THE KING OF THE CARIBAL ISLANDS!

COUNCILMEN ARGUE OVER WATER QUESTION

(Salem Bureau of The Journal.) Vancouver, Wash., Oct. 18.—Interest at the city council meeting last night centered in a franchise prepared and presented by John M. Lay, asking to install a city water system. The franchise would cover the entire city, and with the request was a letter from Dr. J. T. Guerin, stating that he had analyzed the water and found it pure. This franchise being asked for at a time when municipal water is being considered and a special election having been called to vote or reject bonds for its construction, naturally caused a commotion and a heated debate followed in which personalities were not considered. The debate resulted in Mr. Lay withdrawing his franchise, with the request that the incident be forgotten. Councilman Tenny, in attacking the franchise, said that it was all one-sided; that Mr. Lay had furnished no bond for faithful performance of installing the plant should the franchise be granted, and had furnished no analysis of the water. The letter from Dr. Guerin was then read. Councilman Tenny said that when Dr. Guerin stated that the water was pure, he did not know what he was talking about, as no water was pure, not even Bull Run water at Portland. He demanded that Dr. Black, city health officer, be instructed to prepare a sample of the water and forward it to the Agricultural college at Corvallis, Or., for analysis. At this juncture, Mr. Lay stated that it was strange that Mr. Tenny would demand an expert analysis of his water before considering a franchise, when he had voted to call a special election to vote bonds without first having analyzed Mr. Tenny stated that he had not so voted, but to come down to facts, did not believe that the Lay water was any good. Mr. Lay then withdrew his franchise with the remark that he was willing to have the water analyzed at Corvallis, and would furnish bond if there would be any hope of securing the franchise before he died; that every man's word was doubted, but that he would do it and was no use to "buck" the game any longer. City Attorney P. J. Kirwin took up the part of the city, and stated to Mr. Lay that he must not come in there and abuse the city officials, as he had never until then presented a franchise that was a franchise, and he must not think that a franchise of such a nature would be given him in 30 minutes. The Lay franchise was laid over till the next meeting and Dr. Black was instructed to prepare samples both of the Lay and Lewis river waters and send them to Corvallis for analysis. An ordinance to regulate and license automobiles and vehicles propelled by steam, gasoline or motor power used for transportation of freight, express or passengers was passed. A license of \$5 per car will be taxed. C. E. McCurdy made application for appointment on the police force. The application was referred to the police committee. A petition signed by 11 property owners was presented asking that a light be installed on Reserve street between Second and Fifth. The light was ordered installed. A request was made that Hood street, east of the garbion, be improved from Third to Sixth street. The matter was referred to the city engineer. E. M. Rowley was granted a reduction in his assessment on Fourth Plain avenue from \$190.95 to \$95.50. The lot assessed extends to a point at the back and was therefore not a full lot. The correction was made. A. M. Riggs was appointed driver of the fire engine. George E. Schuele presented the council with a map of the city which was ordered framed. The street committee recommended

Lovelace has been in Umatilla two months, coming there from Grants Pass. He was known to be carrying a concealed weapon for several days, but the marshal refused to interfere. Stirling Pictures at Hager's

(Salem Bureau of The Journal.) Vancouver, Wash., Oct. 18.—The feature film at Hager's theatre for Monday and Tuesday of this week is "The Pony Express Rider." This is an echo of the long ago when no railroads spanned the continent and the mail was carried across the plains by men on ponies who made relays at certain points. It seems like a story to hear about it, but this picture makes it seem real again. The setting is admirable, imparting a sense of reality to the film which is impressive. The scenic scenery, the excellent comedy pictures. Special added features this week are Miss Violet La Ferro, and Miss Edna Scharfentberg, the former a contralto, the latter a soprano who render the illustrated songs in a creditable manner. BALLOONS IN A FLOCK

Extraordinary Grouping Reported From Milwaukee; Expect Records

(United Press Leased Wire.) Dindigton, Mich., Oct. 18.—Three balloons started here shortly after noon today, sailing at an altitude of 2000 feet and headed for the northeast. The balloons reached Ludington immediately after crossing Lake Michigan. St. Louis, Oct. 18.—Reports of the 10 gas bags that sailed away from here yesterday in the fifth annual international balloon race are being received today. Officials of the Aero club of America, which is promoting the race, who have gathered here to receive the reports, are enthusiastic over the race. They declare that, on the showing so far made records will be broken and the present race will go down in history as the most successful of its kind ever held. Nine of the 10 balloons that started were still up according to a bulletin issued at 7 o'clock this morning. Just after a report of one balloon's landing near Racine, Wis., had been received. Two other balloons, headed due north and sailing along the company's tracks, were reported to have crossed the Wisconsin state line, having sailed over the state of Illinois during the night. Racine, Wis., Oct. 18.—One of the balloons entered in the international race, landed at Caladonia, Wis., at 7 o'clock this morning. It was identified as the "Million Pounds" of St. Louis. Pilot Von Puh brought it down in a large field and landed without a mishap. The Million Pounds met with an accident at York, Ill., which spoiled its chances of making a record. The drag rope caught in a telegraph pole and to clear it Van Puh had to throw out all his ballast. He feared to attempt to cross the Great Lakes without ballast and therefore he could not direct his balloon. Milwaukee, Wis., Oct. 18.—Five balloons entered in the international race, passed over Milwaukee in a flock today. The first was sighted shortly before 8 o'clock and by 9 o'clock the flock was passing from view. The balloons were so close as to be within halting distance of each other. The aerostats were all flying at about the same height, 1000 feet, and at that distance, owing to a slight haze, their names were not discernible. The balloons were carrying them along at a 25 mile clip. Big Bend, Wis., Oct. 18.—The balloon Dusseldorf, pilot Gericks, sailed over Big Bend at 1:15 o'clock this morning. The bag was being carried rapidly north at the height of 800 feet. Gericks threw overboard a block of wood, on which was tacked his cards, with the message, "All's well." Zion City, Ill., Oct. 18.—The balloon Tele De France passed over Zion City at 6:30 o'clock this morning, headed west by north. When over the heart of the city the pilot dropped a weight with a card attached saying all was well aboard and that he could stay up almost indefinitely. Janesville, Wis., Oct. 18.—The balloons America II and the Aurora were sighted near here at 8:30 o'clock today. The bag was being carried east of each other in a northerly direction. New Pictures at Palace. (Salem Bureau of The Journal.) Vancouver, Wash., Oct. 18.—Several new films are on show at the Palace theatre. The picture is a story of the reign of terror in France, begins with a love affair between the wife of a performer of the peasant class and a nobleman. The wife deserts her husband to be a great lady. The performer, who is a nobleman, is killed, but at the last moment he gives his former wife and her latest husband disguises and allows them to escape. "The Indian," a western scene, "Whist" and "He Met the Champion" complete the program. Woman Janitor for Barnard. From the New York Tribune. The rule of woman seems to have begun at Barnard. While the college does not yet boast a woman dean, the students are to taste the joys of having a woman janitor. A woman, the woman janitor and general officer of affairs, has departed and students who have heard the news say it is fearful to contemplate what will happen without him after the long years that he has been a power on Morningside Heights. No man probably would have the courage to attempt to fill his place, but a woman has been found who thinks she is equal to the job. She is Mrs. A. E. Jameson, who last winter was head of the college lunch room. With the assistance of her hired man, Grant, she will try her hand at the joys and task of shifting scenes for the students and attending the staff of office which was held by George. Color photography has been applied to surgery to give a student a clearer idea of a condition and a better idea of the effect of a disease than a black and white picture affords.
