The British navy recently built a light draft gunboat in ten sections, each of which will float separately, for shipment on a larger vessel to a colonial possession.

When the fog lifted at times the two vessels were in sight of each other, and it was then that all steam possible would be crowded on the engines in their efforts to be the first to reach the dock at Astoria, which would give the winner the first chance to discharge what freight she had for that place.

On leaving the Golden Gate the vessels encountered northwest winds and a heavy head sea, but between Northwest Seal Rocks and Cape Blanco the wind shifted to the southeast, and they had fair steaming the remainder of the distance to the mouth of the Columbia river.

A PASTOR AND A WEDDING

By Darra Mora.

MINISTER has abandoned his flock in Pacific Mo. because his income is not sufficient to support a wife. "Only an intense religious impulse could compel any man to remain in the ministry under such circumstances, but I would have done it if I hadn't fallen in love with the girl who is now my wife," he said.

When his sweetheart told him they could not marry as long as he remained a minister, because his salary would not support them, the preacher forsook his chosen profession and turned to stenography. A wedding followed, and the groom is now a stenographer in the Missouri Pacific building in St. Louis.

"My salary at Pacific was to have been \$300 a year, but it was \$15 short at the end of the year. I preached some of the money coming to them on their arrival home. They also said to be an exceptionally willing lot of tars and are therefore accorded better treatment than is usual."

What is the incentive to mold the future generation into the conventional paths? All honor and no pay is not alluring to the average citizen. How can the minister receiving \$663, and much less a year, take up family ties and teach his flock by example, how to live a godly and proper life, and how to protect his household gods?

And such a minister's wife! What a homely, scraping, scratching, sacrificing existence must be her portion!

The world ought to be willing to pay for what it wants. What is the answer?

by this company to secure another steamer to assist the J. N. Teal with her cargo," said Captain W. S. Buchanan, general superintendent of the Open River Transportation company this morning. At the present time we can handle all the freight that we receive with our steamer.

Captain Buchanan said that he was very much surprised to hear that the Charles R. Spencer was to go on the run, as he had made no arrangements to that effect. He said that if the wheat traffic became too heavy for the Teal to handle all of it, some arrangement would probably be made to secure another steamer.

Skipper Also Surgeon. (United Press Leased Wire.) Victoria, B. C., Sept. 21.—The Chilian ship, County of Lintlhog, Captain Mueller, reached Victoria late yesterday afternoon from Iquique in ballast after a passage of 53 days. For three days the vessel drifted around in the vicinity

of Cape Hattery becalmed and on Sunday night was picked up by the tug Lorne.

That a sailing ship master can be a physician as well as a navigator was proved by Captain Mueller, who set and dressed a broken leg for James Neale, one of the sailors, who fell into the hold during the voyage.

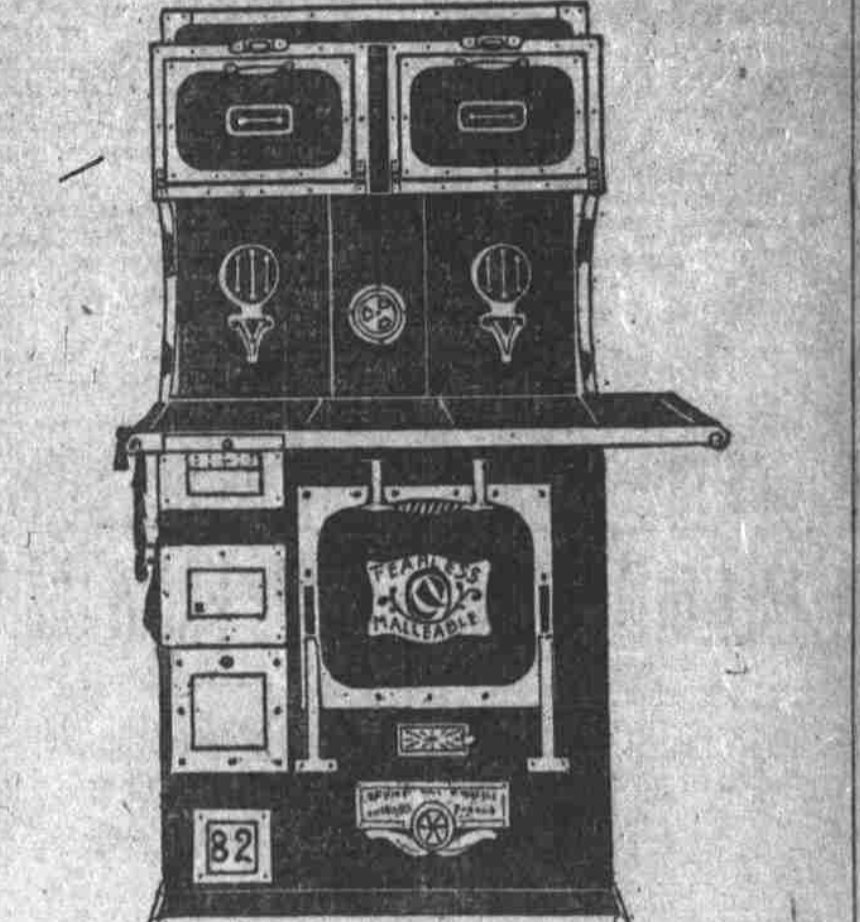

Sun Dance Permit Issued. (United Press Leased Wire.) Toppensish, Wash., Sept. 21.—The government has granted permission to the Toppensish Indians to hold the sun dance, which has been under the ban for several years because of the harmful effects it seemed to have upon the red man. The national gathering of the

tribes will be held on the reservation near here in the first week in October, and many rich prizes have been hung up for the braves to compete for.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as secretly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.
