The last year or two has been a glorious time for the country in respect to this wholesale smashing of political machines, invariably allied with "Big Business," with exacting corporations and extortionate trusts, to plunder the people. The voters of Oregon should be very careful to prevent the reestablishment of a party machine in this state. And every assemblyite is a machine man.

## THE DITCHBURN BRAWL

F FURTHER evidence of the total unfitness of John Ditchburn for a place on the bench is needed, yesterday's police court record affords it. The claim of the man attacked is that the assault was made without cause and for reasons that were entirely

That is not the proper conduct for a man who asks to be elevated to the bench. As a presiding judge in the circuit court Mr. Ditchburn is not the kind of man, as this incident shows, before whom the citizen would care to go for a trial of the rights of property or the rights of person.

#### THE SUPREME COURT

N THE political pamphlet sent to the voters appears an argument against the nonpolitical judiciary movement and candidates. Its manner is juvenile and its language intemperate and the statements unthat at the June election in 1908 the people rejected the proposition to increase the supreme court from three to five members, and in spite of this plain expression of the will of the people the then Democratic governor, in his biennial, message, urged the passage of a law to thus enlarge the court. It is also stated that two of the nonpolitical judiciary recent address that the Boston candidates (meaning, doubtless, & Maine railroad was going out Judge King and Judge Slater) were active in securing the passage of this

Concerning the statement, the first inquiry that arises is-why do plain expression of the will of the be candidates?

But it is not true that the people rejected the proposition to increase the supreme court. What is true is that the proposition submitted to the people to increase the supreme court was coupled with another proposition to radically change the judicial system of this state by abolishing the county courts and transferring probate business to the circuit courts. The amendment proposing this was so crudely drawn and left undetermined so many details for the transfer of the business that the bar generally and the people were change of the judicial system and not the proposition to increase the hands of the people.

Now the act of the legislature to increase the supreme court was in which the number of Democrats the three Republican judges, Judge therefore, an act of the legislature, approved by the three independent and coordinate branches of the government, two of these branches bethat the Republicans created these offices to reward Republican politi- who is responsible? The late dowager empress, one of the ablest women of modern times, and one of the most wise and skilful in statecraft, promulgated a plan of representative government in China, which involved nine years of progressive action. The first step in the plan was taken a year ago by the inauguration of the provincial assemblies. The second step was the opening of the imperial senate by the regent Prince Chun in Peking on October 3. There was little or no ceremony to mark an event memorable in the world's record. # Dry Farming Methods Pay.

From the Minneapolis Journal, Farmers in almost every section of from the lack of rainfall and are preparing to change their farming methods in many particulars. Among other things the amount of grain harvested in spite of the short rainfall showed very clearly the high degree of droughtresistance of the soil, but it also taught the farmers that they had not in the past been doing their full part in the

conservation of moisture. There have been numerous to the Campbell system of dry farming, which includes deep plowing, deep sow-ing and the formation of the dust blanket on the surface to minimize surface evaporation. Several farmers in different parts of the state became converts to the Campbell system several wears ago, and in years when the precipitation was up to normal were laughed at by their neighbors, for their but the laugh was the extra pains, other way this year, These dry farmers reaped remarkable harvests this year, their wheat yielding in many cases 40 bushels an acre, while neighboring fields tilled by the catch-ascatch-can method turned out six to ten bushels.

## The Perils

# (Contributed to The Journal by Walt Mason, the famous Kansas poet. His prose-poems are a regular feature of this column 1.1 The Daily Journal.)

The yellow peril came and went, and then, of darker hue, was held up as a bugaboo. When Johnson sent the so far as to say that he will veto any rope, alarmists said: man's hope careening up against the which inhabits the country like the measure that might interfere with or come! Now watch the ebon peril hum." would very respectfully ask Mr. Bower- howled a cheery roundelay, and wors And still I went my joyous way, and my patent duplex grin, until the coppers ran me in. Oh, perils pink and perils green are dished up by each magazine; and yellow journals pant and roar about the perils at our door; muckraking gentlemen produce fresh perils, recking in their juice; no man in all this blooming land can be so poor he can't command. or be so tight he can't afford a peril for his humble board. With perils here and perils there, and perils raging everywhere, one's bosom should be full of fears, one's even should h founts of tears, one's hair should always stand on end, and yet I must confess my friend, that all the world looks good the to me: I'm mashed on everything I see. I whoop and sing my song of cheer un
