O. C. Phillips, Mt. Vernon, Ill., has a little son who has been cured of weakness of kidney and bladder by the use of Foley Kidney Pills. He was troubled with this annoying disorder ever since an infant. I heard that Foley Kidney Pills were good for that, and the first few doses showed a marked improvement, so we kept it up for several weeks until he had taken two bottles. He is now three years old. His kidneys and bladder are strong and regular and he is a healthy, robust boy. I strongly recommend Foley Kidney Pills to parents whose children are so afflicted. WOMEN AND NEWSPAPERS

By Winifred Black. "DON'T take the daily paper at our house. I read the news at the office, and my wife doesn't approve of the papers—they are too distressing and too harrowing with their murders, and dogmatisms, and failures in business and the like."

I heard a man, a real, live man, actually say these actual words this very day. And in business he is quite a shrewd and enterprising person, too.

I don't know his wife—I hope I shall never have to know her. Poor thing, what a little bit of a narrow, small minded, selfish creature she must be.

Too distressing, are they, the newspapers, my dear madame? Well, life is distressing, sometimes, but it's beautiful, too. A blind man misses a good many disagreeable sights, but just think of the sunsets he never sees.

I'd hate to be that woman's little girl, wouldn't you?

I'd be afraid to show her any little scratch or wound that came to be in the day's play. I would never tell her when I was sick or sorry—she might find me and my troubles too distressing to her delicate nerves.

Poor, silly creature! Why she might as well nail herself up in a wooden box and pretend she is living as to shut her eyes to the real world as it really is, and be proud of her absurdity.

Women need the newspapers as no man in the world ever needed them. Women sit, most of them as yet, in

Gutro, reader; John Claire Montieth, bartone, and Waldemar Lind, violinist.

Mrs. Thomas Holverson is the guest of Mrs. William Staiger in Salem.

Miss Minnie Dabroe of Tacoma is the guest of Miss Ida Dingle, where she is being very pleasantly entertained. Last week Miss Dabroe was the guest of honor at an evening bridge.

Pineapple Log Cabin. SELECT a large, ripe pineapple, pare eye and cut into slices about a fourth of an inch thick. Cut these across into half inch strips. Sprinkle thickly with sugar and set in a cold place until time to serve. Then carefully drain off the syrup and arrange the strips, six deep, in log cabin fashion on small china plates. Sprinkle each strip with powdered sugar and freshly grated cocconut. Fill the center with fine ripe raspberries and pour over them the syrup which has been drained from the pineapples.

A Buttermilk Luncheon. From the Boston Herald. AT a certain lunch room in New York, where numerous members of the "400" go to break their fasts, there is a buttermilk lunch menu; and as any and every other food, does not go well with this sour drink, the things they put with it at this little inn are worth considering. The buttermilk, too cold, is served in tall glasses, like unto those offered at the dairy with the same fluid. It is flanked by plates

a kind of tower like the one where the Lady of Shalott sat and dreamed her life away.

All they ever see of what is going on in the great world—they see in the mirror, the modern newspaper.

Don't you remember how the whiteful Lady of Shalott leaned on her wristful elbow and watched in her mirror the fleeting substance of life? Bold knights rode by, rosy peasant girls stepped lightly down the path, patient lovers waited in the shadows of the friendly trees, little children laughed and dipped their fingers in the brown water. And she saw them all, the beautiful lady—she saw them in the magic mirror that hung on the old walls of her prison tower.

The newspaper is the mirror wherein the average man sees the world going on about its business outside the quiet tower room of her home.

And I am one who believes that tragedies and sorrows, and bitter griefs, and terrible betrayals, should be reflected in the mirror too, as well as all the sweet and lovely things of life.

We are part of the world, we women. We are no better and no worse than the rest. If we are to bear our share of the sorrows of existence with courage and noble fortitude, we must know the real truth about what other women have to bear.

I am glad I do not know the woman who finds the daily papers too distressing to her nerves.

I am afraid she is neither a noble nor an unselfish human being.

of gluten or brown bread, a dish of sweet butter and one of some cooked fruit—prunes prepared with baking and much sugar till they are almost like candies—baked apples or very sweet stewed pears. This light lunch is as sustaining as it is refreshing, and since talk of the helpful side of buttermilk always goes on, every woman departs, you may be sure, with the feeling that she has been wise in her choice of menu.

A Couple of Novers. NEVER put clothes away unbrushed, and shoes when taken off to pull and straighten out gloves to roll up, and carefully and never sit about in a walking dress indoors, are golden rules for our readers to remember for the preservation of clothes, whilst half of the battle lies in the manner of putting them on.

Never keep milk in the same place as fish, onions, or anything that has a strong smell or flavor. All vessels in which milk is kept should be scrupulously clean—washed out and scalded in soda water, and rinsed with cold water. A special pan should be reserved for cooking milk. If milk is to be kept over night it should be scalded while fresh.

To Test Tea. TO test tea, brew a small quantity on a metal plate. With good tea the amount of ash remaining is small, increasing in quantity as the quality of the sample tested deteriorates.

Odds and Ends

It is every wife's opinion that her husband doesn't pay proper attention to the children and the screen doors.

Do not forget that tears, scoldings and force are valuable aids, but they should not be used continuously lest they lose their effect.

Deception is perhaps the best weapon a wife can use in her battle against her husband's boredom, but deception is like fire and water—admirable as a servant, unspeakable as a master. Deception should always be employed with infinite tact.

It is more important to get ready to live than to be prepared to die.

"You seem to find your book very interesting, Miss Harlow."

"Yes, it is one of the most charming stories I have ever read. And so true to life. Every man in it is a villain."

"Aunt," said little Willie, "is papa as strong as Sampson?"

"Well, mamma, said he had you on his hands for two months," was Willie's argument.

Sandwiches and Potents. THESE POLENTA—Into two cups of cornmeal, mush stir two thirds cup of grated cheese; cool and cut into slices and set in the oven to brown. The dish is known as cheese potents.

Anchovy and Olive Sandwiches—Mix to a paste two tablespoonfuls fresh butter, two tablespoonfuls anchovy paste, a half dozen minced olives, a teaspoonful lemon juice and a dash each of mustard and cayenne or paprika. Spread on thin slices of whole wheat or graham bread, press the slices together and with tin cutter stamp into small fancy shapes.

Lobster Sandwiches—Pound two tablespoonfuls lobster meat, add two tablespoonfuls butter, a teaspoonful paprika and a grating of nutmeg. Mix to a paste and spread between slices of white bread, then stamp in fancy shapes.

Roiled Watercress Sandwiches—Chop the washed and drained cress fine, season with mayonnaise, put between thin slices of fresh buttered bread, lay on top one little spray of the cress, then roll.

How to Clean a Straw Hat. TO clean a straw hat in the easiest way, mix cornmeal to a thick paste with a strong solution of oxalic acid and water. Rub paste well into the straw, and let dry, then brush out the meal.

Hats which have been sunburned must be bleached with sulphur. Remove the trimmings or hat band, and tuck hat to the bottom of a wooden tub, barrel or box. Then invert box over a dish containing burning sulphur.

Lemon juice and powdered sulphur make an excellent combination for cleaning white straws. Brush the dust from the hat, rub it with a stiff brush dipped in lemon juice, then with sulphur, then once more with lemon juice. Brush it clean, then dry in hot sun.

Chlorine water and oxalic acid are the bleaching agents found in most of the 10 cent cleaners put up by the druggists.

Apple Lemonade. TAKE six tart apples, three lemons, one-quarter of a stick of cinnamon, four cups of sugar, two bay leaves, one cup of raisins, and one orange. Wash, quarter and core the apples; put them into the bottom of a wooden tub, barrel or box. Then invert box over a dish containing burning sulphur.

To Boil Milk. THE ONE sure way to count on heating milk correctly is to cook it in a double boiler. It takes longer, but the possibility of scorching is eliminated.

These boilers are now so cheap as to be within reach of most housekeepers, but if cost must be considered, a small saucepan inside a larger one answers every purpose.

As most of us know how quickly milk burns when heating, it is well to know the real truth about what other women have to bear.

I am glad I do not know the woman who finds the daily papers too distressing to her nerves.

I am afraid she is neither a noble nor an unselfish human being.

AT THE THEATRES

"Halley's Comet."

During this week Professor Cohen will try to demonstrate to the public at the Lyric theatre that that much talked of celestial wanderer, "Halley's Comet," is inhabited by human beings. It is one of the funniest productions ever seen here.

Hip, Hip, Hurrah, Children. Thursday is children's day at Council Crest. The observatory and telescopes will be free. Prizes will be given lucky ones, and free rides to all paying one fare on scenic railway. Trip up Columbia, merry-go-round or joy wheel. Come and enjoy the day.

Trio at the Star. The trio will be heard at the Star today in absolutely new selections. At the Oh Joy something in French, English and American subjects is to be seen. At the Ocean four of the latest picture members. The Arcade offers a brand new bill tomorrow headed by "The Sheriff."

Music at the Oaks. Anybody who likes music and likes to have it rendered in the best manner possible should visit the Oaks during the engagement of the Navassars ladies' band. Each member is a trained soloist and the vocalists are no less proficient than the instrumentalists. Every afternoon and evening.

Clever Comedians at Pantages. Remarkably clever entertainers are Leonard and Ward, who present the latest Hebrew comedy offering, "Fader and Able," at Pantages this week. With amusing parodies and funny sayings they prove one of the strongest numbers on the bill.

Murray K. Hill a Hit. Murray K. Hill, the man who has made so many phonograph records, is one of the hits this week at the Grand Hill sings, tells stories and recites serious pieces, all in a manner to make the biggest kind of a hit. This is one of a number of strong acts on the current bill.

THE STRANGER WITHIN OUR GATES

A. R. Menzies, Salem, Or.—No one can estimate the value of the cherry fair to Salem. No one knows how much good it is doing every year. And this year's fair was much better than ever. From every standpoint and especially in point of interest and attendance. Like Portland's Rose Festival, it will grow each season until it will become a fixed institution, as is the Mardi Gras at New Orleans or Pioneer day at Chattanooga.

W. J. Cantonwine, Walla Walla, Wash.—Crops in general in the Walla Walla valley are much better than has been represented and people have become unnecessarily alarmed. Of course they are not as good as they could be, but the farmers expect good prices and there will be little loss over last year. There is, however, more old wheat in the valley than there has been for over 29 years, farmers holding out for higher price last fall and failing to get it.

W. G. Blackheart, Hagerman, Idaho.—The average farmer merely lives that's all. He sees no pleasures and he has plenty of sorrow. He has a home, it is true, but so has the clerk and the bartender. Yet, I can't make a change. I am afraid I would starve to death. And that is why so many stay on the farm.

Last Time Collier Tonight. The favorite comedian, William Collier, will present his latest comedy success, "A Lucky Star," at the Bungalow theatre tonight at 8:15 o'clock for the last performance of the engagement. Seat sale at theatre.

Notarial Commissions. (Salem Bureau of the Journal.) Salem, Or., July 12.—Notarial commissions have been issued to Charles H. Abel, Summit; C. E. Edwards, Allegany; May Buchanan, Medford; J. A. Lemery, Ashland; George C. Hill, Klammath Falls; William W. Banks, Russell Smith, M. J. Connor and G. B. Miller, Portland; Louis E. Rauch, Silverton; J. R. Raley, Pendleton; R. E. Parson, Orenco; F. S. Matteson, Mitchell, and J. S. Cook, Burns.

WONDERFUL CURE OF SORE HANDS

Skin Peeled and Flesh Got Hard and Broke—Blood Flowed in Fifty Places—"Single Box of Cuticura Ended Suffering."

About 11 years ago I was troubled with sore hands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least 50 places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings when I got up, to think I had to go to work and stand the pain for 10 hours, and I often felt like giving up my position.

But before I started to work mornings I would have to wrap every finger up separately, so as to try to keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. After doctoring for three years and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been eight years since I used any, and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment.

(Signed) THOMAS A. CLANCY, Nov. 11, 1909. 310 N. Montgomery St., Trenton, N. J. Send to Potter Drug & Chem. Corporation, 131 Columbus Ave., Boston, for latest 32-page Cuticura Book on care and treatment of skin and hair.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Frust, Buffalo, N. Y.
