

## PROHIBITION IS THE ISSUE IN CAMPAIGN NOW ON IN TEXAS

Four Candidates for Governor-  
ship and Nothing Is Attacked  
Except Prohibition, for and  
Against.

Austin, Texas, July 13.—The campaign for the Democratic gubernatorial nomination, which has kept all Texas in a political turmoil for many weeks, entered upon its final stage today. Ten days hence the contest for the governorship and for other state offices as well will be decided at the general primary election. With the many candidates for office on the stump, together with Senator Bailey and all the other prominent party leaders who are interested in the outcome, a whirlwind finish to the campaign is promised.

The campaign has been one of the most partisan in the history of the commonwealth, and has attracted wide attention because of the unusual bitterness of the contest for the governorship and also from the fact that the question of prohibition has been the leading issue in the fight.

**Four Want Governorship.**  
There are four leading entrants in the gubernatorial race, namely: William Poindexter, Robert Vance Davidson, O. B. Colquitt and Cone Johnson. A fifth entry, James Martin Jones, is not expected to cut much figure in the result of the contest.

A significant feature of the campaign is the attitude of the different candidates toward the business element. The support of the latter is being openly invited by all of the candidates. All of them stand for the continued growth and prosperity of the state. No outcry against so-called aggregations of capital has been raised. None of the candidates has attacked the trusts or the railroads as in previous campaigns.

There is no radical difference in the platforms of the four men who are waging a fight for the nomination for governor, except on the prohibition question. Poindexter and Johnson are expected to divide the prohibition vote, while Davidson and Colquitt are looked upon as the standard bearers of those opposed to state wide prohibition.

While the prohibition question is still the overshadowing issue, Senator Joseph W. Bailey is considered an important factor when it comes to the support that the different candidates are receiving. Senator Bailey has allowed the impression to become prevalent that he prefers the nomination of Mr. Poindexter for governor. On the other hand, it is openly declared that Poindexter was placed in the race for governor at the instance of Senator Bailey, for the purpose of dividing the Prohibition vote, and to insure the election of Mr. Colquitt. It is stated, therefore, that the vote of the Bailey followers will be divided between Poindexter and Colquitt, accordingly as the voter leans toward Prohibition or anti-Prohibition. In the same manner the anti-Bailey vote is expected to be divided between Johnson and Davidson.

In addition to the governorship the coming primary will decide the nominations for lieutenant governor, attorney general, comptroller, commissioner of the general land office, the treasurer, railroad commissioner, state superintendent of public instruction, commissioner of agriculture, judge of the court of criminal appeals, and associate justice of the supreme court. There are split contests on for nearly every place on the ticket, the candidates for lieutenant governor and comptroller being especially numerous.

**Congressmen Want to Retire.**  
Besides the various state offices an entire delegation of 18 representatives in congress is to be chosen at the primaries. The majority of the present members of congress are candidates for reelection, and most of these have no very serious opposition for renomination. Congressmen Sheppard, Hardy, Moore, Burgess, Burleson, Henry, Smith, Slayden and Gurnea are likely to be re-elected in the primary. Gordon Russell of the Third district, has been appointed United States judge, and he is the only member of the delegation not a candidate for reelection. Congressman Beall of the Fifth district has a very active opponent in the person of Dwight Lovell, district attorney of Dallas. Congressman Randall of the Fourth district also has a hard fight on his hands. The same situation faces Simpson in the Third district; that of the Second, Greg of the Seventh, Gillespie of the Twelfth and Stephens of the Thirteenth districts.

The next legislature will elect a United States senator to succeed Charles A. Culberson, whose term will expire next March. The senate will, therefore, be included in the primary vote. Senator Culberson will be a candidate for another term. No other nomination will be placed on the ballot, and Mr. Culberson's nomination is assured. As the state legislature will be overwhelmingly Democratic, this means the return of Mr. Culberson to the senate.

### SCAPOOSE MAN DIES WHEN CAPS EXPLODE

Stevenson, Wash., July 13.—John Horie, powder man for the Washington & Northern Railway company, was killed Monday when a box of dynamite caps exploded in his hand. One hand was torn off and he was almost disemboweled. Despite his fatal injuries he crawled a quarter of a mile, where he was discovered and taken to camp, where he died a short time later. The remains were shipped to Scappoose, Or., where he made his home.

**Troops Off for Maneuvers.**  
El Paso, Texas, July 13.—The headquarters band and three companies of the Twenty-third infantry left Fort Bliss today to attend the summer maneuvers at Leon Springs. The troops will proceed by rail to Del Rio and from that point will make a long overland march to the camp grounds.

**College Cornerstone Laid.**  
Flainview, Texas, July 13.—The cornerstone of the Wayland Baptist college was laid here today with interesting ceremonies conducted under the auspices of the Masonic lodge. Jewell P. Lightfoot, attorney general of Texas, delivered the chief oration.

### LOGGING COMPANY IS SUED BECAUSE IT USES DYNAMITE

(Special Dispatch to The Journal.)  
Marshfield, Or., July 13.—Deputy Game Warden Noah has started a suit which is of interest to lumbermen, as it involves the use of dynamite. The deputy swore out a warrant against the Smith-Powers Logging company charging the company with using dynamite without the permission of the county commissioners. Mr. Powers will fight the case, and will let it go to the grand jury for investigation. He claims that he has a right to use dynamite because he holds a permit from the United States government, and that it was necessary to use the dynamite in order to remove some piling in his boom on Coos river. The warden alleges that fish were killed and that no dynamite can be used in Oregon waters without a permit from the county commissioners.

### CALIFORNIA CITIES BAN FIGHT PICTURES

(United Press Leased Wire.)  
Pasadena, Cal., July 13.—The city council has passed an ordinance branding as a misdemeanor the exhibition of pictures of prizefights, boxing or sparring matches. Violation of the ordinance is punishable by six months imprisonment, \$500 fine, or both.

San Francisco, July 13.—The board of censors of the municipality has adopted a resolution instructing the police department to prevent the exhibition of the motion pictures of the Jeffries-Johnson fight and of all other fight films.

Melbourne, Australia, July 13.—Premier Fisher, replying to a deputation asking him to prohibit the fight pictures in Australia, said:  
"No manly person would think of prohibiting boxing. I myself abhor prize-fighting. Much as anyone dislikes the commercial spirit of promoting men to start an enterprise to batter one another, there can be no prohibition of the pictures unless they are indecent."

### MANY CAMPERS TREK TO CRATER LAKE

(Special Dispatch to The Journal.)  
Medford, Or., July 13.—With nearly 50 people encamped at Crater Lake, and at Arant camp, the season may be said to have fairly opened. A score of automobiles have already been driven to Crater carrying tourists from all parts of the coast. The accommodations this year are superior to those of any previous season and during the summer work is to be rushed on the construction of the lodge, which is to stand on the rim of the crater. An automobile stage line has been instituted this year and the trip can now easily be made.

### 3 MURDERERS TO BE HANGED

September Is Month Set for  
Hanging of Isaac Harrold  
and Joe Caseday.

(Salem Bureau of The Journal.)  
Salem, Or., July 13.—With the arrival yesterday of Isaac Harrold, in the custody of Sheriff Albert Dent of Lake county, there are three murderers under sentence of death at the Oregon state penitentiary, two of whom are sentenced to be hanged during September. The others are Joe Caseday, former deputy sheriff of Grant county, who was brought to Salem last Saturday, and John D. Roselair, the Washington county wife-murderer.

Unless an appeal is taken or the sentence of death is commuted to life imprisonment by the governor, Joe Caseday, convicted of murder in the first degree for killing Ollie Snyder, will swing Friday, September 2. It is understood a strong effort will be put forth to have Caseday's sentence commuted. While deputy sheriff, it is said, he was found to be a faithful officer, the offense for which he was convicted being his first.

Isaac Harrold, who committed a cold blooded murder by killing two men by whom he was employed, is sentenced to hang Friday, September 9. The crime was committed this spring in Lake county. Harrold was wounded by the sheriff's posse before being taken.

Yesterday the supreme court affirmed the verdict in the case of John D. Roselair, who killed his wife in a lonely mountain home in Washington county and Roselair must hang, though the date is not yet fixed. The prisoner will be taken back to Hillsboro for a re-sentence.

**Convention to Settle Contests.**  
Charlotte, N. C., July 13.—Much interest is manifested in the North Carolina Democratic convention which meets in this city tomorrow. Owing to the lack of decisive results in the recent state primary it will devote upon the convention to choose candidates for corporation commissioner and associate justice of the supreme court.

# LAKE LYTLE

## PORTLAND'S CLOSEST BEACH RESORT

Lake Lytle is not "one of the best," but absolutely the best beach property on the Pacific Coast.

Lake Lytle is located on the famous Garibaldi Beach, 18 miles north of Tillamook City, three hours' ride on the train from Portland, being the first beach you come to after leaving the mountains.

At Lake Lytle there is a fresh-water lake three quarters of a mile long and one quarter of a mile wide, with a gradual slope from nothing on the ocean beach side to a depth of eight feet in the middle. Two clear, pure mountain streams empty into Lake Lytle.

Lake Lytle is not a swamp or a mud hole, but has a hard sand bottom.

Between the lake and the ocean Nature has reared an ideal wind-break, a small ridge which is about 40 feet above sea level, resembling a railroad grade. This shunts the cold winds from the lots around the lake.

### HARD SAND BEACH WITHOUT A ROCK

One of the best features of Lake Lytle. From the front row of lots there is 700 feet of hard sand beach at low tide, fine and smooth, and not a stone on it. The beach, being eight miles long, makes one of the finest drives on the coast from the mouth of the Nehalem River to Garibaldi.

This beach property is owned and offered to the public by the president of the P. R. & N. R. Co., which is a guarantee sufficient of the character of improvements which will go in at Lake Lytle. Among them will be the finest depot on the beach, right on Lake Lytle. Come in our office and we will be glad to show you the plans and pictures of this building.

The railroad is now completed from Tillamook 25 miles north, running through Lake Lytle. There is only a short stretch in the mountains which separates Lake Lytle at present from railroad connections with Portland. Work on this is being pushed rapidly and will be completed the latter part of the summer.

### NOW IS THE TIME TO BUY

Now is the time to buy in Lake Lytle—don't wait until the railroad is completed—prices will then advance and Lake Lytle will be sold out. You will make the trip to the coast as soon as the railroad is completed. You will then see Lake Lytle in all its beauty. You may want to buy in Lake Lytle, and if you do you will find it sold out—the only available lots being held by speculators, to whom you must pay their prices.

NOW is the time to buy in Lake Lytle.

### FISH AND GAME IN ABUNDANCE

Lake Lytle also affords the best fishing and hunting. The lake and the mountain streams which tumble into it abound in mountain trout. With a 20 minutes' walk back from the lake you are in the dense timber, where deer and mountain game are plentiful.

The outlook from Lake Lytle is superb. Standing on the lots facing the beach and looking north, you will see Neah-Kah-Nie Mountain, the Tillamook lighthouse and Tillamook Head. Looking to the south, you will see Cape Mears lighthouse, while looking out to sea you may observe the largest ocean-going vessels passing and repassing constantly.

### CRABS, CLAMS AND SALMON

One mile north of Lake Lytle is the beautiful Nehalem River, one of the finest rivers in Tillamook County for fish, clams and crabs. Take a skiff up to the headwaters of the Nehalem and you will have an experience which will stay with you for a lifetime. It's simply great.

At this time of year you can take a skiff and make a fine catch of salmon with a troll.

The beautiful pine trees have been left on the lots. You may want them—others may not. They are left for you to follow out your own scheme of landscape arrangement.

We do not ask you to buy Lake Lytle lots without seeing them. We do ask you to come in the office and allow us to lay the plat, the pictures and the price list before you.

The only expert salesmen we have are the Lake Lytle lots themselves.

Lots \$50 and up. Easy terms.
