Seattle High School Boy Released on Demand of American Physician as Condition of Treating Sick General.

(United Press Leased Wire.) Seattle, July 15.—Clifford Sands, 19-year-old Seattle high school boy, and one brigadier general in the Nicaraguan rebel army will arrive home tonight, thinking his lucky star that he is still fastened to his body. His father and mother, now residents of Mukilteo, came to Seattle this morning to meet the boy. He wired from San Francisco this week of the sudden termination of his military career and his return home. Sands was captured and sentenced to death when the Madrid army took the town of Frijoles. Toward the end of the town was defended by only the boy and his bodyguard of seven men, who put up a 40-minute defense. General Irias, the Madrid leader, came in on the night of the capture. He was in the town and toward the end of the town was defended by only the boy and his bodyguard of seven men, who put up a 40-minute defense. Charles H. Hunt, ex-chief of police, is dying at his home, 2097 Grand avenue. The attending physician said today that Mr. Hunt could live but a few hours longer. He has been in a condition of coma for several days.

NEWARK LYNCHERS NOW UNDER EXAMINATION

(United Press Leased Wire.) Newark, Ohio, July 15.—Confined in cells and denied the privilege of communication with the outside, 30 prisoners are today in the Newark jail for alleged participation in the lynching of Carl Etherington, the Anti-Saloon league detective. The prisoners are taken separately before Acting Mayor Ankels for hearing. Many have been bound over to the grand jury. Despite the outward calm, there is an undercurrent of bitter feeling in Newark and the police are maintaining a strict watch about the jail. Mayor Atherton, against whom it was expected charges would be filed as a result of the lynching last Friday of Detective Etherington, resigned yesterday. Atherton was informed that unless he withdrew the state officials would oust him from office. Affidavits charging him with neglect of duty and official misconduct in relation to the lynching, had been prepared and were held by the state ready to use against him.

Thirty-Day Test For Car Fender

Twenty-third street car equipped with Nelson fender.

The above is a reproduction from a photograph of the Nelson automatic safety fender. It is air controlled, and has been in use on many of the heavy traffic lines of the country. The fender is now installed on some of the local lines on which it was recently given a test. At the test the council passed a resolution asking the company to give the equipment a trial of 30 days. The fender is operated by a foot lever directly in front of the motorman. It operates automatically. In case the motorman fails to use the lever the fender will drop when it strikes an object. The machine is operated by air pressure of 1600 pounds.

COLORED MAN HOLDS UP BANK WITH RAZOR; SHOT AS HE RUNS AWAY

(United Press Leased Wire.) Chicago, July 15.—Gone mad as a result of his excitement over Jack Johnson's victory at Reno, a negro giving his name as "James Goldsmith, Wall street" today entered a bank operated by colored men, and was wounded while trying to escape with \$200. Shouting that Jack Johnson had told him "to get all the money in the world," the negro smashed a window with a brick and leaped into the bank. He made straight for the money counter, and holding the employees at bay with a razor, seized \$200 and started to run. Meantime a crowd had gathered. It set out after the negro. Overtaking him, his pursuers stabbed and beat the robber and fatally wounded him. He was rescued from the mob by police and taken to a hospital. It is feared he will die.

AUTO PARADE FEATURE OF ELKS' FESTIVITIES

(United Press Leased Wire.) Detroit, Mich., July 15.—A gigantic automobile parade was held in Detroit today in honor of the Elks in annual convention here. Thousands lined the route of the parade. Automobiles of practically every make were represented. So great was the throng and so intense the heat that the city ambulances were kept busy. The Elks will wind up their week of gaiety tomorrow.

Burned Trestle Delays Traffic.

(Special Dispatch to The Journal.) Chehalis, Wash., July 15.—The South Bend branch service was badly hampered today by the burning of a trestle of the Chehalis bridge, eight miles west of here near Adna. Passengers, mail, etc., are being transferred temporarily.

HEAD CONSUL OF WOODMEN ARRIVES

I. I. Book, head consul of the Pacific Jurisdiction of the Woodmen of the World, is in Portland, getting things in shape for the regular tri-annual session of the head camp of the nine states that comprise the Pacific coast jurisdiction. This meeting will begin July 25, and will be held in the Woodmen of the World hall at Eleventh and Washington streets.

The order never was as strong, prosperous and active as at the present time," said Mr. Book this morning, "and it has a brilliant and encouraging future."

"With a reserve and surplus of more than \$3,500,000, the order is the richest per capita in the United States." Mr. Book, who arrived in the city a little early this year to attend to some advance business, and the legislative committee are to meet this afternoon. In the party that arrived here last night are C. V. Benson, head clerk; F. E. Bertschy, head auditor; James Stenhouse, head manager; F. P. Hawke, head manager; Dr. T. A. Hughes, head physician; and B. M. Carr, general attorney, all from Denver, excepting Mr. Hawke, who is from Pueblo. Also his wife and two daughters and his stenographer, John W. McHenry, are here.

John Patterson, one of the head managers, wired Mr. Book this morning that he will probably not reach Portland until next Sunday. The head camp will be attended by 103 delegates and 24 officers, representing 810 camps and 105,000 members, in the nine states of the jurisdiction. Headquarters have been established at the Oregon hotel and there the committee on disbursements met last night. This committee is composed of E. E. Carrington, of Colorado Springs; D. D. Stryker, of Sacramento; A. L. Keenan, of Portland; C. W. Casler, of Seattle; and A. R. Taylor, of Oakland.

DORRANCE LOSES DAMAGE SUIT

(Special Dispatch to The Journal.) Salem, Or., July 15.—James E. Dorrance lost his action brought against the Salem Water company for \$7500 damages, alleged to have been sustained as a result of his wife's death last winter from typhoid fever. Dorrance alleged that a hole in the pipe which crosses the slough allowed the germ infected water to be sucked into the water, which was consumed by Mrs. Dorrance, causing her death from typhoid. One witness swore that he drew a fish from a faucet in his home last winter, which proved that the water could not have come through the company's filter on Minto's island. The jury brought in a verdict for the defendant water company after being out one hour.

To Assess Mortgage Notes.

(Special Dispatch to The Journal.) Salem, Or., July 15.—A letter was addressed to the county assessors today by the tax commission urging them to see that mortgage notes are included in the lists of property assessed. It is set forth that some assessors and county boards hold that it is not good public policy to tax mortgage notes, while on the other hand others are including them, which makes it difficult to apportion the state tax in equalizing the tax between the counties. The tax commission holds that mortgage notes shall be assessed.

C. Smith Is Arrested.

A warrant was issued today for the arrest of C. Smith, charging him with inciting striking mechanics to riotous and disorderly conduct. The warrant was issued at the behest of C. P. Carlson, business agent of the machinists, and his attorney, H. J. Parkinson.

AUDITOR REFUSES TO GIVE UP DEED

Wants Records to Show Harman Interests Paid for Lot Exchanged.

City Auditor Barber this morning refused to turn over the deed to the southeast corner of Third and Gilman streets to Attorney Cyrus A. Dolph, representing the Pacific Terminal company. The city was recently purchased from the city. The possession of this lot gave the city the whip hand over the railroads in forcing suitable arrangements for approaches to the proposed Broadway bridge.

In refusing to give up the deed, the city auditor did so upon the ground that nothing had been paid for the lot, and the transaction proposed by Attorney Dolph was not in compliance to the ordinance specifying the sale of the lot. The auditor further demanded the \$12,500, which the company bid for the lot, and also wants to be sure the title to the same is clear.

It is the idea of the company to trade deeds, since the ordinance specifies that the city shall purchase an adjoining lot from the railway company. While the price for the two lots is the same, the auditor wants his books to show an exchange of money, or a sale and purchase.

Attorney Dolph left the city hall without the deed. The auditor wants the opinion of the city attorney. The ordinance for the sale of the lot at Third and Gilman streets authorizes the executive board to sell one lot and purchase the other. It is further specified that the price to be paid for the new lot shall be a sum equal in amount to that received for the sale of the city lot.

The ordinance passed the city council March 9, and was signed by Mayor Simon two days later. This act proved to be the throwing away of the whip by the city, as the railway company must have the lot upon which to place their west approach to the new steel bridge which is under construction. The company bought the lot at auction for \$12,500, and the city will pay that amount for the lot adjoining. The company could have paid \$1,000,000 as easily, or any sum, for the city would have had to pay the same sum for the other lot. Mayor Simon is not particular which way the affair is settled. He says it amounts to nothing after all but an exchange of deeds. However, he says if the auditor wishes his books to show a cash sale and purchase he will not object.

FRIENDS WORRY HATLESS MAN WITH QUESTIONS

"Lose your hat on the Jeff-Johnson blow off?" "What s'matter, did your skylpee blow off?" "Are you showing your pretty hair?" "Isn't your head cold?" B. Lee Paget, secretary of the Portland Trust company, answers all these questions a dozen times a day. His thinking hair has caused him to taboo the hat and for several days he has been hiking about the streets and commuting to his Oak Grove home without a lid. "I don't mind answering questions," he said, "but the subject of hats grows monotonous. I'm going to have cards printed with a large 'No' on them, and whenever a person wearing a quizzical expression approaches me, I am going to hand him one—a card, I mean."

Johns Indorsed as Astoria J. P.

(Special Dispatch to The Journal.) Astoria, Or., July 15.—A meeting of the Clatsop County Bar association was held this morning and Claude M. Johns was indorsed for the position of justice of the peace for Astoria precinct at the coming primaries.

WILL ASK PEOPLE FOR NOMINATION

Henry E. McGinn Announces Candidacy for Judgeship Against Cleland.

Henry E. McGinn.

Henry E. McGinn this morning formally announced his candidacy for the Republican nomination for circuit judge of Department No. 3, against Judge John B. Cleland, who is a candidate to succeed himself.

Mr. McGinn stated in making his announcement that he was not an assembly candidate, but was opposed to the assembly. Further than that he did not desire to make any statement at this time. He is a former member of the bench of the Multnomah circuit court. He has been a member of the state senate from Multnomah county and has been one of the leaders in the enactment and consequent support of the direct primary law and popular legislation.

ACCUSED OF THEFT TO PROSECUTE ACCUSER

(United Press Leased Wire.) San Francisco, July 15.—J. Noble Jones, president of the Madeline Land & Irrigation company, and John Niemeyer, advertising manager for a mail order store, arrested on charges of having stolen \$1000 in gold dust and nuggets from the Southern Cross mine near Oroville, today, promise trouble for those responsible for their predicament. They were employed by I. L. Rosenthal, principal owner of the mine. Rosenthal caused their arrest. After being in the local jail, Jones obtained bail, and Niemeyer went to Oroville with Sheriff Chubbuck of Butte county, where he says he will have no difficulty in establishing his innocence. "I am a victim of malicious prosecution," said Jones. "I have been in business in San Francisco for a long time, and no one ever accused me of shady dealings. I shall consult my lawyer as to what action I shall take." Niemeyer says he also will seek redress.

EMPLOYERS SAY EVERYTHING OFF

Pennsylvania Officials Issue a Statement Utterly Rejecting Demands.

(United Press Leased Wire.) Philadelphia, July 15.—The Pennsylvania railroad officials this afternoon issued a statement in which they stated that negotiations with their employees had been declared off. The statement says the demands of the men are virtually that they want 11, 12 and 13 hours pay for 10 hours work. The scale demanded, it says, is higher than the present rates on the New York Central and the Baltimore & Ohio. The employees' committee is required to stand firm and the members declare that the demands they have made will be enforced.

Assistant President Wilson of the Brotherhood of Locomotive Fire Engineers, conferred with President Lee of the conductors and President Garretson of the trainmen. After his conference he went to his home in Philadelphia. He refused to issue any statement and would not discuss the conference.

The firmen and engineers of the Pennsylvania lines west of Pittsburg voted with the trainmen and conductors on the strike question. They will go out with the other men if a strike is called on the western system. Pittsburg, Pa., July 15.—While the crisis in the affairs of the Pennsylvania lines east of Pittsburg was growing acute today General Manager Peck of the lines west of Pittsburg conferred this afternoon with committees representing 10,000 employees of the road, who had voted their willingness to strike.

The committees represented the Brotherhood of Railway Trainmen and the Order of Railway Conductors, who are demanding a written, ironclad contract giving them better wages and hours. The men are employed between Chicago, Cincinnati, St. Louis, Louisville and Pittsburg.

Manager Peck has promised the men a definite answer this afternoon. The employees, however, regard the manager's attitude as part of a "waiting game" by the railroad and believe the present deadlock will not be broken. They declare they will strike unless the company signs an agreement. The strike vote of the trainmen was a surprise to the Pennsylvania officials. They said the men on the western lines were working under nearly the same conditions that the eastern employees are demanding.

Washington, July 15.—Chairman Knapp of the Interstate commerce commission and Commissioner of Labor Neill have not as yet been requested to act as mediators in the threatened strike of the trainmen and conductors on the Pennsylvania railroad. They are ready to act if their services are requested as arbitrators under the Erdman act.

ABOUT THE COOLEST SUICIDE ON RECORD

(United Press Leased Wire.) New York, July 15.—The authorities declare the suicide of the stranger who jumped from the Brooklyn tower of the Williamsburg bridge to the roadway 200 feet below was the coolest exhibition in the history of New York's "bridge" suicides. Some minutes before his leap the stranger accosted a passerby at the bridge entrance. He rolled a cigarette and gave the man one. After studying the race track news of a sporting extra, he handed the paper to the man, remarking indifferently on the outcome of a race. Then without a word he climbed the tower and leaped. It is believed the suicide had been disappointed in love.
