

TEST NEWS OF WORLD'S MARKETS

UP ORDER HERE AT 13 TO 13-1-2 CENTS PER POUND

There is a fair volume of business offering in the hop market here today on the basis of 18 to 18 1/2 pounds for choice goods, but no late deals of importance are reported.

The orders now here are from the east, and so far as known none have been received from abroad. The market is being made up among some of the bull leaders to force another bullish campaign, such as proved such a disaster to growers last season, and only a few foreign cables being utilized, but home market conditions are given a false light.

"I would rather see the hop market here at 20c a pound than at a lower figure," said a well known interest, "but I believe the market is being made up to no higher nor lower. As far as I am concerned, I believe in stating the facts in the newspaper, and if the news is bullish it should be printed that way, and if bearish the news should lean in that direction. To give out false news, even as such as it does anyone else. In fact, he is hurt more. Last season was a good illustration of how higher prices would ruin a grower, and while they placed artificial values on the market, the growers really wanted to sell the market dropped even lower than it would have been, had it not been for the artificial support."

In its latest issue the New York producers' Price Current says of the hop situation:

Receipts for week 592
Receipts from Sept. 1 222
Exports to Europe for week 288
Exports from September 1 157
Exports same time last year 8
Imports for week 17
Imports from September 1 17
Imports same time last year 17

The local market for hops has not been opened as yet. Samples are coming in from this state and the Pacific coast, and show generally good quality, though some of the state hops show a little mold. Growers are not disposed to take hold to any extent and desire a holding price of 18 to 19 1/2 cents for the 1910 crop. A little buying is reported in the west, but apparently want to sell and buyers are generally holding off. Picking is practically over.

Trading is still in progress in England, but indications point to a yield of about 35,000 cwt. Germany reports a yield of about 100,000 cwt. Markets are called weak with offerings to sell at 35c, delivered here.

New York Prices. Per Lb.
States, 1910 seedlings 12 1/2 to 13 1/2
States, 1909 medium to heavy 12 1/2 to 13 1/2
States, 1909 light to heavy 12 1/2 to 13 1/2
Pacific coast, 1909, prime to choice 14 to 15
Pacific coast, 1909, medium to heavy 12 1/2 to 13 1/2
Pacific coast, older growths 12 to 13
Germany, 1910 40 to 45

Halibut Another Cent Higher.
Prices on halibut are up another cent a pound in the wholesale fish market today, top values being 35c.

Few Potatoes to Offer.
While there are plenty of local potatoes available at this time for home sale, there is not enough offering at the moment for outside trade. It is expected that a lot of character is expected for some time.

Fancy Yakima Peaches.
Owing to the scarcity of local peaches another car of fruit was sent forward from Yakima. It arrived in good condition. General sales of fancy fruit in the front of the market range between 75c and 85c.

Grape Market Slightly Better.
A slightly better tone is shown in the local grape market. While prices are practically unchanged, the movement is healthier. Best tokays are selling at \$1.25, Muscatels \$1.00 to \$1.10 and Concord at \$0.75 to \$0.85. The latter are being sold at the high figure.

Cabbage is Fractionally Lower.
A fractional decline is shown in the price of cabbage. Local offerings are not so plentiful as last week, but the market is generally firm. Cabbages are selling at \$1.25 to \$1.50 per hundred pounds. California stocks are hard to move when local is available, but is generally quoted at \$1.75.

FRONT STREET QUOTATIONS

Wool and Hides.
