HIND, ROLPH & CO. FOR GRAIN CARGO

British Ship Will Bring Coal From Newcastle: Take Cargo of Wheat Home for Same Company.

Another wheat shipment was added to those already listed for this port to carry out the cereal during the coming meason. She is the British ship Invera on. Captain Ledingham, and she has been chartered by Hind, Rolph & Co. for the round trip, bringing coal to Portland from Newcastle, N. S. W., and taking a cargo of wheat home,

The Inveravon is a vessel of 1758 tons net register. She will bring about 3000 tons of coal, while her wheat cargo for the United Kingdom will amount to about 115,000 bushels. She sailed from London for Melbourne on Christmas day nd was last reported March 26, when she was spoken in latitude 13 north, lengitude 27 west. She should be in elbourne now.

This is the first grain ship that has been fixed for some time for the coming on's loading and she swells the list to five ships with a total tonnage of about 550,000 bushels of grain. The other vessels of the grain fleet, so far taken, are the British ship Andromeda, 1768 tons net, with a capacity of about 115,000 bushels, the French ship Hoche 1941 tons net, capacity about 130,000 bushels, the French bark St. Rogatein, 1339 tons net, capacity about 80,000 bushels, and the French bark Vinennes, 1740 tons net, capacity about 110,000 bushels.

While an occasional grain ship is being taken, local shippers do not look for any particular activity in that line the present, as they are waiting to how things look later, according to prominent shipper who said that wheat exporters are afraid to take any ressels now because of the talk of crop shortage in some of the sections of this country, which would take all the sur-plus from this section and would leave hem with the ships on their hands. He blamed the labor situation, too, to a large extent, for the inactivity among pers in taking vessels. He also said that until they get better transportation facilities into this place and better transportation rates, they will not really know where they are going to orient at rates under those of this port, due to existing conditions.

Another factor which is said to be responsible to a large extent for slowness of chartering for grain is the fact of so much steam tonnage being headed for this coast. That class of vessel does not require being taken so far in advance because of being able to get from one place to another in so much shorter time.

RED NOSES CLEARED

Effect of Poslam, the New Skin Remedy, Is Immediately Perceptible.

"I have been troubled with red nose and eczema for nearly eight years until discovered poslam, the new magic cure. My face was a sight, and I was ashamed to be seen on the street. I was surprised to see the improvement after a month's treatment and I have a nice, clear complexion from which the pimples and my red nose disappeared like magic," says Charles F. Slutter, Wilkes-Barre, Pa. "My nose would be like a boll," says Carl D. Steinhoff, Columbus, Ohio, "not only painful but em-barrassing. I have given poslam a barrassing. thorough trial. My face became smooth and fair. My nose is a natural color and does not get sore."

Poslam is the new skin remedy, nat-urally flesh-colored, which heals and hides all skin imperfections. Although primarily intended for eczema-stopping the liching with first application and rapidly restoring the health of the skin -poslam shows immediate and surprising results when used for less serious skin affections, such as pimples, rash, blotches, inflammations, etc. Poslam is on sale in 50-cent boxes and \$2 jars at all druggists, particularly the Owl Drug company. A free sample may be obtained by mail in plain wrapper by writing to the Emergency Lab-oratories, 32 West 25th street, New York City.

"It has been supposed by many that he proposed lawyers' assembly would merely suggest names of candidates to go on the ballot at the primaries. A eading of the call for the meeting, however, shows the assembly is called under section 2791 of the code, which provides for nominations to go on the ballot at the general election. This is a section not expressly repealed by the direct primary law, although the primary law epeals all laws in conflict with it. "There is a question whether the assembly of lawyers has authority to nake nominations under this old section. If it does, the nominating by this method is opposed to the principles of the primary law. The candidates named by this assembly will go on the ballot in November whether named at the primaries or not. I suppose the lawyers'

Olympia. Wash., July 8. — Deputy
sheriffs have rounded up a majority of 55 men who fought a five hour battle at the construction camp of Rayott & Faubert on the Northern Pacific at Grand Mound yesterday afternoon. Six Americans held off 50 Hungarian laborers in a pitched battle that started when the American foreman attacked two of the foreigners who were stirring up trouble in camp.

The entire crew turned on the fore nan, who ran to a steam shovel a half mile away, where five other Americans were working. The battle began with sticks and stones as the weapons, A spectator brought word to Chehalis and a carload of deputies was sent to the scene. When they arrived they found several of the Hungarians unconscious and seriously hurt by flying and shovels.

On the appearance of the armed men the Hungarians beat a hasty retreat into the forest, carrying most of their wounded with them.
