On Best Good Roads
We never take a person out to see Banner Acres who does not say it is the most sightly tract he ever saw. Indeed, it is not surpassed by anything in the west, and the soil is of where good water—the very best, purest and coolest—can be had at a shallow depth, the very best good roads in the state lead through the tract. There is a good school, good neighbors, rural delivery—everything or ideal homestead, and yet our price is only \$100 to \$150 per acre, on easy terms. If you will let us take you out you will agree with us that there is no other acreage buy, AT ANY PRICE, on this market.

In British Columbia's greatest farming region, at the junction of four coming railroads, and 1000 miles of navigable waterways—three to eight miles from the coming inland Metropolis.
FORT GEORGE
Opportunity never comes to you, you must take it. Every one has the ability, if they have the push. The question is, Do you want to be independent? If so, here is your chance. Irrigation unknown; short winters, warm summers, void of late frosts. Soil consists of brown loam to silts, with a clay subsoil and gravel base; will produce anything that can be grown in the temperate zone. No alkali; well watered with an average rainfall of 28 to 30 inches annually. This land is easily prepared for the plow, being covered with a scattering growth of spruce, poplar and willow. Park-like land, wild wheat, peas and bean vines grow in profusion, with wild hay in the meadows. The railroad reaches Fort George this fall from Edmonton. Call and see photographs of the country and samples of grain grown there. This is not a speculation, but an opportunity for the man who desires a home in a coming country that will grow beyond all expectations.
