat to fill, but it will slightly damage the cherry crop, since cherries touched by rain have not the splendid luster that they possess when allowed to ripen without rain striking them.
