

CAUSE OF WRECK

Experts of Opinion That Derailment in California Was Due to Solar Heat.

(United Press Leased Wire.)
Sacramento, Cal., July 21.—That expansion of the rails due to the heat of the sun and the resulting buckling of the steel was the peculiar cause of the wreck of the Oregon Express on the Southern Pacific at the Feather river bridge near Marysville on Monday, in which three railroad men lost their lives, is the official explanation of the accident as given out by the company. No blame attaches to any employes of the road.

The evidence showed that the train was running at four miles an hour. The weather was unusually warm. During the entire morning the rays of the sun were shining up heat in the rails. The approach to the bridge, which is being newly ballasted and raised, is three per cent down grade. The rails had probably been "bunched" or crowded together owing to expansion.

This bunching was aggravated when Engineer Condon's train came down the grade toward the bridge with the air-brakes holding the coaches in check. It is believed that the rails must have been kinked out of line by the heat just a few feet ahead of the locomotive.

The engine then climbed the guard rail on the bridge and plunged to the river bed below. Not a spike was drawn from the rails and this is held as conclusive proof that the theory advanced by the company is correct.

SWEETHEARTS PATCH UP QUARREL 25 YEARS OLD

(United Press Leased Wire.)
Garden Grove, Cal., July 21.—Separated by a lover's quarrel 25 years ago, Bishop S. Garrison and his bride, who was Miss Eva E. Rugg have started on a honeymoon which they declared would last longer than the quarter century they lived apart. Garrison and Miss Rugg were engaged when both attended a little college in New York. The cause of the quarrel which separated them may have to do with the way of collaring each, but was kept faithfully until fate brought them together here a week ago.

Garrison and his bride will start to-day for Oakdale, N. Y., to spend a part of their honeymoon near the scene of their betrothal.

LOSES CONSCIOUSNESS AND WAGER OF \$2.50

(Special Dispatch to The Journal.)
Cottage Grove, Or., July 21.—While Charles Dyer, a young man of this city, was attempting to cross over Main street hand-over-hand on a telephone cable, 35 feet above the street, he became exhausted after having gone two thirds of the distance, and fell to the ground, sustaining a fracture of the right forearm and badly bruising his right hip. He had made a wager of \$2.50 that he could successfully accomplish the feat. He was picked up unconscious, but speedily recovered.

COUGARS GET GOATS OF COTTAGE GROVEITES

(Special Dispatch to The Journal.)
Cottage Grove, Or., July 21.—Elliott Geer, a rancher residing 13 miles south of this city, shot and killed a cougar measuring nine feet. The ranchers of that neighborhood have been missing goats from their bands for some time past, and yesterday morning the carcasses of five were found in the hills. They at once set out to hunt the cougar, and the dogs treed it within an hour. Cougars have killed 88 goats in this neighborhood this spring and summer.

Lutherans to Meet at Pen-Mar.

Pen-Mar, Pa., July 21.—The big Lutheran reunion, which has been held here annually for 24 hours, met today with a large attendance of representatives of the denomination throughout Pennsylvania, Virginia, West Virginia, Maryland and the District of Columbia.

TALKS ON TEETH

BY THE REX DENTAL CO.
What Are New Teeth Worth?
Many an unfortunate wearing a partial plate or a bridge has said: "It gives a thousand dollars for my old teeth."
We can restore lost teeth for a great deal less money.
All we ask is that you have two or more teeth in either jaw.
The rest is easy for us with the Alveolar Method.
Not only put them back, but restore them so you will never miss those nature gave you and which have been lost by poor dentistry or disease. Hard to believe, isn't it?
Our offices are in the Abington bldg., 105 1/2 2d st., and all we ask is a visit from you and the privilege of making a careful examination absolutely free.
If we decide that we can do the work successfully we will tell you so. It is painless. What is such work worth? Patients of ours to whom we have referred have said that it would be difficult to put a value in dollars and cents on the work if they were to measure it by the satisfaction and enjoyment it had brought. PRICELESS!
Pyorrhea (loose teeth), the most dreaded disease of the dental profession, commonly known as Riga disease, a disease that dentists as a whole have given up as incurable, we claim to cure and guarantee the cure to be permanent. We have hundreds of cases to refer to right here in our home city. There is no day that we do not discharge one or more patients from our office as cured of this awful disease.
In a majority of our advertisements we lay great stress on our speciality, Alveolar dentistry, replacing missing teeth without a plate or so-called bridge work. The work is so remarkable in its character that it is apt to overshadow those other cases which come to us—the simple cases. We don't want the idea to obtain that we are Alveolar specialists alone. We are that, but something more—general practitioners of the first class. We do dentistry in all its branches from the simple piece of filling up, and our charges are reasonable—more so than that of the average first class dentist. Send for Dr. Rex's booklet, "Alveolar Dentistry," it is free.
Along with this booklet we will send you a long list of patients for whom we have done this Alveolar work as reference. All will tell you that it has proven entirely satisfactory. We will also show you testimonial letters from satisfied patients.
Remember that poor dentistry is expensive at any price. Although the best may cost a little more in the beginning, it's the cheapest in the end. The Rex Dental Co., Abington, 311 to 314 Abington bldg., 105 1/2 2d st., Portland, Ore. Terms 10 reliable people.

EASTERNERS INVEST IN ORCHARD VENTURE IN DOUGLAS COUNTY

(Special Dispatch to The Journal.)
Roseburg, Or., July 21.—One enterprise has been developing quietly in the Umpqua valley during the last year which means a great deal to Roseburg and the Umpqua valley. It is the Overland Fruit & Development company, which is planting orchards in the valley simply as a fruit raising proposition. The company has the distinction of not having a foot of land for sale and of never having advertised its stock in any paper.
The Overland orchards are situated at the head of Garden valley, a few miles northwest of Roseburg, and show a cultivation equal to the best. Visitors may drive through scores of acres in which not a weed is to be seen, and not a tree is out of alignment.
The company was organized in Boston in June, 1909, with a capital stock of \$50,000. The president is Donald McAllister of the Boston chamber of commerce, and the treasurer and general manager is Charles A. Brand, who for eight years was managing editor of the Pilegrim Press of Boston. The stockholders of the company are quite largely professional men, most of whom cannot come west to raise fruit, but are sending their money west and are going into business by proxy.

JUDGE BRONAUGH WINS CASE FOR HIS CLIENT

Ex-Circuit Judge E. C. Bronaugh appeared as an attorney in the circuit court yesterday for the first time since his retirement from the bench and won a victory for his client. He took the place of George S. Shepherd as attorney for Mrs. Zada Moore and resisted an application by Frank Motter, attorney for Anthony Moore, to have his divorce case set for immediate hearing as a matter of urgency.
The application was made because Arthur J. Moore, son of Anthony Moore, wants to sell a tract of land deeded by his father, his mother did not sign the deed and so far has refused to do so. As the father had only a life estate in the land, the mother had no power, but those negotiating for the land have turned down the abstract because her name did not appear.
Judge Morrow said his sympathies were with Moore, but he was unwilling to advance the trial when neither husband nor wife is directly interested. He took the view the court is not obliged to act because some fanatic who wants to buy land does not know the law and will not accept the deed without Mrs. Moore's signature.

WHITE RIVER POWDER PLANT CHANGES HANDS

(Special Dispatch to The Journal.)
The Dalles, Or., July 21.—The transfer of the electric power plant at White River, 30 miles south of The Dalles, from the Wasco Warehouse Milling company, to the Columbia Light & Power company, took place this week. The plant furnishes light and power for The Dalles, Dufur and Tygh valley, all the machinery in the three places being driven by electricity generated at the White River plant. The new owners have begun enlarging the plant and promise to increase their power by 100 horse power. The improvements to the plant will be completed by December 1.

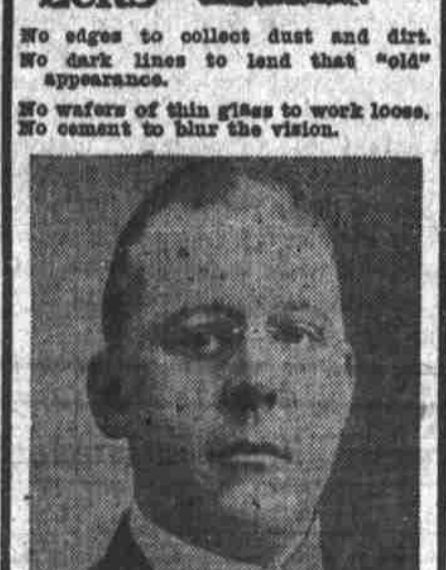

ROYAL ARTIST LOVES LUXURY

Princess Parlaghy of Hungary, Who Paints Pictures, Pays Fortune for Apartments.

(United Press Leased Wire.)
New York, July 21.—That love of luxury, even at the cost of lavish expenditure of money, goes hand in hand with the artistic temperament, has again been demonstrated by Princess Parlaghy of Hungary, who has reserved apartments for next season at the Plaza hotel that will cost her between \$35,000 and \$40,000.
The princess is an artist. She has painted portraits of such Americans as Joseph Choate and Edwin Markham, and she hopes to get a sitting from President Taft. So when she sailed back to Hungary yesterday, she announced that

she would return within a few months in order to make her stay perfectly enjoyable when she comes back she contracted for the luxurious apartments.
Death of Dalles Woman.
The Dalles, Or., July 21.—The remains of Mrs. Susie L. Phillips, who died at her home in this city Tuesday morning, were laid to rest in Old Fellows cemetery yesterday. Deceased, whose maiden name was Suchman, was born in Germany on March 19, 1831, and came with her parents to America when only a year old. Her father was a soldier during the war of the rebellion, and came to Oregon in 1875. In 1880 she was married to C. L. Phillips, who

with an adopted daughter, survive her.
Film Service Meeting.
Detroit, Mich., July 21.—More than 100 delegates, representing millions of dollars invested in the moving picture business in the United States, rounded up at the Hotel Fontchartrain today for the annual convention of the Film Service association. The association, of which A. J. Gillingham of this city is president, controls about 75 per cent of the film licenses throughout the country. Various questions of importance to the business are slated for discussion at the convention.

The Last Carload of Club Pianos

Five More Club "A" Pianos

THIS \$350 PIANO FOR \$237 —PAYMENTS \$1 A WEEK

THIS \$450 PIANO FOR \$297.50 —PAYMENTS \$1.25 A WEEK

ONE MORE CHANCE TO OBTAIN A CLUB "A" PIANO, IF YOU ACT QUICKLY.

LAST CARLOAD -- LAST CHANCE -- END NEAR OF PORTLAND'S GREATEST PIANO SALE

The last carload of club pianos has arrived. It contains the final shipment of the 824 pianos for Eilers Cooperative Piano club members. Five more pianos for Club "A" and eleven for "B" were in this car. "A" and "B" have proved the two most popular clubs. If you want one of these really elegant pianos, you'll have to hurry, as they won't be here long. Positively no more \$350 pianos will be sold at \$237, nor \$450 instruments at \$297.50, when this lot is gone. \$1 or \$1.25 weekly is all members are required to pay to own one. A few more Baby Grands and Player Pianos, which we have difficulty keeping in stock at even our regular price of \$850, can be purchased on the club plan for \$586—exactly \$264 less—and can be paid for as little as \$2.50 weekly. No home can possibly have an excuse, nor can blame any one for not owning a good piano, when such fine instruments, on the basis offered by Eilers Piano Club may yet be obtained. High-grade, dependable Upright Pianos, Player Pianos and even Baby Grand Pianos can be bought at such remarkably low prices and on such absurdly low terms that almost the humblest home can pay for one without hardly missing the money. Nearly 800 homes have shown their good sense in joining Eilers' Piano Clubs in the last few weeks, practically obtaining their pianos at wholesale prices. Free musical instruction, free insurance, free tuning and free delivery are advantages gained by joining Eilers Piano Clubs.

Over 30 of America's finest pianos are here for you to select from—including such well-known favorites as the Chickering, Kimball, Decker, Lester, Marshall & Wendell, etc., not to forget our New York's aristocratic piano, the Sohmer, and the Hazelton. Every piano is doubly guaranteed, first by the makers, then by Eilers Music House. You can make no mistake by buying your piano now. The mistake will be if you don't. After these clubs close you will have to pay \$113 to \$264 more for the same piano—and the terms of payment, too, will be more. Only by selling so large a number of pianos and in one sale, are we able to make the prices, terms and advantages given club members. Don't delay another day, but come in at once and select your favorite instrument. Delivery will be made at once. No waiting. No red tape.
