in this state the present season to more than 2500 bales.

Mr. Lachmund has thrown a bomb into the camp of the local hep trade by continuing to offer 18c freely for all the good hops that are left. This means most of the growth of 1910.

White an occasional transaction is reported for the account of other buyers, chief interest continues to be centered. ers, chief interest continues to be cen-tered in the Lachmund transactions with the possibility of a corner. Growers are generally willing to sell their supplies here, but this condition is not met with in other growing sections of the world. California advices continue to tell of the holding back of deals by producers, and the same is true of New York and European centers. A further decline of 20c per hupdred pounds was shown in the price of all grades of refined sugar along the Pacific coast with the exception of in southern Idaho. No change occurred in

The price of sugar was today affect-ed by the extreme weakness in the eastern market, but the drop was in a measure helped along by the competition of the Federal company of Yonkers. New York, which recently entered the Pacific coast trade by sending an entire ship-load of sweet stuff from the eastern

factory.

Some weeks ago when the Federal company succeeded in making its first shipment of sugar to this city, announcement was made by this paper that it was the intention of the company to continue to fight for a foothold here and a refinery would be built on the Pacific coast to take proper care of this trade.

Announcement is now made by C. A. of this trade.

Announcement is now made by C. A. Spreckels of the Federal Sugar refining company of his intention of building a refinery on the coast and it is expected that the site will soon be selected. An effort is being made in some quarters to secure the plant for Portland and the advantages of this city as a location for the plant as a distributing point for the coast are being shown. The 20c decline in prices took effect

Trade in the local fruit market was chilled by extremely bad weather this morning. There was only a moderate change in general quotations, however. Crab Season Is Open. Season for crabs is open, but no supplies were available in the local market today. "Owing to the severe storms," says C. J. B. Malarkey, a local wholesaler, "It would surprise me if any saler, "It would surprise me if shipments come forward tomorrow."

but small sizes are still the rule.

Local Cranberries Good. Recent shipments of local cranberries to the Front street markets have shown improved quality and sales are being made around \$8@8.50 per barrel compared with \$9 generally for the eastern.

Eggs Are Steady.

Trade in the egg market is steady and Frank in the egg market is steady along best stock brings 35c a dozen along Front street.

With Recent Advance of Pioneer to \$4.35-Mount Vernon to Build Tillamook Plant.

Regarding Milk Outlook. Carnation moves 10c higher to \$4.15 today, All milk scarce and higher.

Pioneer holds record price at Mt. Vernon Co. to build at Til-

of milk offerings and the strength of the canned milk market is noted by the advance of 10c a case in the price of all sizes by the Pacific Coast Condensed Milk company, canners of the Carnation.
This puts the price of that brand to
\$4.15, compared with the recent advance
in Ploneer of the Borden company to

. Along with the announcement made by the Pacific Coast Condensed Milk ompany, similar advances were made by other canners and therefore pracby other canners and therefore practically all leading brands except the Pioneer are today quoted at \$4.15.

The scramble for milk supplies by outside canners is becoming intense and preparations are being made by some companies to build plants in Oregon because the best supplies have been available here. available here.

Latest company to come into Oregon

is the Mount Vernon Cream company of Seattle, which is controlled prin-cipally by the John B. Agen company, big egg handlers of that city.
The Mount Vernon company has already selected a site at Tillamook and will begin the construction of a plant at once. The new plant will have a capacity of 15,000 cans a day and is expected to employ several hundred peo-ple. No bonus was asked by the com-

PORTLAND LIVESTOCK RUN. Monday1280 Cattle. Sheep. Saturday 94 Friday 188 Thursday 54 Wednesday 774 31 436 911 3483 Tuesday 774 Week ago 1464 1404

Thirty-six cars of cattle came into the local yards over Sunday, this being the greatest run for a similar period ever shown here. As a result the channal of trade was glutted in the cattle pens this morning, giving buyers still another excuse to force prices down on ordinary start.

ordinary stuff.

Along with the big run of cattle during the day there was a very heavy supply of hogs unloaded. Twelve cars came from Nebrasga alone, and over Sunday a total of 1250 head were received.

This compares with last Monday's heavy run at 1464 head.

The hog trade here and expectably

The hog trade here, and especially the smaller butchers, are exercised over the alleged attempt to force them to pay unprofitable prices for swine, while the hig fellows bring in hogs from Nethe nig fellows bring in hogs from Ne-braska that cost them much less money. For instance, the extreme top of the hog market today at South Omaha, Nebraska, is \$8.70. This would make these hogs cost \$9.85 to land at Port-land, or other Pacific cost points. By bidding up a few head at \$10.25 or even better, the small butchers allege that they are forced to pay extreme high values on the few swine they are forced to buy.

Cattle Prices Too Low Here. While hog prices are higher here than hogs can be bought for at Nebraska points and shiped here, the price of cattle is out of line especially for the better quality. While local interests are paying full limits for cows as compared with values obtainable in South or other central west markets. pared with values obtainable in South Omaha or other central west markets, steers nere should be selling today on the basis of \$6.35 for best stuff, considering the height of that market elsewhere. Best steers sold today at South Omaha around \$7.50 and therefore stuff of equal quality could be shipped from here and het the shipper a handsome return on the basis of present values.

While only a small amount of business has recently been closed in the wheat market, exporters are taking out a few lots of club around 83c a bushel and millers are buying sparingly at the same price. Neither interest seems to be keen to purchase wheat at the momest owing to the uncertain foreign conditions and continued increase in the visible supply, both in this country and in Europe.

in Europe.

A small amount of milling bluestem is reported sold for California account on the basis of 89c a bushel, but this seems to be the extreme high limit of the wheat market today.

California interests seem to be awaited a higher where the seems to be awaited.

ing a higher price on barley here, so that further supplies can be rushed inte this market while local growers hold for the advance.

Oats market is dull but rather steady, with practically no supplies available just now under \$28 a ton, although buyers are not openly bidding above \$27.59.
