

ROOSEVELT RAPS COWARDLY CITY OFFICIALS

DYNAMITE IS THE MEANEST WEAPON OF AN ASSASSIN

Situation in Columbus Calls for Bold Declaration by Former President; Law and Order Upheld.

PUBLIC SHOULD ABHOR DELINQUENT SERVANTS

Declares Many Lawless Acts Were Committed During Car Strike.

(United Press Leased Wire.) Columbus, Ohio, Sept. 10.—While Mayor Marshall of Columbus was sitting on the platform and troops sent to keep order during the car strike patrolled the crowd, Colonel Roosevelt today denounced the strike situation and denounced the authorities for their failure to suppress lawlessness.

The address was delivered before a monster crowd in Goodale park. He said:

"Before I came to Ohio I knew the lamentable condition in Columbus. I have been asked by letter and personally by members of both sides of the controversy here to speak. I will say frankly that I did not like to come, but I like dodging less, so I came. It has been advertised that I would speak on law and order, and so I shall do so. I shall also discuss justice.

"The first requisite of justice is that establishment of law and order, we should abhor the conduct of a public servant falling to do his duty in this regard and we must equally condemn ourselves, the people who are as much responsible as the public servants. If they are content with the mere establishment of law and order and fail to learn whether justice has been denied, we should use the whole power of the government to right this wrong. I can not say what the facts here are, but it is certain the broad principles are applicable. Beyond question many acts of lawlessness have been committed, including bombing and the using of that weapon of the worst, meanest, basest and most cowardly assassin—dynamite.

"The authorities' first duty is to end violence and disorder, to check and punish brutality and lawlessness. No excuse should be accepted from any government official, no excuse should be accepted from any private citizen for... (Continued on Page Three.)"

APPEAL TO PEOPLE TO HELP PROTECT PUBLIC HEALTH

Dr. C. S. White Praises Work Done by Press in That Direction; Infantile Paralysis Not Spreading.

BRIDE OF 3 DAYS TAKES ACID ALONE ON CITY STREETS

Mrs. Daniel Bartruff Found Lying in Yard of Clyde Johnson at Salem Suffering Much Agony.

Dr. Calvin S. White.

"The press," said Dr. Calvin S. White, speaking eloquently at the Presbyterian church last night, "reads all other agencies in the promotion of public health. It creates healthy public sentiment and points out the way of right living." Dr. White added that without the help of the people disease will sweep the state despite the organized agencies, including the state board of health, under whose auspices the meeting was held. Speaking on the "Relation of Pure Water to Public Health," Dr. White named the Willamette river the "sewer of Oregon." He traced the progress made by the disease from the source to the mouth, wherever the water had been used, and drew the conclusion that since Oregon is provided with an abundance of pure mountain water, it is criminal not to provide all Willamette valley towns with it. Typhoid fever, said Dr. White, costs Oregon more than a million dollars a year. Its ravages and losses, in fact, cannot be computed in the terms of money.

The mothers who crowded into the meeting last night largely to learn the truth about the reported epidemic of infantile paralysis went away comforted after listening to Dr. W. T. Williamson's clear exposition of the disease.

Scarlet Fever More Contagious. Anterior poliomyelitis, said Dr. Williamson, is not a new disease, neither is it very contagious. The disease has been passing in a kind of wave around the world. In 1907 it broke out in New York, in much more epidemic form than any other time since it was first discovered in 1840. But scarlet fever is six times as contagious and deadly as infantile paralysis. The number of fatalities attending the disorder are comparatively few, and the reason for the popular apprehension concerning it is that its treatment is so little understood, especially during the incipient stages.

Generally speaking, Dr. Williamson concluded, when the child becomes listless and stupid and changes its habits, when the muscles in one or more parts of the body are sensitive, then it will be well to compel the child to rest body and mind. The family physician will then prescribe treatment.

The meeting of last night constituted a strong appeal for intelligent cooperation. (Continued on Page Three.)

WAS SEEKING HUSBAND WHO HAD DESERTED HER

Man Is Scion of Well-to-Do Marion County Family; Girl Will Probably Die.

M'GINN'S ATTACK ON ASSEMBLYITES PLEASES CROWD

Tells How Machine Candidates Are Employed by Corporations, Which Want Them Elected; Others Speak.

Between 400 and 500 people greeted Judge Henry E. McGinn and other anti-assembly candidates at Montavilla last evening, the meeting being by far the largest and most successful to point of attendance and enthusiasm ever held in the district. The capacity of the large new hall was taxed to its utmost by those who were anxious to express, by their presence at the gathering, their championship of the cause of popular rights.

Those who came to hear remained to applaud the denunciation of the men and methods behind the so-called assembly movement. And the applause was not of the perfunctory kind. It exploded with an unmistakable spontaneity every time mention was made of Statement No. 9 and kindred progressive laws promulgated for the purpose of insuring to the people a sure means of expressing the popular will. And there was no lack of appreciation of the musical numbers provided by Mrs. Fred Olson and Frank Hennessy before the speakers claimed the undivided attention of the audience.

Judge Makes Pledge

County Judge Cleeton first addressed the meeting and spoke at some length on the importance to the people of the courts of the office he now holds, and of the necessity of a careful and businesslike administration of the county's affairs. He outlined his own policies.

GOVERNOR BENSON IS MUCH IMPROVED AND RETIRES TO MILL VALLEY

(Special Dispatch to The Journal.) San Francisco, Sept. 10.—Governor Benson's condition is much improved, so much so that yesterday he left the Hotel Alexander where he had come to take special treatment, and returned to his temporary residence in Mill Valley, Marion county. The hotel people say that he is looking better than at any time since he came down here.

ALLEGED MURDERER ESCAPES BLOODHOUNDS

(United Press Leased Wire.) Beilleville, Wash., Sept. 10.—In spite of the hot pursuit of a pack of bloodhounds and a posse of sheriff's deputies, George Reid, charged with the murder of his 20-year-old wife at Clayburn, B. C., last Tuesday, is believed to have escaped to Seattle. Several people who know the fugitive declare that he was seen to board a train Seattle bound at 7 o'clock last night. The bloodhounds' trail ended at the Northern Pacific tracks.

AUTHORESS GOING BLIND

Pittsburg, Pa., Sept. 10.—According to an apparently well authenticated report, Mrs. Mary Roberts Rinehart, famous authoress of Pittsburg, is in danger of going blind. Mrs. Rinehart and her husband, Dr. S. M. Rinehart, have booked passage for Europe, where they will stay a year.

PRINCIPALS IN BALLINGER CASE

Principals in the great forest-conservation-accusation mix-up, which has been agitating the country for several months past, involving some of the most prominent men in high official places. At the top is Richard Ballinger, secretary of the interior, and beside him Gifford Pinchot, the former chief forester. Below on the left is Senator Knute Nelson of Minnesota, the chairman of the investigating committee, which is in a deadlock. In the lower center is L. R. Glavis, the dismissed field agent, and the main witness against Ballinger. On the lower right is Frederick Kerby, the stenographer of the interior department, who testified against Secretary Ballinger.

BALLINGER MEN MAY BE UNABLE TO GET QUORUM

If Bolters Refuse to Obey Nelson's Order, Others May Frame Report Which May Be Signed by Sen. Flint.

(United Press Leased Wire.) Minneapolis, Minn., Sept. 10.—The decision of the anti-Ballinger members of the congressional investigating committee to ignore Chairman Nelson's order to meet in Chicago next week, if carried out, will leave the pro-Ballinger members of the committee in no better shape than their opponents. Without the bolters they will be unable to muster a quorum. It is believed here that the Ballingerites will adopt a report at their Chicago meeting which later will be signed by Senator Flint of California.

In this event they will have a majority of the committee, rendering their report a majority report. The Chicago findings, it is believed, will be published immediately after adoption. Before adjourning to meet in Washington December 3, the anti-Ballingerites reiterated formally their claim that the meetings they have held in Minneapolis are legal, and that they constitute a committee under the congressional authorizing resolution providing the committee. They elected Representative Graham temporary chairman of their committee.

SHOWER DOES NOT ABATE INTEREST IN LIVESTOCK SHOW

Steady Travel to Fair Grounds in Spite of Rain; Crowds Get Last Glimpse of Fine Animals; Exhibitors Pleased.

Inclement skies did not abate popular interest in the livestock exhibit this morning, for in spite of the fine rain that drizzled through the clouds, at irregular intervals there was a steady travel from the city to the County club grounds. The public seemed to be eager to get a last glimpse at the beautiful animals that have been quartered all week at the exposition.

Some 300 head of handsome horses, headed by A. C. Ruby's great string of 67 grand prize winners, excited the most interest as they cavorted around in their morning exercise unnumbering for the final parade of equines before the grandstand. The office of the secretary was a busy place as the scores of satisfied exhibitors presented themselves for their premium checks. All lingered to say a few words in appreciation of the treatment they had received at the hands of the fair management. (Continued on Page Three.)

NATIONAL STRIKE NOW THREATENED IN GREAT BRITAIN

All Parts of England in Turmoil Over Labor Troubles; 50,000 Boilermakers Are in Revolt.

EFFORTS TO SETTLE STRIKE UNAVAILING

Cotton Mills, Railroads and Coal Mine Employes Now Threaten to Quit.

(United Press Leased Wire.) London, Sept. 10.—England today is face to face with the danger of a national industrial strike. The repudiation by the boiler makers' union today of the efforts of their leaders to settle the strike between the boiler makers and the Ship Building Employers' association means a prolonged lockout, affecting 50,000 men. More than 100,000 others will be idle if the strike is not soon settled.

The cotton mills of Lancashire are threatened with further trouble with their union employes, while at Cardiff 12,000 coal miners are restless. Employes of the Great Northern railroad are reported to be planning to make demands for better wages and hours. These demands, it is said, will be presented within the next two weeks. Unionist leaders are openly defying their employers. The situation is rapidly becoming critical and a crisis is feared within the next two weeks unless the strikes now in progress are speedily settled.

PORTLAND WOMAN ATTEMPTS SUICIDE

Mrs. H. C. Dietrick Throws Herself in Front of Switch Engine.

(United Press Leased Wire.) Seattle, Sept. 10.—Mrs. H. C. Dietrick, a young married woman of Portland, attempted to commit suicide in a most spectacular manner here early today as a widow of a three days' "visit" in Seattle. The woman told hospital attendants today that she ran away from her home at Portland last Tuesday, leaving her husband and two children. Last night she purchased a quantity of bichloride of mercury and swallowed it, then tried to throw herself in front of a switching engine, but was prevented by Thomas Ray, who had been attracted to the woman by her peculiar behavior. At the hospital today it was reported Mrs. Dietrick will probably die. "Oh, don't tell my husband," she whispered. "If I ever get well I will go back to him and never do this again."

THREE PINNED UNDER AUTO TILL AID COMES

(United Press Leased Wire.) Santa Clara, Cal., Sept. 10.—Three members of the family of H. Seelye Honigsberg of San Francisco and three persons who were their guests are suffering today from serious injuries received when the automobile in which they were touring the Santa Clara valley overturned near this city. Three of the injured were pinned beneath the car, where they were compelled to lie until aid could arrive from Santa Clara. They were brought to a hospital here. All will recover.

Roosevelt on Statement No. 1

Theodore Roosevelt has declared himself a firm believer in the principle of Statement 1—the principle which the assembly leaders in Oregon are seeking to overthrow.

Following is a portion of an Associated Press dispatch sent from Milwaukee, Wis., last Wednesday and published the same day in the Evening Telegram: "It has been stated to me since my arrival here," said Colonel Roosevelt today, "that in spite of Senator La Follette's having carried the primaries in fair and open contest, an effort will be made to beat him in the legislature. I do not for one moment believe this, because any such conduct would be, from every point of view, an outrage that would be a deliberate violation of good faith. "When in Oregon the Democratic candidate for senator, Governor Chamberlain, carried the primaries and it was proposed that the Republican legislature should turn him down, I strongly and publicly took the position that such an act would be one of bad faith by the legislature toward the people, and I take the same position in regard to Senator La Follette."
