Household Economy How to Make the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 1/4 pint of warm water, and stir about two minutes, you have as good syrup as money could buy. If you will then put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could buy ready made for \$2.50. It keeps perfectly. And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just exactly enough has a good tonic effect and taste is pleasant. Take a teaspoonful every one, two or three hours. It is a splendid remedy, too, for hoarseness, asthma, chest pains, etc. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualcol and all the healing pine elements. No other preparation will work in this formula. This recipe for making cough remedy with Pinex and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated but never successfully. Some of the best known Portland druggists, such as Laus-Davis Drug Co. (distributors), and others, think so well of the above recipe that they guarantee it to give satisfaction or refund the purchase price.
