

CHAMBERLAIN AND MANNING OPEN IN CLATSOP COUNTY

Housing Reception to Champions of Popular Rule and a Square Deal — Paramount Issue and Solution Stated.

(Special Dispatch to The Journal.) Astoria, Or., Oct. 14.—Before one of the largest and most enthusiastic gatherings ever held in the city in many a day, Senator George E. Chamberlain and John Manning opened the democratic campaign in Clatsop county at the Astoria theatre last night. The good people of Astoria, headed by Mayor A. M. Smith, had prepared for a housing rally, and they wrought well. Red fire, bombs and a brass band challenged the city's attention and the people responded by packing the spacious theatre to galleries and doors.

Mayor Smith in introducing Mr. Manning as the democratic candidate for congress, took occasion to present him as a man who, as district attorney of Multnomah county, "made a record that has been excelled by no other district attorney in this state." He was loudly applauded.

Denounces Convention Corruption.

In a brief and happy address Mr. Manning denounced the corrupt convention system of nominations, voiced his opposition to the importation into this country of the pauper labor of other lands; declared for fairer and more equitable railroad rates based upon legitimate and honest values; avowed his hostility to the domination in congress of the trusts; denounced the practice of public service corporations in over-capitalizing and charging the public for service based upon false values; pledged his assistance in congress, if given the opportunity for construction of the proposed great ferry at the mouth of the Columbia; his avowal and declared that officers of the corporations violating the law should be prosecuted and punished.

Punish Men, Not Corporations.

"Guilt is personal," said the speaker. "It does not attach to man-made, law-created persons. Crimes are committed by men, and the way to stop crimes is to punish the men who commit them. Do not impose fines upon law-made persons, known and designated in the verbiage and fiction of the law as corporations."

Waged to Progressive Policies.

Mr. Manning said he favored strengthening the military fortifications at the mouth of the Columbia. He again took occasion to reassert his devotion to the advanced and progressive laws now in force in Oregon and pledged his support of their spirit and purpose. The speaker declared that if elected to congress he would at all times devote his best efforts on behalf of the people of the whole state. His address was well received and he was loudly applauded.

Assembly the Paramount Issue.

Senator Chamberlain's speech was one of the strongest and most eloquent efforts heard thus far in the campaign. He delivered a bodyblow attack on the assembly system and declared it to be the paramount issue of the campaign and the only issue in state politics.

About That Bourne Alliance.

"They have charged me with having an offensive and defensive alliance with Senator Bourne," continued Senator Chamberlain. "Let me say, my friends, that nothing could be farther from the truth. The only compact I have ever had with Senator Bourne has been a compact which I entered into with him and Congressman Ellis and Hawley to strive together at all times, without regard to politics, differences or party, in an harmonious endeavor to accomplish all possible, as representatives of the people, for the general good of our people, made while I was a candidate for the people, made while I was a candidate for their suffrage, that I would keep my hands off of the question of federal patronage and attend to the needs of the people of Oregon."

Opponents Incoherencies.

Senator Chamberlain spoke tellingly of the incoherencies of Bowerman and Lafferty before and after the primary election—told how Lafferty got his nomination for the single reason that he came out strongly against the assembly and all its candidates and the day after the primaries pledged his support of the whole ticket. Mr. Bowerman, the "father of the assembly," particularly included.

Way to Save Oregon System.

"Can you trust either of these candidates, who within times so recent have been on both sides of this vital question?" queried Senator Chamberlain. "Isn't the safest and surest way to

ROOSEVELT OPENS STIMSON'S BATTLE

Addresses Large Crowd at Dunkirk and Attacks Democratic Party.

(United Press Leased Wire.) Dunkirk, N. Y., Oct. 14.—Colonel Roosevelt opened the campaign in New York this afternoon on behalf of Henry L. Stimson, Republican candidate for governor, when he addressed a large crowd here. The Democratic party was the direct object of most of the colonel's attacks.

"The New York democracy," he said, "is the most shameful combination of crooked politics and crooked finance the state has seen since the days of Boss Tweed."

Tammany Hall and Tammany control of New York city came in for a round scoring and the part Tammany played in the Rochester convention was denounced. He declared Dix to be a "man without a record," and sarcastically referred to "Room No. 312," which was occupied by Charles F. Murphy, the Tammany chief, at Rochester.

MARRIES IN HASTE TO OBTAIN FORTUNE

(United Press Leased Wire.) Washington, Oct. 14.—Miss Eugenia Adams, who advertised a reward of \$200 for the man who would marry her within a week in order to fulfill the will and claim the estate of her grandfather in Germany, was married today to Harvey O. Brown, a building wrecker. Chief Justice Bundy in the municipal court performed the ceremony.

When the ceremony was concluded the bride dug down in her purse and took out two crisp \$100 notes. "I'm much obliged to you," she said to her husband. "Good bye."

And without another word she walked out of the court room. "Good bye and good luck to you," replied Brown.

Brown glanced from his disappearing bride to the bills in his hand. "Darned nice girl, but I hate to see her go," he muttered. "But it was a bargain, and I'll stick to it. If she ever wants to come back, darn it, I'll take her, too. If she don't, I won't bother her."

The bride left at once for Philadelphia where she will sail on the first boat to Germany to claim her estate. Brown went back to his job.

TELLS HOW BOYS ARE CAGED IN BASEMENT

In an address before the Holman School Parent-Teacher circle yesterday Mrs. Thomas Hawkes said in part: "The time is not far distant when building a school house without providing a playground for the same will be classed quite as criminal as building one without lights or ventilation."

"Boys are herded where they are not permitted to run, jump or wrestle through fear, it is said, of being hurt on the cement floor. Even so, the boy would not receive half the injury that he now does by this 'suppression' of all his inner activities struggling for expression."

In speaking of the National Congress of Mothers recently held in Denver, Mrs. Hawkes said: "Many of the delegates from other states were desirous of having the next convention in Portland, stating they had heard so much about Oregon as a beautiful country they were anxious to come and see us, but we, the Oregon delegation, were painfully aware of the fact that we had no place to entertain the congress. We hope to have the convention in 1913, and a building (woman's) in which to entertain the delegates from every state in the union. We will have a building that will make the heart of every Portland woman beat glad and our husbands will rejoice with us."

Mrs. Hawkes is chairman of the playgrounds committee.

DISCHARGED COOK TALKS OF CRUELTY

When the county grand jury, which has been investigating conditions at Crystal Springs sanitarium, following charges of brutality made by two brothers of Dr. Laurel Stenler, a former inmate, meets Monday, the principal witness probably will be J. T. Ellis, a cook employed at the institution. Ellis told a story today of witnessing several exhibitions of brutality at the sanitarium.

Ellis' testimony will be considered, however, by the grand jurors, and their judgment tempered by the fact that he was discharged by officials of the sanitarium company after having worked only three weeks. He was employed as a cook. The sanitarium officials said he was not the sort of an employe they wanted, so they discharged him.

Ellis told his story today, and an effort was made to call the grand jury for a special session. However, not all of the members could be got, so Ellis' hearing was postponed until Monday, although he may be called tomorrow. He said he had seen several patients beaten and knocked about.

DENIES LIFT SPAN OF BRIDGE TOO SHORT

Street rumors to the effect that the lift span of the new Hawthorne avenue bridge is about two feet too short are denied by officials of the United Engineering Corps and Construction company, which has the contract for building the superstructure of the big bridge. When seen today, A. S. Eldridge, vice president of the construction company, scouted the idea that the span is short.

"We are not novices in the construction business," said Mr. Eldridge, "and would never spend thousands of dollars in riveting together the span unless we knew that it had been fabricated according to our specifications and that our specifications were absolutely correct in every detail. The span is actually about three inches short, but this difference is required, in order properly to operate the lift."

Moroney Sentenced.

(United Press Leased Wire.) Fresno, Cal., Oct. 14.—Jim Moroney, convicted of the murder of Casimiro Tognotti at Fribourg last July, was sentenced to life imprisonment in San Quentin today. Moroney was crazed with the joy of the day of the murder and imagined some one was attempting to cut his throat. He fired both charges of a double barreled shotgun into Tognotti at close range. The testimony showed that Moroney cherished a feud against Italian.

POLICE SAY BRYCE CAN'T GET AWAY

Not Discouraged Because Suspect Has Just Slipped Through Their Net.

(United Press Leased Wire.) San Francisco, Oct. 14.—That the man known as J. B. Bryce, suspected of being the ringleader of the Times dynamiters, is still in San Francisco, has been proved to the satisfaction of the police, who today redoubled their efforts to stop every loophole of escape.

When Daniel H. Ingersoll, husband of Mrs. Lena Ingersoll, the woman who overheard the alleged conspiracy to destroy the Times plant, rushed into the Mission police station last night and told the police that Bryce had just been admitted into his home at 2856 Twenty-sixth street by his wife, a posse of policemen quickly went to the house and made a search. They found no one, however, except Mrs. Ingersoll, frightened and tearful. Though the man the police sought was not found in Ingersoll's home, the officers express their conviction that he is not outside the city and that a search of all hiding places will bring him from cover.

Bryce and "William Morris" alias "Ferry" alias "Smitty," both lodged at the Ingersoll home and it was while they were there that Mrs. Ingersoll says she heard the two men discussing the plot of the Times disaster.

That he saw Morris in this vicinity recently—in fact not more than four or five days ago—is Ingersoll's statement to the police. They have secured a close description of Morris from him and are preparing to send circulars all over the United States. Even if the men wanted get out of San Francisco the police say it will be but a matter of time until they are located.

DR. THOMPSON MAKES FIGHT FOR FREEDOM

(United Press Leased Wire.) San Francisco, Oct. 14.—The effort of his attorneys to have the indictment against Dr. Robert Thompson, charged with the murder of Eva Swan, set aside failed in Judge Dunne's court. Further hearing of the motion, however, will be heard tomorrow.

Attorney Greeley called Frank Maron, a searcher of records, to the stand. Maron testified concerning the position of certain grand jurors, E. J. Laughrey, G. J. Olivin and J. L. Leventhal, on the assessment roll, in an effort to prove that none of the three jurors was eligible to serve when the indictment was brought against Thomas.

Assistant District Attorney Cotton contradicted Maron's testimony by showing all three jurors appeared upon the assessment roll for either personal or real property.

The remainder of the grand jurors testified that they were not prejudiced against Thompson when they brought their indictment because Thompson refused to testify in his own behalf.

CHARLTON CASE IN HANDS OF SECRETARY

(United Press Leased Wire.) Jersey City, N. J., Oct. 14.—The fate of Porter Charlton, accused by the Italian government of murdering his wife, Mary Scott Castle Charlton, was put into the hands of Secretary of State Knox today by Judge Blair, before whom the case, on extradition proceedings, is being heard.

Judge Blair refused to listen to arguments purporting to show that Charlton was insane. He also stated from the bench that his extradition was a matter which Secretary Knox must decide.

It is generally believed here that Knox will not order Charlton's transfer to the Italian authorities. If Knox declines to order the transfer, Charlton's attorneys will ask for an immediate dismissal of the charges against him.

Patent to Portland Inventor. (Washington Bureau of The Journal.) Washington, Oct. 14.—A patent has been granted to Charles H. Caldwell of Portland on a square.

STATE SENATOR GARDNER HELD

New York Solon Said to Have Offered Bribe to Kill Race Track Bill.

(United Press Leased Wire.) New York, Oct. 14.—The grand jury this afternoon indicted former State Senator Frank J. Gardner on the charge of offering a bribe to former State Senator Foelker, now a congressman. The charge against Gardner is that he offered Foelker \$25,000 for the latter's vote against the Hughes anti-racetrack gambling bill. A certified copy of the indictment has been sent to Scranton, N. J., by Judge Mulqueen. Gardner was arrested at Scranton yesterday on a charge of being a fugitive from justice.

Scranton, N. J., Oct. 14.—Declaring that former State Senator Frank J. Gardner of New York distributed \$500,000 or more in an effort to defeat legislation favored by Governor Hughes, District Attorney Whitman of New York today, before Judge Newcomb, opposed Gardner's petition for release from custody on a writ of habeas corpus.

LABOR OPPOSES WATER AMENDMENT

In an argument filed by the Central Labor council with the city auditor this afternoon against the proposed water amendment to transfer the cost of laying water mains from the property benefited to the entire city at large charges are made that Mayor Simon and members of the water board, executive committee and city council will be among the largest property owners to be benefited by the proposed change.

The argument declares the proposed amendment to be a scheme of land speculation and says that, if it is carried, according to the records of February, 1910, Mayor Simon, eight members of the executive board, seven members of the city council and three members of the water board, together with the Laffey interests, control 28,454 lots that will be directly benefited by the amendment.

It is proposed to make a refund to property owners of \$40 a lot on property where water mains have been laid prior to the passage of the amendment. This would give the property owners referred to a refund of \$328,960, says the argument.

They also say the laying of mains means an average increase in value of \$100 a lot, which would mean an increase of \$2,728,000 on lots held by the mayor and other owners mentioned.

"We believe," reads the petition, "that the present city administration and water board need revision more than the present water laws."

CHICAGO POLICE SAY HAVEN'T BEEN ADVISED

Chicago, Oct. 14.—The Chicago police today declared that they had not been advised by the San Francisco or Los Angeles authorities that "J. B. Bryce" and "F. A. Perry" were wanted in connection with the Times dynamiting outrage. The names are not included in the local records, and Chief of Detectives O'Brien asserted that no descriptions of suspects had been received here.

Patent to Portland Inventor. (Washington Bureau of The Journal.) Washington, Oct. 14.—A patent has been granted to Charles H. Caldwell of Portland on a square.

WHR-R. PHEASANTS TO FLY TOMORROW

Hunting Season Begins Then; 4642 Licenses Taken From County Clerk's Office.

Hunters have been flocking all day to the county clerk's office to secure their licenses for the opening of the upland bird season tomorrow, October 15, and when the office closes tonight nearly 500 will have been issued. At 1 o'clock the clerk's records showed that 4642 licenses had been issued. The number of young boys who have taken out licenses exceeds that of any other year, while the women hunters keep up to the average.

The season opens tomorrow for male Chinese pheasants, native pheasants and grouse except in Eastern Oregon counties, and quail except in Jackson and Josephine counties, where the limit is 10 in one day or 50 in seven consecutive days.

It is unlawful to hunt without a license or to sell any birds killed, to kill more than five birds in one day or ten in seven consecutive days. It is also unlawful to kill any female Chinese pheasants or to hunt on enclosed land without permission.

DOCTOR WOOD MUST ANSWER FOR WRONGS

(United Press Leased Wire.) San Diego, Cal., Oct. 14.—An amendment to the order which was made a few weeks ago and which discharged Mrs. Julia F. Quinn from the Point Loma theological home, has been made by Judge Lewis in the superior court here. The amendment was made after a motion by attorneys for Katherine Tingley, of the home, and specifically places the responsibility for the restraint of Mrs. Quinn upon Dr. Levin F. Wood and not upon Mrs. Tingley.

In another clause of the original order which read: "and no legal cause be shown for such imprisonment or restraint or for the continuation thereof," the word "imprisonment" was eliminated.

MISS BARNEY DENIES NUDE STATUE STORY

(Publishers' Press Leased Wire.) Washington, Oct. 14.—Paris cables say that Miss Natalie Barney, daughter of Mrs. C. Barney, indignantly denies having posed for a statue in the nude which has been placed in Mrs. Abney's magnificent mansion grounds on Massachusetts avenue.

Stories about the statue coming from Miss Ethel Barney's studio in Paris, where she is said to have created the work, have plagued the abnays.

Mrs. Abney said today she has determined to have the police order calling for a draping of the statue, "to protect it against the rigors of the weather," rescinded if possible.

FOUR MORE DEAD BODIES RECOVERED

(United Press Leased Wire.) Starbuck, Colo., Oct. 14.—Scenes of horror at the mouth of the Starbuck mine, wrecked by Saturday night's explosion, were continued today when the rescuers brought to the surface four more mangled and unrecognizable bodies of miners.

Officials of the Colorado Fuel and Iron company say four more corpses have been located and will probably be brought to the surface before night. The rescuers are now trying to reach the most remote entries, where it is believed about half of the victims perished from asphyxiation by afterdamp.

DESPERADO KILLS TWO, WOUNDS ONE

Railroad Special Agents Fight Fatal Battle With Negro Who Stole Ride.

(United Press Leased Wire.) Huntington, W. V., Oct. 14.—After killing two peace officers and mortally wounding a third, a negro desperado was driven to bay in the hills near here by a posse of sheriff's deputies. The negro is well armed and holds his pursuers at a distance. Two companies of militia have been ordered out to aid the posse.

The negro was stealing a ride on a freight train of the Chesapeake & Ohio railroad train when Special Agent Lenz attempted to arrest him. Lenz was shot and thrown from the train. He is not expected to live.

The negro fled and in a fight with his pursuers shot and killed Special Agent Charles Hale, who had charge of bloodhounds. The negro shot several of the dogs and later killed Policeman Bias. If caught there is no doubt the negro will be lynched.

SCHOONER TO CARRY LUMBER TO SYDNEY

The American schooner William Nottingham, 1083 tons net burden, Captain Svenson, has been chartered to Comyn Mackall Co. to carry lumber to Sydney, N. S. W. She will have a cargo of 1300,000 feet. The Nottingham is now at Callao, on the west coast of South America.

Gold Dust Cleans Everything — Injures Nothing

GOLD DUST cleanses thoroughly without the least danger of injury. There are many good cleaners on the market which do the work quickly, but they contain abrasive matter, and in time will wear through brass, tiling, porcelain tubs and bowls and all highly polished surfaces.

GOLD DUST does the work, does it better, and does not wear away the surface. Why experiment when GOLD DUST stands without an equal?

Do not use Soap, Washes, Bases, Soda, Ammonia or Kerosene with Gold Dust. Gold Dust has all desirable cleaning qualities in a perfectly harmless and lasting form.

"Let the GOLD DUST TWINS do your work!"
