I WILL BUY LAND!

Then let us explain why Central British Columbia offers more opportunities to the investor today than any other civilized section of the world. This, the future Greagest Prevince of the Dominion of Canada, is on the eve of a remarkable era of prosperity. In a short two years the great transcontinental railway, the Grand Trunk Pacific, will be operating hundreds of trains across the Dominion, bringing in thousands of settlers from the east, and shipping the results of their labor to all parts of the globe out of Prince Rupert, the coming great seaport on the western coast.

IN THE FORT GEORGE DISTRICT Only 3 miles from the present town and coming great inland city of Fort George, and the G. T. P. Ry., we are offering to sell you land for it per acre cash, that will increase in value so rapidly, on account of the limited area and the unprecedented demand, that will in a short time hence surpass the dreams of the most optimistic.

In the interior of British Columbia is

time hence surpass the dreams of the most optimistic.

In the interior of British Columbia is a vast empire of agricultural land, unique in its facilities and advantages, and endowed with some of the most splendid attributes ever accorded by nature. It is the great farming section of Canada's finest province—an area of land inestimable in value for farming, ranching, fruit growing, and surrounded by hills that are rich in minerals, undermined with coal strata, and drawing an inexhaustible supply of timber from the main line of the Canadian Pacific railway away north to the Arctic Circle. All the great natural wealth of Canada would seem to be concentrated there thardly an industry could be named that would not flourish—and scarcely an essential to the welfare of a populace that is not to be found within easy reach, or manufactured under conditions that are extremely favorable.
