

JUDGE GRAHAM GIVES OAKLAND THREE GAMES

GRAHAM DECIDES FOR OAKLAND IN CASE OF HETLING

Player Ineligible, in Opinion of
League President, for Many
Reasons Stated; Portland's
Defense Overborne.

OAKLAND STANDS .568 AND PORTLAND AT .563

Says Portland Had Warning,
Which Manager Disregarded;
Quotes Laws.

(United Press Leased Wire.)
San Francisco, Oct. 12.—The Oakland-Portland baseball games played on September 28, 29 and 30, in which Gus Hetling participated, were today declared forfeited to Oakland, by Judge Graham, president of the Pacific Coast league.

The ruling of President Graham means that the two clubs affected today have the following percentages:

Won.	Lost.	Pct.
Oakland.....109	89	.568
Portland.....88	76	.563

Portland loses a comfortable lead and falls into second place, but is still within striking distance of the Oaklanders.

Text of Judge Graham's Decision.
Judge Graham's decision in full follows:

"Manager Wolverton of the Oakland baseball club has protested the games played between the Portland and Oakland clubs at the city of Portland on September 28, 29 and 30, upon the ground that one Gus Hetling, who played with the Portland baseball club in those games, was ineligible to play therein, he having signed a contract

WOE RAINS UPON ALFONSO'S HEAD

Riff Tribesmen Stir Up a Nice Black War Cloud in Morocco.

(United Press Leased Wire.)
Madrid, via Havana, Oct. 12.—Active operations by the Spanish forces in Morocco were revived today and troops sorely needed for the maintenance of order in Spanish cities and provinces are being withdrawn for service in Africa.

The cabinet is genuinely alarmed at the turn of affairs, deeming the time ripe for a revolt at home.

The revolutionary leaders are elated at the difficulties that confront the government and openly predict the success of their party.

Reports received here officially are that General Aldevea, at the head of a large body of men, has left Melilla for Yzama to enforce immediately the payment of an indemnity demanded of the Riff tribesmen by Spain. The Spanish cruiser De La Plata is supporting the movements of General Aldevea. The tribesmen are mobilizing and the need of reinforcements is urged by the Spanish commander.

CRIPPEN INDICTED, ALSO MISS LENEVE

First Degree Murder Charge Against the Doctor; Miss Leneve as Accessory.

(United Press Leased Wire.)
London, Oct. 12.—Dr. H. H. Crippen was indicted today by the grand jury on a charge of murder in the first degree. Miss Ethel Clara Leneve, his typist and his companion in his flight to Canada, following the discovery of the body of Mrs. Belle Elmore Crippen, was indicted as an accessory after the fact on the ground that she had guilty knowledge of the alleged crime.

If Crippen is found guilty on the indictment he will be hanged. If a jury convicts Miss Leneve she will get a prison term of considerable length.

Everything is in readiness for the trial of Crippen and Miss Leneve Monday, 25th inst. in the case for the crown is concerned. It is thought possible that the defendants' attorneys will seek a further delay but it is likely that the case will go to trial without delay.

ENTIRE HERD OF DISEASED COWS IS SLAUGHTERED

Carcasses of 58 Cattle Killed
on Linnton Road Show Cows
Suffering From Tuberculosis
—Many Very Bad.

THEIR MILK DRANK BY SCORE OF BABIES

Physicians Shocked by Results
of Examination Following
Slaughter.

An entire herd of tubercular cows was slaughtered today at Frank L. Smith's place on the Linnton road. There were 58 cows. Fifty-three had been found diseased by test. The rest were under suspicion. Killed under government inspection, more than half the carcasses were in such repulsive condition that they were thrown away as unfit for any use whatever.

The herd belonged to Huber, a dairyman living beyond Leas. A short time ago he was selling the milk from these cows to be used in Portland. Many of the animals when seen this morning before slaughtering had become so weak and emaciated that they were barely able to stand. Tubercular abscesses were found in every portion of the carcasses.

A yearling heifer was a representative type of the rest. An abscess in her head was opened and from it ran great quantities of tubercular pus, ghastly yellow stuff that dripped down on the floor. There were so many other abscesses in the head of this animal that the head seemed rotten. Other portions of her body were afflicted in like manner.

Abscesses Form.
Tubercular abscesses had formed in the liver and kidneys. Every gland in the body was affected. The tissues of the stomach and intestines bore tubercular lesions.

Dr. S. C. White, state health officer, and Dr. E. A. Pierce, member of the state board of health and noted as a specialist in tuberculosis, witnessed the slaughter. They declared that any one of the cows killed was a living plague spot, able to infect everything with which she came in contact. Tubercular bacilli coursed through their blood, entered into the milk and menaced the lives of any who used it.

"It's terrible to think that not long ago the milk from these cows was being drunk by little babies," queried Dr. White.

The owner of the cows, Huber, said he had been selling the milk to the Swiss dairy and it was in turn retailed throughout the city. The herd had been producing several hundred quarts daily. The destruction of his cows also destroys his means of livelihood. He had gotten \$11 apiece for cows that had cost several times that amount. He had

MAN BEING TRIED FOR HIS LIFE

Jesse F. Webb.

CITY AUTHORIZES INVESTIGATION OF HIGH MILK PRICES

Committee on Health and Police to Work With Board of Health Physicians Looking Into Trust.

Upon the suggestion this morning of Mayor Simon, the city council authorized the committee on health and police, together with three physicians from the board of health, to make an extensive investigation into the recent rise in the price of milk. This joint body is given the power to summon and compel the attendance of persons from whom they wish to ask questions concerning the subject.

It is the wish of Mayor Simon that the joint committee go into all the details of the milk question, including the reasonableness of the present ordinance, which has been attacked time and again by the local creamery men. The mayor said there have been many complaints made that the quality of some of the milk has not been the best, and he wishes these to be investigated.

The plan of the mayor is to have a special committee appointed to take up this work, as it is expected to be quite extensive. Councilman Baker advocated

WOMAN WITNESS IN MURDER TRIAL SPURS BRIBE

Irene Tremble, on Joy Ride
With Defendant, Says Man
Offered Her \$200 and Ticket
to Leave City.

WITNESSES FOR STATE TESTIFY AGAINST WEBB

Trunk Into Which Accused Man
Crammed Body, According
to Charge, Exhibited.

An alleged effort by the use of money to deprive the state of one of its most important witnesses in the case against Jesse F. Webb, slayer of William A. Johnson at the New Grand Central hotel, gave sensational turn today to the case, which is on trial in Judge Morro's department of the circuit court.

Irene Tremble, a woman who is to tell of damaging statements made to her by Webb on the night of June 20, when she accompanied Webb and his co-defendant, Mrs. Carrie Kersh, on a joy ride, reported the effort to induce her to leave town to the police several days ago. She told Police Captain Moore she had been offered \$200 in cash and a railroad ticket to any place she desired to go if she would leave Portland before the trial of Webb began.

The woman did not know the man who made this offer, and he did not leave any clue to fix his identity. She has since kept a lookout for the man, and assisted by detectives for the state, has scanned the faces of all who came to the courthouse to attend the trial since Monday. The man has not appeared at the courthouse, and it is not believed that his identity can now be established.

Will Attack Woman's Story.
It was to Irene Tremble that Webb said, according to her story, "I made a rich haul for my lady love today." This was on the night of June 20 at the Seven Mile house after Webb had crammed the body of his lifeless victim into a trunk, accompanied it to the depot, and was the host in a joy ride to the road houses with Mrs. Kersh and Irene Tremble. The latter was picked up at the Lakeside by Webb and Mrs. Kersh.

The defense will attack the story of Irene Tremble, declaring she is unworthy of belief. In his opening statement to the jury yesterday, Seneca Fouts, attorney for Webb, said he expected to show that this woman was so intoxicated when she joined Webb that it was necessary to assist her from one taxicab to another, and that she was in such condition she would not know whether Webb was talking about her or about Mrs. Kersh when he cooed of his "lady love."

Good progress was made with the testimony of the state this morning. Dep-

VAST ACCESSIONS TO STRIKE RANKS ON FRENCH ROADS

Clashes With Troops of Fre-
quent Occurrence; Army Un-
der Orders for Service
Against Strikers.

PROSPECT OF GENERAL STRIKE MOST ALARMING

Little Success in Filling Places
of Strikers; General Walk-
out Imminent.

(United Press Leased Wire.)
Paris, Oct. 12.—Three hundred thousand French railway employes in all the affiliated branches of the transportation service voted this evening to strike tomorrow night. At that time every train in France and every packet steamer and river boat under the jurisdiction of the "syndicate," as the French unions are called, will be tied up.

(Continued on Page Two.)

DIX CALLS TEDDY DISTURBER AND PANIC CREATOR

New York Democratic Candidate for Governor Accepts
Nomination and Pours Hot
Shot at Former President.

(United Press Leased Wire.)
Thomson, N. Y., Oct. 12.—Calling Theodore Roosevelt the "apostle of discord and dissension," and charging that he was able to disturb business to the verge of panic, John A. Dix, Democratic nominee for governor of New York, virtually opened his campaign here today with a speech formally accepting his nomination.

The new leader of the New York Republican forces was scored in blistering terms by Dix.

"Any American occupying a position of authority and having the public ear who assails the courts should be regarded as a public enemy and should be branded by reasonable men," said Dix. "Already we have ample proof of his ability to disturb business and create a condition of panic. If he is permitted to weaken and destroy the power of the supreme court and substitute the president's for the people's will, all the sacrifices of the founders of the republic and all the bloodshed for its preservation will have been in vain and we shall see in times of peace a dangerous disturber bringing destruction to a free people, against which all the forces of the world in arms can be hurled vainly."

WHEN HE FRAMES HIS MESSAGE TAT WILL RECOMMEND CERTAIN INSURGENT MEASURES, IT IS SAID

(United Press Leased Wire.)
Beverly, Mass., Oct. 12.—President Taft is mapping out for congress a strenuous short session and his recommendations will include several measures for which the insurgent Republicans are fighting, according to authentic information obtained today by the United Press.

The president, in his message, will demand the enactment of many new statutes embodying the recommendations contained in the Republican platforms adopted in many states.

Foremost will come the president's expression of a desire to secure a more economical administration and the recommendation that congress cooperate with the governmental departments in bringing this about.

Taft will recommend the passage of a law permitting the development of water power on public lands by private capital, with the government retaining the power to employ restraining measures where necessary.

He will urge the amendment of the Sherman anti-trust law so as to permit railroads to enter into limited agreements regarding rates, subject to the approval of the interstate commerce commission.

A federal charter for corporations will be urged.

The president will continue his announced policy of favoring the establishment of a strong merchant marine, and in this connection will advert to the progress made in the construction of the Panama canal.

The patronage bungle of the "pork barrel" will be partially plugged with a recommendation to senators and congressmen that they surrender a part of their appointment privileges in order that more government employees may be placed under civil service.

Other probable suggestions are for a new form of government in Alaska, the strengthening of the anti-trust laws, currency reform and changes in the law governing the issuance of injunctions without notice.

IF YOU HAVE NOT REGISTERED DO SO NOW OR LOSE VOTE

Voters who did not register for the primary election last month must register before the registration books at the county courthouse close next week in order to be eligible to cast a ballot in the general election next month. October 17 is the last date on which the books will be kept open. All who have not recorded their names by 1 o'clock in the afternoon of that day will have to go to the trouble of swearing in their votes if they vote at all.

PRESENT DOCKS MEAN NO BUSINESS FOR CITY, SAYS NOTED CIVIL ENGINEER

"Portland's water front makes no bid for bigger business; without municipal ownership of the docks and control of the waterfront there cannot be bigger business nor a Greater Portland."

This conclusion was reached yesterday by Charles Evan Fowler, engineer

Here's Your Issue

From the Condon Times.
(The Times is the organ of Mr. Bowerman, and is backed financially by him.)

"The result of the primary election just past goes to show that the wave of anti-assemblyism has not struck Oregon very hard. Looking over the candidates elected we find them very evenly divided, due probably to the fact that the assembly nominees were all strong men and could not very well be ignored by the people. The Condon Times is very well satisfied with the result of the primaries.

"The result of the primary election, just over, signifies that neither party, assembly or anti-assembly, can claim the victory. Neither assembly nor anti-assembly have anything to boast of over the election and have in consequence a very decided respect for the fighting power of each other. It was a drawn battle last Saturday which will probably end the war."

— This declaration by the assembly candidate's own newspaper shows anti-assembly forces that their struggle is not yet won, and leaves a perfect understanding of what is the issue. That issue is assemblyism, and there is no other issue. The way to beat it is to vote against assemblyism November 8.

PRINCIPAL FIGURES IN BASEBALL CONTROVERSY

Judge Thomas F. Graham, president of the Coast league, who decided adversely to Portland in the three protested baseball games by Oakland, Gus Hetling, the Portland infielder, over whom the protest was made, and Judge W. W. McCredie, the Portland magnate, who bitterly criticizes the action of the chief of the league on the grounds that he has no right to forfeit the games to Oakland and deprive Portland of the leadership and the excellent chance it had for the pennant.
