ECONOMICAL HOME BEAUTIFYING

By a Reader.
THIS is a topic that requires a lot of thought and appeals to the rural sister as well as the city cousin. It is natural for most natures to love beauty, and in no other place can it be exercised as in our own home. Here a woman has a chance to bring forth her artistic nature. Beauty is one of the cheapest things on earth, if we only think so.

Have the rooms harmonized in color and don't have anything too good to use. Don't fill the house with cheap imitations, but what you get, get good. I don't care for sets, but keep in touch with color and harmony.

If one can't afford carpets, paint the floors, and rugs always look nice. There are endless ways of making these. Curtains of dotted swiss or cheesecloth are nice and airy; if one can stencil, so much the better. You can put such a pretty border on cheesecloth curtains.

Upon their return they will reside in Irvington.

Mr. and Mrs. A. G. Vogt and daughter, Miss Luella, returned Friday from an eastern trip, having visited in Denver, Washington, Baltimore, Philadelphia, New York, Chicago and Salt Lake City.

83,000 ACRES OF TIMBER BURNED IN SOUTHERN OREGON

(Continued From Page One.)

La Grande yesterday with 30 men to go to Laid creek. He will be met by Ranger Parker with 20 men from North Powder. Quantities of dead timber, dry as tinder, add volume and speed to the flames.

Three New Fires Reported.
Assistant Forester Buck reported three new fires. On Three Mile creek 300 acres are burned over and 14 men are fighting back the blaze. A serious fire has been reported from Dead Indian creek. Five men are fighting a fire between Huckleberry Lake and Applegate Mine.

Ranger Wright has 20 men on the road to the Clover creek fire. The Weyerhaeuser interests are sending 20 men. These will reinforce 40 men who have been fighting. Fifty men from Seattle are being sent to the fire. Ashland is no longer in danger of destruction. One hundred soldiers have been sent to the Crater Lake national forest where the fire is almost uncontrollable. This increases the fire fighting force to almost 1000 men.

The fire on Green river in Washington is more serious today and is spreading rapidly. Fifty men from Seattle are trying to hold it in check.

Deputy Supervisor Shalley of the Oregon national forest reported to District Forester Chapman today that he had inspected all the Bull Run watershed and found conditions of great concern. All along the watershed a strong patrol is being maintained. Should fire break out Portland's water supply would be seriously endangered.

District Forester Chapman returned to Portland headquarters from the Whitman national forest last night. He will probably remain in Portland several days before going into the field again.

FIRE ON CALAPOOIA THREATENS FINE TRACT TIMBER; FLAMES SPREAD

(Special Dispatch to The Journal.)

Brownsville, Or., Aug. 24.—Word was received in this city yesterday morning that a fire was raging in the timber tract on the east side of here, along the banks of the Calapooya river. Charles S. Hand, deputy fire warden for that district, phoned in a call for help, and within a few hours a crew of ten men, under the leadership of O. S. Boyles, a local timber cruiser, were on their way to the fire. There has been a small fire in the north half of section 4, township 15 south, range 1 east, for several days, but it was thought to be under control until the wind commenced blowing yesterday and since then it has been spreading with great rapidity. At present the fire is at the very edge of the finest body of timber along the Calapooya river and if not checked at once will in all probability destroy most of the lumber in that section. Most of this timber is owned by the Drew Lumber company of Portland, who but recently acquired it from the Calapooya Lumber company of this place. Word

Chicken Tamales

Three cups of cooked chicken meat, six red peppers, quarter of a cupful chopped onion, half a cupful vinegar, one cupful fine bread crumbs, one cupful tomatoes, ten chopped olives, one egg, seasoning of salt, pepper, and paprika. Chop the chicken meat, Chop peppers and onion, and soak in vinegar for one hour. Drain, add remaining ingredients. Shape like croquettes. Roll in corn meal and wrap in corn husks. Tie the ends to keep the mixture in. Steam for three hours. Dry in the oven for 15 minutes. Serve hot.

Egg Balls.
Four hard cooked eggs, one raw egg yolk, flour, salt, red pepper, one white egg, bread crumbs. Mash yolk of eggs, add seasonings and enough yolk of egg to form a paste. Shape into balls the size of a walnut, dip in beaten white of egg, roll in flour, and then in crumbs, and fry in smoking hot fat. Drain and serve with soup.

Mock Champagne.
Three lemons sliced, 5 cents' worth of ginger root, 5 cents' worth of tartaric acid, one gill of yeast (a wine glass full), three gallons of water boiled to blood heat. Press the lemons and ginger; dissolve the sugar in the warm water and tartaric acid, then add yeast. Let this stand in the sun three hours. Cork firmly and be sure not to drink too much.

Southern Stewed Tomatoes.
A spoonful of beef drippings in the spider, when hot, stir in tablespoonful of flour and large minced onion. When the flour is browned put in six large peeled and sliced tomatoes (or one can), one teaspoonful of sugar, one of salt

I think the living-room should be the most attractive. This should look as if family meetings could be held here without fuss or ceremony. A dining-room should give a sense of richness and neatness, a parlor cheerfulness, and a bedroom repose. All rooms should have a "homey" look—as if some one lived there and was ready to welcome the visitor. If everything is stiff and always at a certain angle, one feels repelled instead of welcomed. A nice fern, a bird, good books and a few good pictures add beauty.

If one's furniture is old it doesn't cost much to go over it with a good polish or cover its shabbiness with some pretty washable stuff, keeping the color scheme in the different rooms.

This topic brings our home made articles of last month in play. Some may say, "I don't spend even so little in improvement," but here in Oregon there are so many ways a woman can add to her pin money.

has been received from Wells Gilbert, a representative of the Drew Lumber company, that he will be in this city this evening and will go at once to the fire.

FIERY FIRE SWEEPS LOOKING GLASS RIVER FOR OVER EIGHT MILES

(Special Dispatch to The Journal.)
Walla Walla, Aug. 24.—One of the worst fires that has ever been fought from this city is now raging on the Looking Glass river, near Toll Gate, 25 miles from here. The fire is about eight miles long and apparently beyond control.

Automobiles with fire fighters went from here yesterday and today to fight the fire, but there is so little interest taken in the matter, and people are so reluctant to go, that little headway has been made in securing enough men to fight with anything like the necessary force to exterminate the flames.

The flames are sweeping both sides of the Looking Glass, and a large area has already been swept. Back-firing was reported, but the first back fire proved unavailing, and the brands of blazing wood were hurled across by the wind which was blowing in that vicinity.

At the Toll Gate and at Hill Camp, nearby, the campers have taken to open ground, and many are returning to this city, the smoke and falling ashes making the camps untenable.

SPARKS FROM DONKEY ENGINE START FIRE AT YACOLT, WASHINGTON

Yacolt, Wash., Aug. 24.—Fire set by sparks from a donkey engine wiped out the North Bank Lumber company mill, three miles north of Yacolt yesterday afternoon. Three hundred thousand feet of lumber was burned. The loss is \$10,000. The fire is still raging to the southeast in a wide path, and several homes are in danger. A large force of men from Amboy and Chelatchie is fighting the flames. The North Bank Lumber company failed last April and went into the hands of a receiver for the benefit of its creditors. The lumber was recently purchased by the Duboyes Lumber company of Vancouver, which had just started to ship it.

AT THE THEATRES

Comedy at the Lyric.
"Paquita" by the popular Edward Armstrong Musical Comedy company at the Lyric theatre this week, is full of snap and ginger. The comedy, clean and witty, and numerous song numbers will please all. Ethel Davis, in the title role of Paquita, is as charming as ever.

"Jack the Giant Killer."
It is an entertaining bill throughout at the Orpheum this week, headed by Captain George's "Paquita," a production of the beautiful old fairy tale, "Jack, the Giant Killer." Don't forget the reception matinee Thursday, Friday and Saturday on the stage immediately after the performances.

Thursday Children's Day.
Tomorrow is children's day at Council Crest free amusement park. As usual, six prizes will be given the winners in the merry-go-round, scenic railway and trip up the Columbia. Two trips for the price of one will be given in the above attractions.

At the Oaks.
After a most successful season at the Oaks, John C. Weber's prize band closes its engagement tonight, much to the regret of Portland music lovers, who have heard this great band and its vocalist, Miss McHaffey, with so much pleasure for the last few weeks.

Baseball at the Star.
In order to witness a splendid baseball comedy picture entitled "Take Me Out to the Ball Game," the management of the Star theatre has extended an invitation to the Portland and San Francisco baseball teams, and they have accepted the same for tonight.

Mr. and Mrs. Fitzsimmons, Pantages.
"A Man's a Man for A' That" is the charming one-act playlet in which Robert Fitzsimmons and his wife, Miss Julia May Gifford, late of the light operatic stage, are scoring such a triumph at Pantages this week.

Program of Singing Acts.
With one exception, every act on the bill this week at the Grand contains songs. This is an unusual coincidence, but one which is meeting with favor, since singing acts are most popular in vaudeville houses. The Free Setters quartet is a singing act as good as any others heard at the Grand this summer.

Low Rates East.
The Northwestern Line will sell round trip tickets at special low rates to all eastern points September 3. This is the last opportunity this season to avail yourself of these low rates. Make your reservations at once with R. V. Holder, General Agent, 192 Third St.

Cooling, Soothing
During the hot days heavy workers are in need of a cooling, soothing beverage, one that can be used as a tissue builder and general revivifier of the entire system. For such a beverage Hop Gold, the famous bottled product of the Star Brewing company, exactly fills the bill. This ideal beer is made from the choicest and most costly ingredients. and one of butter, two coffee cups of boiling water and two whole cloves. Let all simmer until well cooked, stirring constantly. Turn into tureen when done. Eat with boiled rice or macaroni boiled until tender in salted water.

Apricot Sherbet.
One quart can of apricots, one lemon, one half pound of sugar, one quart of water. Bill the sugar and water together for five minutes. Press the apricots through a sieve, add them to the

straw, add the lemon juice, and when cold press the same as ice cream; then add the sherbet. Peach sherbet is made in precisely the same manner.
