

MT SCOT PEOPLE
RISE UP IN WRATH
AGAINST SERVICE

At Monster Meeting Denounce System of Company Which Supplies District With Water—Want Officials Ousted.

Residents and water users in the Mount Scott district to the number of 100 gathered last evening in the Cunningham hall at Myrtle Park to discuss the water question.

It was decided by resolution to oust the management of the Woodmere Water company, and place a man there who would give them service.

Censures Company. In speaking for the resolution, Mr. Jobelman said: "I charge that the Woodmere Water company stands a self-confessed violator of all its pledges to the people of this community."

The Woodmere Water company has inflicted unnecessary inconvenience upon the people by establishing its own rules. It has assumed the power arbitrarily to deprive certain consumers of the use of water altogether, and this on the flimsiest pretexts based on absurd rules.

The league further resolved to take the necessary steps to secure a large and comprehensive water main system. A committee will be appointed to work in connection with the other East Side clubs in going before the water board.

Dr. Hamilton Meade, of the South Mt. Taboy Push club, said he has seen his wife so angry that he was afraid to go in the home. The reason was that she did not have enough water to make a cup of tea.

The intentions of the Seventh Ward league is to insist that the city lay a large system of mains, and pay for all over 10 inches. All under will be paid for by the water users.
