

LEWIS APPROVES EASTERN PROJECT

East Umatilla Irrigation Plan Meets With Favor; Work Must Begin in Year.

(Salem Bureau of the Journal.)
Salem, Or., Sept. 12.—State Engineer John H. Lewis this morning approved the government's filing on rights for irrigation of the 60,000-acre tract adjoining the Umatilla project, known as the East Umatilla project, which was recently inspected by a staff of United States army engineers attached as advisers to the reclamation service. The government must start actual work by September 15, 1911, or the filing of Andrew A. Smith of Portland, which is next in priority of time, will be taken up by the board of control. Under the permit granted, the government is allowed to use 600 cubic feet per second of the regular flow of the Umatilla river, with the addition of 175,000 acre feet storage to be taken from surplus flood water of the Umatilla river. The low water flow of the river will be supplemented by a storage, not to exceed one eightieth of one cubic foot for each acre irrigated. The total limit of water procured under this filing will then reach 748 cubic feet per second. Assistant State Engineer Percy Super returned from an inspection of the Jordan valley and Malheur projects yesterday and reports work proceeding satisfactorily on several of the projects being prosecuted by private interests.

GOVERNOR-ELECT BLAMES TRUSTS AND HIGH PRICES

(Continued From Page One.)
was a factor in the success of the Democrats.
Governor-Elect Plalsted does not consider local conditions responsible for his victory.
"Local conditions were not the determining factor in the election in this state," he said in a statement issued today. "The people of the state voted on national issues. High prices, Republican control by the interests, the trusts, Cannonism—all helped us in winning our victory. The people of the country are weary of Republican misrule."
The Republicans claim that Asher C. Hinds, candidate for congress, carried the first district, formerly represented by Thomas Breed, by 290 votes. The Democrats, on the other hand, say that William M. Pennel was elected. The result is very close. Hinds is the parliamentarian of congress.
The Republicans claim the election of Frank E. Guernsey in the Fourth district over George M. Hanson by a plurality of 300.
Daniel J. McGillouddy (Democrat), was elected in the Second district over John P. Swazey and Samuel Gould (Democrat) was elected to the Third over Edwin C. Burlingh.
At noon incomplete general returns showed Hinds winner by from 100 to 200. Harpell, the home town of Pennel, his opponent, has not yet been heard from and the Democrats claim that the returns there will overcome Hinds' lead and insure the election of Pennel.
The Fourth district, with one county still out at noon, gave Hanson a lead which it is believed means his election over Guernsey. A recount in both districts may be necessary.
Complete returns from 613 of the 628 election districts in the state at noon showed that the Democrats have elected 52 members of the legislature. The

house membership is 151 and the senate 21, thus necessitating 32 votes on joint ballot to elect a United States senator. It is possible that complete returns will give the Democrats a slightly larger majority on joint ballot.
The last United States senator elected by the Maine Democrats was James W. Bradbury in 1847.
Republicans in Maine today refuse generally to comment on the results of the election.

MISSOURI WILL GO DEMOCRATIC, BELIEF OF ONE CHAMP CLARK

(United Press Special Wire.)
Jefferson City, Mo., Sept. 12.—Champ Clark, minority leader in the lower house of congress, today predicted that the Democrats will sweep Missouri next November. Clark is a delegate to the Democratic state platform convention, which assembled here today. Concerning the situation in Missouri, he said: "Beginning with the recent triumph of Clement C. Dickinson in the Sixth Missouri district, the Democrats will continue the good work and make the November elections a rout."
"The results in Maine yesterday are the best evidence that the people are heartily tired of being deceived, maltreated and betrayed."
"The Republicans blamed the weather for defeat in Vermont. They professed to believe that their voters were so confident of success that they stayed at home rather than venture out in a storm to vote."
"Yesterday's ideal weather prevailed throughout Maine. Even then we registered a victory. There is no question but what storm conditions also prevailed in a sense, yesterday in Maine. The Republican party in that heretofore staunch Republican state was compelled to face a terrific storm, but it was the storm of the people's wrath."
"What happened in Maine is a forecast of what will happen throughout the nation in November. We will trounce them out of their boots; the time is ripe."

DEMOCRATS SWEEP ALL SECTIONS OF NEW ARIZONA STATE

(United Press Special Wire.)
Phoenix, Ariz., Sept. 12.—With many outlying precincts yet to hear from, but with leaders predicting that the remaining returns will not materially influence the general result, the initiative, referendum and recall have won out in the Arizona election of delegates to the constitutional convention to be held October 10.
The regular Republicans contested the Democratic ideas vigorously, but the Democrats have won out and the convention will be influenced by the Democrats by a large majority.
Early returns indicate that there will be 42 Democrats in the convention and 10 Republicans, though the Democratic showing may be slightly changed owing to a shift to the Labor party in certain localities.

PROHIBITION FACTION AMONG DEMOCRATS IN SOUTH CAROLINA

(United Press Special Wire.)
Columbia, S. C., Sept. 12.—The South Carolina Democratic primaries are in progress today. Interest centers in the fight for the gubernatorial nomination between C. C. Featherstone, prohibitionist, and C. L. Blease, local optionist.
Both candidates predict victory. Featherstone depends largely upon the country districts for his support, while Blease expects strong support in the larger towns and near the coast.
Two candidates for congress, a railroad commissioner and an adjutant general, are being nominated.

Colonel Not Interested.

(United Press Special Wire.)
New York, Sept. 12.—Colonel Theodore Roosevelt appeared in his office at the Outlook today. The colonel proceeded to "steep himself in literary calm," refusing to discuss the result of the election in Maine.
"I have just returned from a western tour," he said, "and am ready to steep

myself in literary calm. I have no word to say of the Maine election."
He intimated that he might find time to make a statement later.

Arkansas Adopts Initiative.

(United Press Special Wire.)
Little Rock, Ark., Sept. 12.—Complete returns from yesterday's elections indicate that the constitutional amendment providing for the initiative and referendum in Arkansas has been adopted. Governor James Donaghey, Democrat, has been re-elected. The vote was light.

WEALTHY WIDOW

(Continued From Page One.)
lived in Rochester, N. Y., were wealthy. Several days before the marriage occurred, quite suddenly, February 2, he was asked by the management of the United States National bank to resign. He was considered a little too sporty, when reports of gay parties and joyrides with the fascinating widow were turned in to the bank officers, to linger long in a sedate financial institution. He resigned. Then the sudden marriage came.
Gliddon appears on scene.
Gliddon enters into the piece several months prior to the time Portland first saw Mrs. Lambertson. He was a clerk in the Palace hotel, San Francisco, Cal., and was later put on the road to solicit business for the hotel. He traveled about the west and met Mrs. Lambertson several times. She was impressed with his business ability. So she gave him charge of her interests. Here the thread grows fine. It is said that Mrs. Gliddon followed her husband from San Francisco to Portland, on to Seattle, and then back to Portland. She says herself that she spent a large sum of money for detective hire. At any rate it was understood that the pair went to San Francisco together, after Mrs. Lambertson's marriage to Woodward and became reconciled.
Gliddon, so the story runs, was called back to aid Mrs. Lambertson in her financial affairs, for young Woodward did not prove to be much of a man of business. He soon came to occupy the same position as before. Then came the final rupture between Gliddon and his wife.
Gliddon first filed suit for divorce in Los Angeles. He charged desertion. Now his wife comes back with a counter suit. She avers she possesses a mass of sensational evidence.
None of Mrs. Lambertson-Woodward's Portland acquaintances seem to know her whereabouts. They say they heard she and Woodward had separated, but have no evidence of that fact. She is supposed to be in Los Angeles, while Woodward is understood to be in Rochester.

MITTIMUSES FOR PACKERS' ARREST ISSUES BY LANDIS

(Continued From Page One.)
not be served unless they fail to appear to answer the indictments.
Attorneys Mayor and Miller for the indicted men appeared in court today. Judge Landis fixed bonds for each at \$20,000.
All of the 10 men indicted are in Chicago today except Louis Swift and Thomas Connors. Swift is in Europe. He cabled today that he would surrender.

ALL PRAISE BEACH

Hundreds of Campers in Raptures About Tillamook Beach.
Consensus of Opinion Pronounces This Summer Property Superior to Others in Every Way.

TILLAMOOK BEACH, Sept. 10.—(Special.)—It is really quite surprising to listen to the comments of visitors on the exceptional qualities of this beach. Tourists, old-time residents in the northwest, newcomers and everybody, of the hundreds who have been camping here this season, all unite in one grand chorus of praise in behalf of this part of the Oregon coast.
Several people from Portland who have been camping here this summer have visited nearly all of the seaside resorts of the Pacific ocean in this country. "Without a dissenting voice they state that Tillamook Beach, lying just south of the middle of Garibaldi Beach, nine miles long, possesses features they had long since given up as being possible on the coast of Oregon."
"Wherever I have been on these western beaches," said one eastern gentleman, "I have found every one of them to be cold all the time, with just a little warm sun in the middle of the day. The winds have been terrific at the other places. The surf has been so rough and cold that it was a danger to the health to even attempt to take a dip. But here, oh so different. We have the delightful balm of the northwest wind, after its force has been broken by Neah-kah-mie Mountain to the north. Hence, there have been no winds. The sun has shone nearly every day, peeping out after an occasional early morning fog. The rough water has been entirely obliterated by the rocks to the north, forming a natural breakwater for this beach. I may be mistaken, but if the water is not warmer here, the air is so much warmer that it seems that the water is also."
The consensus of opinion on every hand, from everybody, is that Tillamook Beach is the really ideal Oregon summer coast. C. E. Fields & Co., in the Board of Trade building, Portland, are representatives of this property this year. Literature will be furnished on request.

bedroom. Occasionally during the talk Chaloner appeared to be unable to suppress a smile.
"It's the way such things go," he remarked sagely. "I warned Bob to be wary of alimony and keep enough to live on, for usually, when a songbird finishes, there isn't much left."
"A Fool There Was."
"In this case, of course, it really is none of my business. The woman is Bob's wife and not mine. I've had troubles of my own."
"Not being married to a songbird, naturally I can't see the end of this affair. From a lawyer's standpoint I should say, however, that the reported pre-nuptial agreement between Bob and Mme. Cavallieri is not ironclad. I believe he can get the greater part of his fortune back."
"When I studied the beautiful face of

ZOUAVES EXAMPLE IN PHYSICAL CULTURE

In all the great struggles between nations the infantry is the solid body of all armies, while the cavalry has been, one might say, the arms to strike out in each direction, and the artillery act as a shield to cover the movement and massed efforts of the "dough boys."
The little squads of Zouaves, led by Captain Devlin, who appear in Buffalo Bill's Wild West and Pawnee Bill's Far East are a splendid example of the possibilities of physical culture and healthful exercise, with a patriotic motive that can be achieved by any young men in city, town, village or country by devoting a few hours each day without interference to their regular duties. This group of well developed youths have appeared in 17 different countries in that war camp called Europe, and were received with enthusiasm and acclaim that proved them a splendid national exhibit as to American possibilities.

Men's Suits for Fall!

\$15 \$20 \$25 \$30

All Guaranteed to Retain Their Shape--If they don't we give a new suit Free

We have unbounded faith in the quality of our clothing and evidence it by giving the above guarantee of satisfaction. Our clothing is made absolutely according to our specifications. The makers say that they are more exacting than they need to be. Be that as it may, we feel it wise to have our clothing a little better than it need be, rather than not as good as it ought to be. The fabrics featured this fall are Tweeds, Cheviots and Cassimeres, in grays and browns. The style destined to be worn most is the new box.

Boys' All-Knicker Suits With Two Pairs of Pants \$5.00

"The best suit in town at the price"—that's what they all say who have seen these suits. The cloth, a strictly all-wool cassimere and splendidly made throughout. Sizes 5 to 17. Other suits at \$6, \$7, \$8, \$9 and \$10—each a grand value.

Choice of Base Ball, Catchers' Mitt, Bat or Foot Ball Given FREE With All Boys' Suits

Salem Woolen Mills Clothing Co.
