

BACK TO STAGE FOR MARGARET

Actress Who Would Be Homebody Lured Again by the Footlights.

(United Press Leased Wire.)
New York, June 21.—Margaret Illington announced today her intention to return to the stage. She will be seen in a new play which will be rehearsed and produced at Tacoma. Her husband, Edward J. Bowes, millionaire real estate man, is to act as her manager. The opening of the play is planned for a date early in September.
"I have decided to return to the stage," said Miss Illington today. "I shall have a new French play. I am to have the best support obtainable and the company will assemble at Tacoma, where rehearsals will be held and where the play will be first produced."
Since the retirement of Miss Illington, more than a year ago, she has had to refuse countless offers from leading managers to return to the stage, and it was owing to the insistent demand from the dramatic world that she has decided to return.

TO DOUBLE TRACK SANDY ROAD LINE

Cutoff From East 28th to East Curnside Street to Supplement New Tracks.

Double tracking of the streetcar line on the Sandy road from East Twenty-eighth street to the O. R. & N. crossing near Rose City Park will begin in a few days. At the same time the cutoff from East Burnside to East Twenty-eighth street will be put under way.
President Jonselyn stated this morning that the improvement has received his approval and authorization, and that it is his intention to have it completed in time for the opening of the fair at the Country club in September. The cutoff will give much quicker service in the district served, and will also enable the company to handle large crowds as easily as to any other part of the city where the line has been double tracked.
Superintendent Franklin is preparing to proceed with the work without delay and the material is already on the ground. The cutoff will run from East Tenth and Burnside streets to East Davis street, thence on East Davis street to Sixteenth street, and thence on the Sandy road to East Twenty-eighth street, to connect with the line now making the turn at that point.
Sandy road runs diagonally from Sixteenth street to Twenty-eighth, and it is over that stretch that time will be saved. The cars will cross the river over the Burnside street bridge.

MONTANA COUNTY BUILDS NEW ROADS

Billings, Mont., June 21.—New roads, aggregating 30 miles in length and radiating in four directions out of Comanche, are provided for by the action of the board of county commissioners in granting the petition from citizens of the locality along the line of the Billings & Northern railroad about 40 miles northwest of this city. County Surveyor Lillis, A. S. Shannon and John H. Schroder, one of the leading stockmen of the Lake Basin country, were named as viewers, who will look over the proposed roads and submit their report at the next meeting of the commissioners.

Everyone deeply respects
A person who is guided
By cool judgment
And common sense.

If one finds that habits
Of food or drink are producing
Hints of disease, he should
Heed Nature's warnings and
Adjust his diet to keep the
Human machinery in order.

One doesn't always know
Where to commence
To correct a diet,
But one thing to stop is
coffee.

An alluring, insidious enemy
That "sings one to sleep and
then knives him."

The slow but sure effect of
Caffeine—the active drug in
Coffee—on the heart, finally
Produces weak pulse and a
Deranged, nervous system
Which grows slowly but
Steadily more pronounced
And ends in some
Fixed organic disease,
Unless the cause be removed.

"There's a Reason"

ENGINEERS LOST IN THE DESERT

Report of Davidson's Death Is Confirmed; No News at All of His Companions.

(United Press Leased Wire.)
Eureka, Cal., June 21.—No word has been received here since last Friday from Norman C. Stines and a party of seven engineers who are supposed to be lost in the Mojave desert.
The belief is general that they have perished. Last Friday morning a letter from Stines was received by an electrical company of this city ordering a shipment of batteries to Seaside, a desert station 35 miles northeast of Randburg. The batteries were sent as ordered, but their receipt has not been acknowledged nor has any member of the party communicated with this city.
It was reported here today that Mrs. Stines was coming to Eureka from Berkeley to go in search of her husband. While the intense heat of the desert at this time of the year makes such a journey hazardous, several persons have volunteered to lead her party, should the report of her proposed trip be well founded.

In the party besides Davidson and Stines was Herbert Masters. The identity of the others is not known here.

ENGINEER DAVIDSON DIES ON THE DESERT

(United Press Leased Wire.)
Berkeley, Cal., June 21.—Private advice telling of the death of Charles S. Davidson, a San Francisco engineer and a graduate of the University of California, from heat prostration in Death valley were received here today. It is also believed that Norman Stines, another member of a party of eight Berkeley engineers who went into the Mojave desert a week ago, is lost and may have perished.
Davidson is said to have died last Friday. Word of his death came to Mrs. Davidson in Berkeley. She was told of Davidson's death by Mrs. Stines, who at that time did not know that her own husband was missing. News of Davidson's death was cabled to his mother and sister in Paris.

Randsburg, Cal., June 21.—A message received here today from Soda Lake confirms the report that Charles Davidson, an engineer of Berkeley, met death in the desert near Soda Springs early this week. The message stated briefly that Davidson, while touring the Soda Lake country in an automobile with a company of engineers, was stricken with heart failure, superinduced by the intense heat of the desert.
The heat made immediate intarment imperative and Davidson's body was buried near Soda Springs. No mention was made in the message of Norman Stines, and seven other engineers who were reported to be with the party. It is believed, however, that the members of the party mentioned in the dispatch as friends of Davidson were the other engineers who have been missing since last week.

APPROPRIATIONS LARGEST OF ALL

Amount Voted by Congress to Carry on Work of Nation Is \$1,080,000,000.

(United Press Leased Wire.)
Washington, June 21.—The appropriations made by congress during the present session are the largest in the history of the national legislative body. The present congress appropriated \$1,080,000,000 in round numbers, with which to carry on the work of the nation. This sum is approximately \$85,000,000 more than ever voted before during one session.
The house adjourned at 1 o'clock this morning after passing the public buildings bill, appropriating \$20,000,000. Five Democrats opposed the measure.
The increased appropriations are the result of increases in the buildings and rivers and harbors bills. The rivers and harbors bill alone carried \$50,000,000. In spite of the excess of appropriations, there has been a saving of \$20,000,000 in appropriations for branches of the government that usually have required increased funds.

THIS CHINAMAN MUST RETURN TO NATIVE LAND

In deportation proceedings against two Chinamen, Dong Dai and Suhu Beck Jow, government authorities have been confronted with what seems to be a serious situation. Both Chinamen protested when arranged to be from San Francisco. Their stories show their ignorance of American customs and ways. They were believed to be new arrivals and foreign born. Both were admitted to bail, and when brought before United States Commissioner Cannon, they had revised their stories so that they seemed on the surface to be all right.
In giving judgment this morning Commissioner Cannon asserted that he would allow Suhu Beck Jow to remain in the country, but that Dong Dai must be deported. At the same time the commissioner expressed grave doubt, personally, as to the truth of Beck Jow's story. Dong Dai's case was appealed to the United States district court.

The hearing left the officials convinced that Chinamen are being imported to points in British Columbia, and that they are then being smuggled over the border and taken to San Francisco, unless intercepted here. All the Chinamen intercepted tell the same story that they come from San Francisco to work in camps, and are returning.

American Girl to Wed Prince.
(United Press Leased Wire.)
London, June 21.—Following a romantic meeting, Miss Dorothy Deacon and Prince Antoine Albert Radziwill will be married tomorrow. The bride to be is the most beautiful of the three daughters of Mrs. Baldwin, who was formerly Mrs. Edward Parker Deacon. Mrs. Baldwin accompanied her daughter to London. The prince was accompanied by Madame De Halpert, his mother's sister.

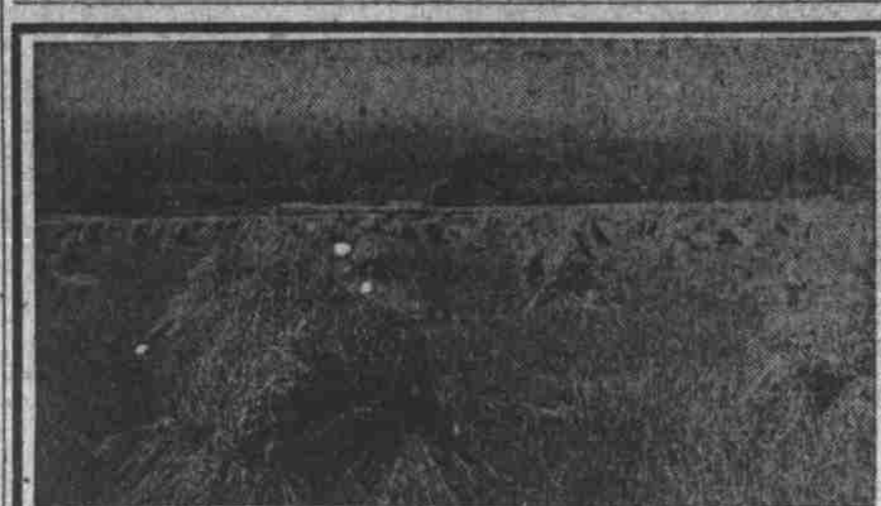

FIGHT FANS MAKE THEIR LAST RALLY

Circulate Petitions Praying McCarthy to Intercede With Governor.

(United Press Leased Wire.)
San Francisco, June 21.—Petitions asking Mayor McCarthy to intercede with Governor Gillett in an endeavor to induce the governor to permit the Jeffries-Johnson fight to take place in San Francisco are being circulated today. The petitions are addressed to Mayor McCarthy and were authorized at a meeting of San Francisco business men.
The petitions include a resolution which puts forth the financial loss to the city as a result of Gillett's order and a request that McCarthy officially intercede.

JOY RIDES CLAIM

(Continued From Page One.)
(Special Dispatch to The Journal.)
Los Angeles, Cal., June 21.—The bodies of Samuel Elmore and Mrs. M. E. Garretson, who were killed in an automobile accident at Florentia near this city last night, are being embalmed today and will be sent to Portland for burial as soon as the coroner concludes his investigation into the cause of the accident. The inquest is set for 10 o'clock tomorrow.
Mrs. Elmore, who is an invalid in

I believe the happiest man these days is the man with a farm—
THEODORE ROOSEVELT.

A few acres of Central British Columbia farm land properly worked, will make a man independent for life.

\$3.00 PER ACRE

CASH, BALANCE FIVE YEARS.

In British Columbia's greatest farming region, at the junction of four coming railroads, and 1000 miles of navigable waterways—three to eight miles from the coming inland Metropolis.

FORT GEORGE

Opportunity never comes to you, you must take it. Every one has the ability, if they have the push.

The question is, Do you want to be independent? If so, here is your chance. Irrigation unknown, short winters, warm summers, void of late frosts. Soil consists of brown loam to silts, with a clay subsoil and gravel base; will produce anything that can be grown in the temperate zone. No alkali; well watered with an average rainfall of 32 to 36 inches annually. This land is easily prepared for the plow, being covered with a scattering growth of spruce, poplar and willow. Park-like land, wild vetch, pea and bean vines grow in profusion, with wild hay in the meadows. The railroad reaches Fort George this fall from Edmonton. Call and see photographs of the country and samples of grain grown there.

This is not a speculation, but an opportunity for the man who desires a home in a coming country that will grow beyond all expectations.

SKIDMORE DRUG COMPANY

Passions, has not been informed of the death of her husband and friend, but it is expected that the news will be conveyed to her some time today. Mr. Elmore's daughter is in possession of the fact and is said to be carrying herself well under the severe strain.

Mrs. Garretson was a friend of the Elmore family; she is the wife of the manager of one of the Elmore cannery plants on the Columbia river.

Garretson Telegraphs.
Mr. Garretson this morning was at the Hotel Spokane, Spokane, Wash., and from there he telegraphed to the Los Angeles undertakers, who are in charge of Mrs. Garretson's body to embalm it and send it to Portland, which is said to be the home of the Garretsons for burial.

Mr. Elmore was considering the purchase of the machine in which he met his death. Desiring company in a final test of its merits, he invited Mrs. Garretson to accompany him. During her stay at the Van Nuys hotel here, he, it is said, often showed her the attention that was due her as a friend of his family and as the wife of a valued employee.

Car Was Speeding.
As the automobile approached the Pacific Electric right of way near Florentia a grove of walnut trees obstructed the view of the tracks. The car which struck the automobile was running at the rate of 40 miles an hour. The automobile was carried a hundred feet or more on the tender of the car before the occupants were tossed aside. Elmore landed on the ballasted right of way and his head came in contact with the rails. His skull was crushed and his body thrown to one side.

Mrs. Garretson remained in the automobile until it was overturned and then she was hurled to the ground between the tracks.
Mrs. Garretson's skull was fractured and her body crushed.
W. A. Hand, living close to the scene of the accident, thus describes it:
Driver Shouts Warning.
"I was standing within 100 feet of the tracks. I saw a dirt wagon slow up at the crossing and then heard the

driver of the vehicle shout a warning to Elmore. The latter came to a full stop, drove onto the tracks, then started forward. The labored Santa Ana car, without sounding a whistle, dashed onward and struck the automobile. The motor car was carried along in front of the car and dashed to one side, 180 feet from where the collision occurred. The car then ran more than 300 yards before it came to a stop.

"I rushed to the side of the woman and found her still breathing. She died within a minute. I then hurried to the side of Elmore, and found that he was dead."
James Chambers, a boy, witnessed the collision from the rear porch of his home. Here's his version:
Boy's Version.
"The car was going at a fast rate. The automobile was almost squarely on the track when the woman screamed and I saw the automobile picked up on the tender of the car and carried forward. Then I saw both the man and the woman tossed to one side and the car ran a long way before it stopped. When the car backed up both of the persons in the automobile were dead."

home, 558 Sixth street, by the members of his church, in honor of the first anniversary of his pastorate in Portland.
Several speeches were made commending the pastor for his excellent work during the year and wishing him good returns for the coming year. Dr.

Findley responded appropriately. He was the recipient of several presents. After the reception at the pastor's home the company adjourned to the church parlors, where refreshments were served and a short program held.
