

GOV. HUGHES AND SEN. SUTHERLAND 2 NEW MEMBERS

That Two of Supreme Court Vacancies Will Be Filled by Governor Hughes and Senator Sutherland Is Certain.

By Ralph M. Whiteside. (Publishers Press-Leaflet Wire.) Washington, Oct. 8.—It has come to be generally accepted here that Governor Hughes of New York is to be the new chief justice of the supreme court of the United States and that Senator Sutherland of Utah is to have a place on the bench. Who will fill the other vacancies has not been settled to the satisfaction of the "man who knows," but these two are regarded as settled.

The appointment of the Utah statesman will be popular in Washington. Senator Sutherland does not make as much fuss in the senate as some of his colleagues but there are few who are more efficient workers in the field of legislation. He is recognized as one of the most profound lawyers in congress.

Governor Hughes is not so well known personally but what is known of him leads to the belief that he will make a worthy successor to the late Chief Justice Fuller.

Tawney Will Be Missed.

Of all the stand-pat statesmen who will be left at home as a result of the present political upheaval none will be more genuinely regretted than James A. Tawney, of Minnesota. Mr. Tawney was liked personally even by his political enemies.

I understand that one of the first things the insurgents in the new house of representatives will do will be to war against the seniority system of appointing the chairmanship of committees.

With Speaker Cannon gone from the desk and with the insurgents mustering a large number of votes, as they evidently will, it is clear that even a Republican majority will not be able to maintain the old order of things. No speaker will, however, be pleased at being made a mere dummy, and whatever party group may be in control will probably seek to maintain this element of authority in its speaker's hands. But no matter whether he does or not, the situation will render it inevitable that changes should be made in a rather drastic way in the old committee system, certainly as regards the personnel.

Would Overtum President.

The seniority system of succeeding to committees chairmanships has been followed for a long time in the house, although Speaker Cannon did not hesitate to pervert it by disregarding its dictates when at the opening of the last congress he determined to take over the chairmanship of the committee on the judiciary. It is no matter whether he was more consistently pursued in most instances. However, by inordinant work the political leaders have usually managed to shift members in such a way as to keep a "reliable" man always in second place and hence able to take the chairmanship whenever a vacancy showed itself. Thus men who will "stand without hitching," as Speaker Cannon has delicately expressed it in his vernacular, have been looking forward to the chairmanship. Most of these men are the old line Cannon type of regulars. While the chairmen have had to take the whipping in the primaries, there would be only a hollow victory if the men of the second rank were to be substituted. For this reason insurgents are now quietly asserting through their sympathizers and representatives here, that in the event they muster a good number of votes they will decline to see the old line men of the second class put into the chairmanships, and will demand a method of selection on the basis of ability and service.

Monstrous Homecoming Planned.

It was announced yesterday that the Washington Old Home week, to have been held this fall, had assumed such enormous proportions as to force postponement until spring and to make it a national instead of a local homecoming.

Instead of 10,000 visitors, there are to be 200,000. Instead of a light program of entertainments and parades, President Taft has offered the White House for a big demonstration, in which cabinet officers, senators, representatives and members of the supreme court will participate.

Every state will be represented, and this being the capital of the nation it is to be a big reunion of Uncle Sam's family. This is to be the greatest national demonstration in the history of the country, it is claimed, not excepting any presidential inauguration of the past.

American Mules in Demand.

"Within a few months there will be a demand for American mules in South Africa, almost equal to that during the Four war," said Oliver G. Strait, of Galveston.

"Dealers in the south and west are beginning to feel the influence of the scarcity of mules in that part of Africa. It seems quite probable that the prices of mules will reach those of war times within the coming year."

"The growing demand is due to the spread of the east coast fever among cattle in many parts of South Africa. Whole districts which are dependent upon oxen for transportation of necessities are suffering from the decline of the cattle by the fever. As a consequence, the people want mules and want them badly. These animals are less susceptible to disease, and they can give much more service than draught cattle. The trade of the Transvaal and Griqualand East is almost at a standstill on account of the loss of so many oxen."

"At present most of the mules for East Africa are being shipped from the Argentine Republic. These animals, however, do not compare with the American mule, especially the kind raised in Missouri. Our animals bring a higher price, but, as was the case during the Boer war, the additional investment is usually regarded as justified."

"Champ Clark would do well to lay in his supply of mules now against the day he expects to ride down Pennsylvania avenue according to his promise. If he waits until he is elected member of the house, as undoubtedly he will be, he may be accused of being a manufacturer of great wealth when the people see him holding the reins over a team of Missouri mules."

Alaska Investigation On.

An investigation of alleged land frauds in Alaska is said to be in progress, which may unmask a great scandal than the Cunningham investigation," said J. M. Jordan, of Seattle. "Small attention has been paid by the

newspapers to this investigation, which it is now believed is being quietly prosecuted in Alaska, and on the whole Pacific coast. The investigation is said to involve an entirely new group of claimants with charges similar to those brought in the Cunningham case. It is believed that Secretary of the Interior Ballinger is personally in charge of this newest investigation, because his doubtful wishes to clear his department of any stigma which may have resulted from the Glavis episode.

"The list of claimants and entries is said to include many prominent men in the cases. Some of them are said to have been recently in Alaska, and it is believed they have been conducting an exhaustive inquiry in the territory, though with the utmost secrecy."

"Persons in Seattle believe that President Taft and Secretary Ballinger are directing the investigation, as the president and Mr. Ballinger wish to show the country that the administration intends to protect the vast natural resources of Alaska from corporate greed."

WASTE OF WASHINGTON ROAD MONEY ALLEGED

Spokane, Oct. 8.—Alleged waste of state highway funds by the state highway commission has led to the appointment of a committee of disinterested parties by Governor Hay to conduct an investigation. It is charged that the new state highway commission, J. H. Bowby, has expended as high as 20 per cent of the revenues raised for highway improvement, for engineering expenses and in the operation of the state convict rock crushers. Bowby defends himself by saying that the extravagance was perpetrated under the administration of his predecessor, Joseph Shaw, removed about a year ago by Governor Hay. Over a million dollars is annually expended for state highway improvements, Governor Hay today telegraphed to the state accountability board for a more detailed statement of the highway funds.

CUTICURA CURES STAY-CURED

First Father is Cured of an Eruption that Burned and Itched Day and Night. Then Baby is Cured of a Distressing Rash.

Neighbors Pleased to Find a Sure Cure for Skin Afflictions.

"I suffered for eight years with what the doctors called the 'seven year itch.' This was like small red pimples such as form on the face but they burned and itched, day and night. These pimples were from my ankles up, but mostly on my thighs and arms. I tried doctor after doctor but their medicines brought no relief. But at last I struck the right treatment—this was Cuticura. I bought a set of the Cuticura Remedies—Cuticura Soap, Ointment and Pills—and a few applications brought relief. When I had used about half the set I was nearly cured and after using two full sets I was well and best of all, I have stayed cured.

"About four months ago, our baby began to be covered with a rash and his head with a spreading sore. Back of the ears, the flesh cracked open and the poor baby would scratch till it bled. He worried, cried and could not sleep. Then we bought a set of Cuticura and with a few applications the burning and itching ceased, baby stopped worrying and could sleep. When this single set had gone we had no use for any more as baby was never troubled with the disease again. The neighbors who saw the condition of the baby all asked what cured him and when we told them, they were surprised and pleased to find a sure cure for these skin afflictions. Edward H. Carter, 323 North 27th St., Camden, N. J., Mar. 6, 1910."

A single set of Cuticura Soap and Ointment is often sufficient, rendering it the most economical treatment for afflictions of the skin and scalp. Sold throughout the world. Foster Bros. & Co., Sole Prop., 135 Columbus Ave., Boston, Mass. 25¢ Mail order. Latest Cuticura Book on Treatment of Skin and Scalp Affections.

TALKS ON TEETH

BY THE BEK DENTAL CO.

PULLING TEETH

It is a crime to pull teeth that are sound.

We read many advertisements which dentists put out, of their ability to pull teeth without pain, so that they may make room for a plate.

We never read such an advertisement without a feeling of pity for the innocent victims of such practice.

Nature is the best tooth builder, and there are no teeth so good as those mature plants in the gums in the beginning.

We have been preaching the gospel of saving teeth for years. We won't pull a tooth unless it is beyond redemption.

The dentist pulls good teeth to make room for a plate because he knows of nothing better than a plate, either partial or entire, for those whose teeth are loose or missing. Out come the forceps and out come the teeth—once out they are lost forever. What a pity!

When we began the study of our profession years ago, it seemed to us that there must be some way of coming pretty close to nature's way of supplying teeth—a way that would be practical. We felt that we could work a revolution if we could find the way. After years of study and experiment we were successful in finding a method which we called the ALVEOLAR METHOD of supplying teeth without plates, or ordinary dentures. Our troubles were not all over with the initial discovery, however, for in a great many cases we found loose teeth, sound, but loose in the alveolus, and we had to find a cure for this trouble, known to the profession as Riggs' disease of the gums (pyorrhea). Every day we study and experiment and we have finally DID find a cure for that dreadful disease. It took years of work, but it paid us richly, for our method was then complete, and patents were obtained on it in all countries. The Alveolar Method is a boon to humanity. It does away with the need of pulling sound teeth. It does away with a partial plate or a bridge. It enables the one who has Alveolar teeth to use them exactly as he would natural teeth.

We want to send you our book, "ALVEOLAR DENTISTRY," which tells all the details of the Alveolar Method, provided you do not live close enough to our offices for a thorough examination of your mouth. If you have teeth troubles, these books will bring you to us no matter where your home may be.

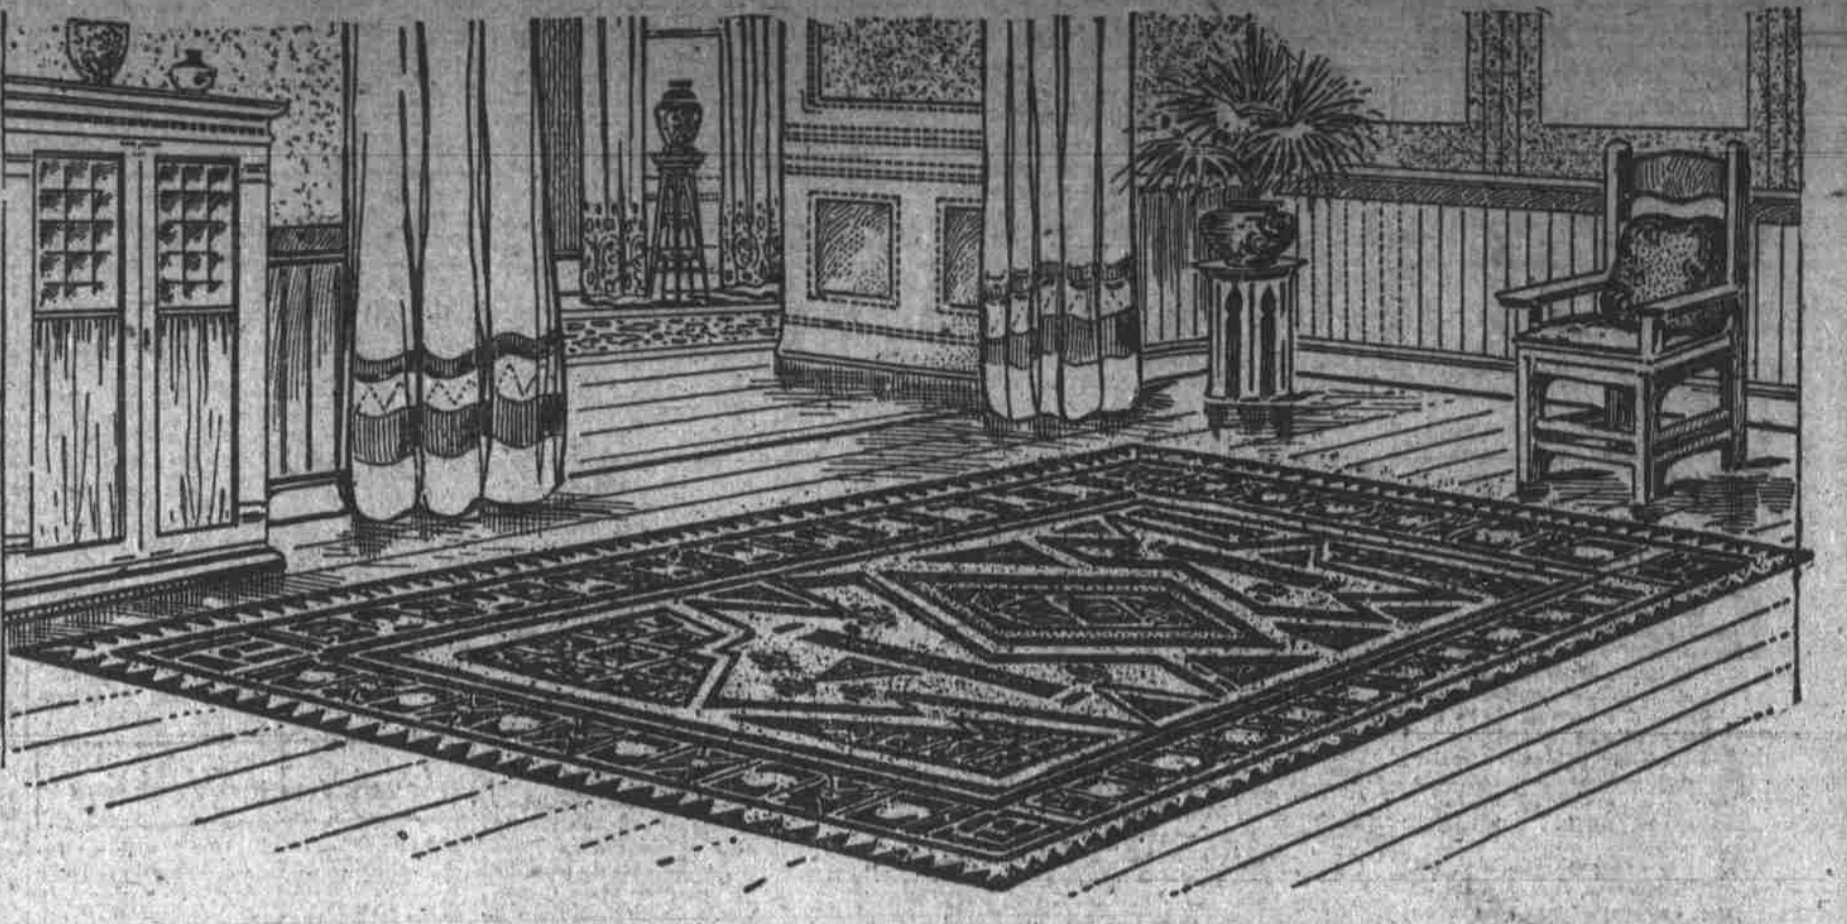

Good dentistry vs. poor dentistry is in the same ratio as gold is to silver 10 to 1. Examination and books are free. Which will you send yourself off?

Rex Dental Co., Dentists, 311 to 314 Abington building, 108 1/2 Third street. Terms to reliable persons.

Special Sale of Fine Axminster Rugs

You Save \$8.50 On Every Rug You Buy!

A special shipment of 150 fine Axminster Rugs—every well known mill being represented—will be on sale for two days this week at the above great saving in price. Regular \$33.50 values at only \$25, and on the easiest possible terms, \$1.00 down and \$1.00 a week. We purchased direct from the mill at a price that enables us to offer you this wonderful opportunity. Don't fail to see these rugs.

Over 60 splendid patterns from which to choose; florals, orientals in great variety, as well as the more conventional designs; fast colors, rich and strong; high pile and closely woven fabrics that are real gems of the rug weaver's art; full 9x12 feet in size; not to be compared with the inferior grades sometimes advertised by department stores and others. These are "the real goods." Your money back any time if you are not satisfied. Note the price and the easy terms.

Reg. \$33.50 Values in Axminster Rugs Only \$25

Size 9 x 12 Feet

Pay \$1.00 Down—Then Only \$1.00 a Week

"Peninsular" Steel Ranges

We deliver these famous ranges to any part of the city and set them up free of charge on the small payment of

\$5.00 Down

For we know you will be satisfied and glad to make the future payments of

\$1.00 a Week

Prices according to size of oven.

\$25.00 Sewing Machines

This is the best Sewing Machine at the price that can be found on the market today. It is styled by us the "Gevurtz Special" and is warranted by us for 10 years. Has all modern improvements and is a better machine than those advertised by department stores at \$35. You save \$10 and get a better article. All you need pay is

\$1.00 Down, Then 50c Week

Special Sale of Hardwood Rockers

\$3.00 Val. For Only \$1.95

There are several models of these Rockers, and we are confident of being able to please you. Several dozen on sale for two days, Monday and Tuesday of this week.

A Wood-Lined Stoveboard Free With Every Heater Sold This Week

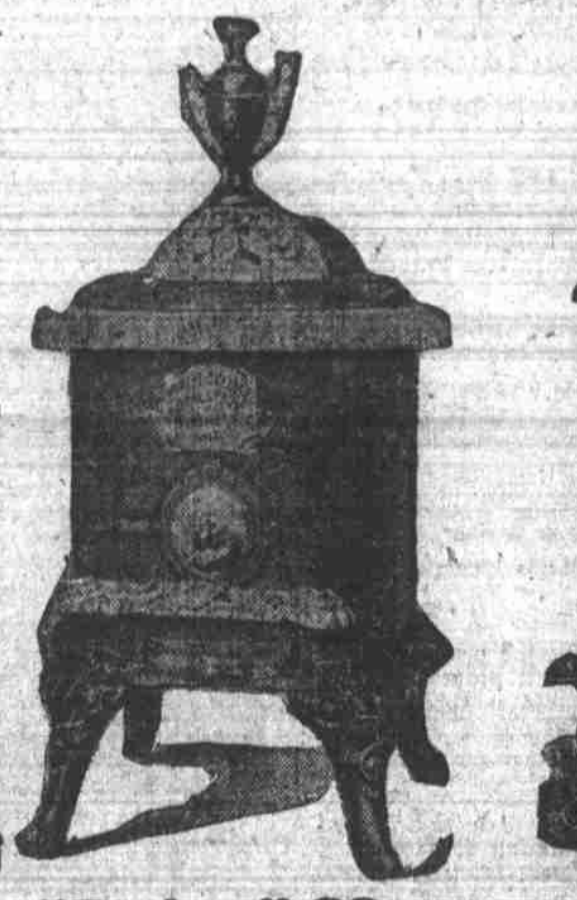

"Prize" \$12

Rolled steel body with heavy gray iron lining about fire box; will last eight or nine years; airtight and consumes little wood; nothing to equal it in Portland today. A heavy nickel rim (not shown in cut) surrounds the edge of top, same as in the "Novel." This is a very serviceable as well as attractive stove.
