

FRENCH STRIKERS WAVER AND BREAK, OUTLOOK PEACEFUL

Government's Tactics So Demoralizing That Strikers Turn Soldiers and Fight Fellow Workers—Trains Run.

(United Press Leased Wire.)
Paris, Oct. 14.—Appalled by the riots of yesterday and overawed by the determined and radical orders of Premier Briand, the rank and file of the strikers wavered today, and deserting the "syndicate," returned to work on the trains in considerable numbers. A fifth of the regular trains on the Western railroad and a fourth of those on the Northern were operated and disorder was trivial and the backbone of what promised to be the gravest industrial clash in the history of France is believed to be broken.

Wearing the sashes of the reservists, the men who yesterday fought in the streets against the soldiers and police, today manned the trains. The most loyal of the strikers gathered along the Western lines, in the southern part of the city, shortly after dawn, and when the first trains were started. Spontaneous attempts at violence were made. Gradually the crowds diminished and before noon trains were running practically unobscured.

Hundreds of strikers who have been thrown into jail will probably be released, but their leaders will be punished.

Outlook is for Peace.
All day soldiers and police have been arresting the more prominent of the striker agitators. They will be tried on charges of inciting soldiers to insubordination through attempts to persuade the reservists not to obey the orders to assemble, and with interfering with the employees of the state railroads.

In each case the prescribed punishment is severe.

According to reports traffic on all roads except the Northern and Western is normal.

Premier Briand is endeavoring to bring about a peaceable settlement of the difficulties, and it is expected the remainder of the strikers will return to work within a short time. The strike leaders have been unsuccessful in their attempts to bring about a general strike of all unions of railroad employees and their failure is the cause of much depression among the strikers.

PHELAN, WHO KILLED M'QUEEN, ACQUITTED

(United Press Leased Wire.)
Port Orchard, Wash., Oct. 14.—E. C. Phelan is free and there will be no prosecution on the charge of killing A. K. McQueen. Phelan was cleared on a plea of self defense. The fact that he is lame and walks with difficulty helped his cause with the jury. Phelan shot and killed McQueen, a fireman on the cruiser Washington, last July in a Bremerton boating alley, where Phelan was employed. A number of men, more or less under the influence of liquor, started trouble and it was testified that McQueen had picked up some pool balls with the evident purpose of throwing them at Phelan when the latter drew a revolver and shot McQueen through the throat, severing the jugular vein.

LOGGER KILLED WHEN FELLING HUGE TREE

(Special Dispatch to The Journal.)
Astoria, Oct. 14.—Leo Elverus, 36, and unmarried, who worked for a number of years at the Deep River Logging camp, while felling a huge tree yesterday did not get out of the way in time. A dead limb struck him and smashed his skull. He was brought to Astoria hospital, where he lived but two hours without regaining consciousness. An inquest will be held by Coroner Gilhaugh.

Sealer Makes Good Catch.

(United Press Leased Wire.)
Victoria, B. C., Oct. 14.—With 1100 sealskins on board, the sealing schooner Jessie has returned to port after having made a record catch. There are four other schooners out but they have not been reported recently. The catch of the Jessie, with a crew of only nine men, will net \$10,000.

GRAND GATHERING OF CHRISTIANS

Protestant Episcopal Convention Considers Call for World Conference.

(United Press Leased Wire.)
Cincinnati, Oct. 14.—Action taken by the house of deputies of the Protestant Episcopal convention may result in the calling of a great world's conference of all churches of the Christian faith. The convention now awaits the report of those to whom discussion of the project has been entrusted, and if the various committees report favorably it is likely that the entire committee will take steps to call such a conference. The matter has been placed in the hands of a committee of seven clergymen and seven laymen, who will meet with a committee of seven bishops.

WASHINGTON ROADS BETTER THAN OREGON'S

Lewis Russell, who recently returned from a tour of inspection of Washington roads, in company with Louis Hill, says: "Washington is far ahead of Oregon in good roads. They have been doing some fine work and I shall make every effort to place Oregon on a par with Washington, from a good roads standpoint. I am arranging a party to visit Carlton, Wash., to inspect the work being done there by the convicts on the roads. They are the cheapest and best for rock work."
Mr. Russell also said that the first road to receive his attention would be the road down to Gearhart, as that road would give pleasure to thousands of motorists as well as be welcome to the ranchers along the route. At either end of the road there are already fine

stretchers of good highway from Portland out and from Astoria to Gearhart and a little concerted effort on the part of the different counties en route would put the road in fair shape by spring.
The Columbia county surveyor, C. T. Proctor, has invited F. J. Walsh, the consulting engineer for the good roads interests, down to help locate the best route for the road over the divide in that county, and Mr. Walsh will leave for that point in a few days. There is also to be conference between Mr. Russell and some interested parties from Astoria in reference to the Astoria people working from there out so that with the work from both ends going on and Columbia county doing its share it ought to be a simple and a quick job.
The first of the road signs designed by Mr. Russell will be placed on the Linnton road next week. They are excellent in design, being made of sheet iron, braced across the back with bars of iron, the edges being rolled to prevent twisting. The rolls are painted red, the body of the sign black and the letters white, colors well chosen, as they can be seen quickly from quite a distance.

MAINE TO BE RAISED AND SUBMERGED AGAIN

(United Press Leased Wire.)
Beverly, Mass., Oct. 14.—With the final approval by President Taft of the plans for raising the battleship Maine, it is expected work on the sunken warship will soon be completed and the memorable hulk will be taken out to sea and given a deep water burial forever.
It is not believed that the wreck will be placed on exhibition as one of the great national memorials.
The plans provide that the Maine shall be raised before February 15, next, the thirteenth anniversary of the destruction of the battleship in Havana harbor.

RENOWNED JAP SEA FIGHTER IS NO MORE

(United Press Leased Wire.)
Tokyo, Oct. 14.—Takenosuke Samejima, one of the best known fighters in the Japanese navy, died here today at the age of 67 years. Samejima was once a member of the house of peers and later chief secretary to the cabinet and auditor of the Bank of Japan.
Admiral Kasunori left here today for San Francisco.
