East Side Trade Health and Beauty Advice BY MRS. MAE MARTYN Building Week

Annette: The affiliction of over-fat-ness is to be deplored at any age, but it is a positive calamity to a young and pretty woman to become too fat in these days when fashion decrees the siender tigure the only correct one. You can reduce your weight almost at the rate of a pound a day until you reach normal if you will dissolve four ounces of par-notis in 1% pints of warm water and take a tablespoonful before each meal. You can buy parnotis from any first-class druggist. It is a harmless fat dissolver, and those who take it marvel at its wonderful effect. It makes one look and feel younger, brighter, more bougant and energatic.

Fannie R.: To be sure a face lotion is far better than face powder, but you will have to be careful what you use as most "liquid face powder" contains injurious ingredients that are likely to pensive one which is all right: Dis-solve four complexion. Try this inex-pensive one which is all right: Dis-solve four ounces of spurmax in a half pint of hot water and add two teaspoon-fuls glycerine. Rub this on your face, neek and arms, and it will give your skin a very pleasing, deleate tone. This lotion does not show or rub off like powder and will remove that shiny, sal-low look to your skin. This preparation is a wonderful skin beautifier and I find it excellent for rough, red or sallow skin, freckles and skin pimples.

skin, freckles and skin pimples. R. T.: Unless you kill the follicles (roots) any treatment for superfluous hairs on the face or forearms will prove disappointing. Sometimes one applica-tion of a laboratory compound known as delatone will do this; sometimes two or three applications are necessary to iorever rid one of the embarrassing and humiliating hairs. You will have to pay your druggist a dollar for an ounce of delatone, but at that it is cheaper than the electric needle - Just mix a little delatone with enough water to make a paste, cover with it the skin from which you wish to remove the hairs, allow to remain two or three minutes; then wipe off (the hairs come off with the paste) and wash the skin with warm water. If the hairs do return after the first treatment, they will be so light and thin as to be unnoticeable.

R. M. S.: Sallow complexion, liver blotches, pimples and other eruptions of the skin indicate the need of a good blood tonic and liver regulator. Dis-solve one ounce of kardene in one-hair pint of alcohol, add one-haif cup of sugar and enough hot water to make a full quart. Take one tablespoonful five minutes before each meal. Kardene purifies the blood, arouses the liver, clears the skin, restores lost appetite and tends to strengthen and build up the entire system. Annette: The affliction of over-fat-meas is to be deplored at any age, but it is a positive calamity to a young and wather to blood at any age, but it is a positive calamity to a young and hot water to make a solution of over-fat-neas is to be deplored at any age, but it is a positive calamity to a young and mather to blood at any age, but it is a positive calamity to a young and hot water to be age to blood.

coloration. Miss H. I.: If you only knew what was in those cheap, greasy cold creams you have been smearing on your face, how have been smearing on your face, how have been smearing on your face, it would never use them again, as they are really harmful. Never use anything but a greaseless cream if you don't want hair on your face. At a small expense you can prepare an ex-cellent complexion cream jelly by stirring together and allowing to stand over night two teaspoonfuls glycerine, one ounce almosoin and one-half pint cold water. Use this regularly and it will clear up your complexion wonder-fully by removing all dirt and oil. It will also remove quickly those black-heads and other effects of hot weather such as freekles, tan and roughness of the skin of which you speak. This is the only reliable cream I have ever found for removing wrinkles without leaving the skin rough and flabby after massains and for reducing the size of large, dirt-collecting pores. coloration

Victoria: Your scalp needs a good, stimulating quinine hair tonic to re-move the dandruff, stop fritation and falling hair. Get from any drug store one-half pint alcohol and one ounce quinzoin and mix it with one-half pint water and you will have a much better tonic than any of those ready-prepared tonics you have been buying. Brush your hair daily and twice a week apply this tonic to the scalp, rubbing it in gently. This will do wonders for your dull, lifeless, falling hair, and put your scalp in a health" condition. This tonic will make your hair soft, silky and lus-trous, Keep the scalp clean by frequent shampoos with canthrox and you will not have further trouble with your hair.

the electric needle. Just mix a little delatone with enough water to make a paste, cover with it the skin from which you wish to remove the hairs, allow to remain two or three minutes; then wipe off (the hairs come off with the paste) and wash the skin with warm water. If the hairs do return after the first treatment, they will be so light and thin as to be unnoticeable. Mrs. David O.: The only reason why many hair and scalp specialists advise against frequent shampooing is the Enid S .: Your headaches and gener-
