

# NO STRIKE VOTE IN GOTHAM TODAY

## Election Day Occasions Truce in Conflict of Express Drivers and Employers.

(United Press Leased Wire.)  
New York, Nov. 8.—On account of election the proposed vote to call a general strike of the teamsters of New York and vicinity was today postponed to tomorrow. Much lobbying and secret work was in evidence about union headquarters, and the offices of the express companies today. Efforts are being made by merchants and others to bring about a settlement, or even a temporary truce. The business men hope to induce the express companies to recede from their determination to adhere to the open shop proposition.

# HARMON RUNNING

(Continued on Page Two.)  
that he will win, while the Democrats are claiming that Maurice Langborn, his opponent, will prove a surprise when the ballots are counted.

Columbus, Nov. 8.—Approximately 800,000 Ohioans are voting today. Harding must average a gain of 4 1/2 votes for every precinct in the state to win. The Democrats say the election of Harmon is certain. It is believed that only a tremendous landslide could elect Harding. It is declared in order to win Harding must carry Cleveland and Cincinnati, and that the indications so far show that Harmon is increasing the vote he received two years ago. The Roosevelt campaign against Harmon in northern Ohio has not decreased the Democratic vote.

Schenectady, N. Y., Nov. 8.—Indications are that Henry L. Stimson, Republican candidate for governor, carried Schenectady city and county by 600 to 500. Reports from Schoharie county say the county will go Democratic by 500. Reports from Montgomery county indicate that Stimson will carry that county by a small plurality. This indicates a Republican loss in each county.

## Broad Claims at Los Angeles.

(United Press Leased Wire.)  
Los Angeles, Cal., Nov. 8.—Timothy Spellacy, Democratic candidate for lieutenant governor today predicted the election of the entire Democratic state ticket. He said Bell would carry 45 counties, with a fighting chance in all the others. Spellacy will receive the returns in Los Angeles.

## Roosevelt Confident.

(United Press Leased Wire.)  
Oyster Bay, N. Y., Nov. 8.—Theodore Roosevelt, Kermit Roosevelt and employees of the Roosevelt estates at Oyster Bay voted early in the day. Roosevelt took 30 seconds in which to vote. Kermit took longer. Before voting the colonel said: "We intend to proceed with the fight of progressivism and make the Republican party in New York remain the party of Lincoln, whether we win or lose today."

## Working for Panama-Pacific, Also

(United Press Leased Wire.)  
Oakland, Cal., Nov. 8.—The polls opened today with a drizzling rain falling. Voting has been light during the forenoon, but a belated rush is predicted for the closing hours. The Progress and Prosperity committee of the Chamber of Commerce has hundreds of workers out canvassing for the constitutional amendments, particularly those referring to the Panama-Pacific exposition. There is no doubt that Alameda county will roll up a large majority in favor of both amendments, numbers 23 and 22.

## Lively Day at Bellingham.

Bellingham, Wash., Nov. 8.—With the women of the city taking a lively interest in the contest between the wets and dries is claiming the interest of Bellingham today. Rain is falling but this has not stopped the feminine portion of the inhabitants who are anxious for the saloons to be abolished. The bad weather had the effect of holding down the vote up to noon, but this afternoon, when the workmen are released from their places, the balloting will be heavy. Wets and dries, Republicans and Democrats, suffragists and those opposed to the female vote, all are predicting victory. The hottest battle, aside from the wet-dry contest, is over the election of sheriff and prosecuting attorney. Local managers of W. E. Humphrey are confident he will get a good majority over W. W. Black, former whatcom, Skagit and Snohomish counties.

## Seattle Wrapped in Gloom.

Seattle, Nov. 8.—Seattle has never polled so light a percentage of its votes. A drizzling rain is falling and aside from an occasional picarooned automobile there is no sign in the streets that the polling place is open. The atmospheric condition has cast a gloom over the Republican workers, especially in Congressman Humphrey's headquarters, while there is jubilation among the Democrats.

## Wisconsin Democrats Confident.

Milwaukee, Wis., Nov. 8.—Five hours after the polls opened today the Democrats repeated their claim that they would elect A. J. Schmitz governor.

cast today in Illinois would be an unusually heavy one. Reports from all parts of the state showed the weather was perfect. Early voting was brisk.

Des Moines, Iowa, Nov. 8.—Much scratching on ballots is reported in today's early voting. The day dawned with good weather and the roads in fine condition.

Topeka, Kansas, Nov. 8.—Voters showed only ordinary interest in the election today and the early voting was normal. The weather was perfect.

Indianapolis, Ind., Nov. 8.—Fair weather today indicated a heavy vote as interest in the election throughout the state is unusually keen.

Oklahoma City, Okla., Nov. 8.—The weather is fair. A heavy early vote was cast.

## RAIN KEEPS VOTERS FROM POLLS IN IDAHO COUNTRY DISTRICTS

(Special Dispatch to The Journal.)  
Boise, Idaho, Nov. 8.—A steady rain in southern Idaho today is keeping thousands of the country voters at home. Early reports indicate a light vote. Republican leaders admit their chances are materially lessened by weather conditions, as they expected the largest vote in the country precincts. As statewide prohibition is the issue, the Democrats opposing the submission of a constitutional amendment, the loss of country votes and woman vote is favorable to Democratic success. Republicans, however, claim victory for the entire state ticket.

## San Franciscans Vote Early.

(United Press Leased Wire.)  
San Francisco, Nov. 8.—Reports from scattered election precincts throughout the city indicated that at 10 o'clock this morning almost 25 per cent of the city vote had been cast in spite of the fact that a light rain had begun to fall. A still heavier vote was reported in the Hillcrest district, just across the city line. In San Mateo, where thousands of workmen live and where most of them voted before going to work. Reports from other parts of San Mateo county were to the effect that a fair vote had been cast early and that a strong vote would be recorded throughout the county.

Betting commissioners reported no straight Bell money in sight this morning and the 2 to 1 money offered by the Johnson supporters on the result went begging. The Bell adherents were offering even money that Johnson will carry the state by 20,000; even money that Bell carries San Francisco by 6000, and 2 to 1 that he carries the city regardless of figures. The odds on Julius Kean had lengthened to 2 to 1. There was very little betting on other candidates. There was plenty of Johnson money in sight but no takers.

## President Taft at the Polls.

(United Press Leased Wire.)  
Cincinnati, Ohio, Nov. 8.—President Taft arrived here at 10 o'clock today and immediately went to his precinct voting place to cast his ballot. He remained in the booth but a few minutes, apparently not waiting to do any extensive "scratching."

## Working for Panama-Pacific, Also

(United Press Leased Wire.)  
Oakland, Cal., Nov. 8.—The polls opened today with a drizzling rain falling. Voting has been light during the forenoon, but a belated rush is predicted for the closing hours. The Progress and Prosperity committee of the Chamber of Commerce has hundreds of workers out canvassing for the constitutional amendments, particularly those referring to the Panama-Pacific exposition. There is no doubt that Alameda county will roll up a large majority in favor of both amendments, numbers 23 and 22.

## Lively Day at Bellingham.

Bellingham, Wash., Nov. 8.—With the women of the city taking a lively interest in the contest between the wets and dries is claiming the interest of Bellingham today. Rain is falling but this has not stopped the feminine portion of the inhabitants who are anxious for the saloons to be abolished. The bad weather had the effect of holding down the vote up to noon, but this afternoon, when the workmen are released from their places, the balloting will be heavy. Wets and dries, Republicans and Democrats, suffragists and those opposed to the female vote, all are predicting victory. The hottest battle, aside from the wet-dry contest, is over the election of sheriff and prosecuting attorney. Local managers of W. E. Humphrey are confident he will get a good majority over W. W. Black, former whatcom, Skagit and Snohomish counties.

## Seattle Wrapped in Gloom.

Seattle, Nov. 8.—Seattle has never polled so light a percentage of its votes. A drizzling rain is falling and aside from an occasional picarooned automobile there is no sign in the streets that the polling place is open. The atmospheric condition has cast a gloom over the Republican workers, especially in Congressman Humphrey's headquarters, while there is jubilation among the Democrats.

## Wisconsin Democrats Confident.

Milwaukee, Wis., Nov. 8.—Five hours after the polls opened today the Democrats repeated their claim that they would elect A. J. Schmitz governor.

Early voting indicated that the Socialists' claim that they would elect two congressmen would be fulfilled. The early voting was unusually heavy.

Heavy Early Vote at Minneapolis.  
(United Press Leased Wire.)  
Minneapolis, Minn., Nov. 8.—Despite threatening weather the early vote in Minnesota was heavy. Long lines of voters awaited the opening of the polls and the election clerks were kept busy for more than an hour before voting became normal.

Cold at Cleveland; Heavy Vote.  
(United Press Leased Wire.)  
Cleveland, Ohio, Nov. 8.—Over 40 per cent of Cleveland's vote had been cast four hours after the polls opened today, in spite of the fact that it was the coldest day of the year, to date. Watchers at the polls said there was considerable scratching of ballots.

Close Vote in San Joaquin.  
(United Press Leased Wire.)  
Stockton, Cal., Nov. 8.—Heavy early vote was cast here today and the indi-

cations are that San Joaquin, with a registration of 10,778, will pool close to 5500 votes.  
Chairman Kengle claims San Joaquin for Johnson by 800 plurality.  
L. F. Kuhn, Democratic chairman, says Bell will carry the county by 450. There is little Bell money in sight. The weather is cloudy.

Cold at Cleveland; Heavy Vote.  
(United Press Leased Wire.)  
Cleveland, Ohio, Nov. 8.—Over 40 per cent of Cleveland's vote had been cast four hours after the polls opened today, in spite of the fact that it was the coldest day of the year, to date. Watchers at the polls said there was considerable scratching of ballots.

# IDAHO GIVES GOLD AND SILVER MINES

To all who find them in her great, rich mountains. The state stands next to Nevada and Colorado in the distribution of these precious metals. Hundreds of millions of dollars have been garnered from the hidden depositories of this stupendously rich field of treasure.

## WE HAVE A GOLD AND SILVER MINE IN IDAHO

We procured it from the prospector who found it. Twelve persons, stockholders of this company, whose names and addresses we have already published in this newspaper, have personally inspected this property, and have indorsed and recommended it in the strongest possible language. Most of these people are at this time—since they have seen with their own eyes what they are investing in—regular monthly contributors to our treasury, and those who are not doing so NOW, will, at a later time, when they can suitably adjust their finances. These people see in the Swastika Gold and Silver Mine the beginning of a wonderful business—with scarcely a question THE BEST INVESTMENT THEY EVER HAVE KNOWN. Arriving at our mine they found themselves in the midst of a country torn to pieces by upheavals that belched forth from its depths the immense riches impossible to find where such disturbances have not occurred. Here and there, in consequence, the industrious and vigilant prospector, his eye trained to his occupation, found the prospecting rocks that beckoned him to their feet and encouraged him to burrow deep for the gold and silver and lead and copper down below, to reward him for his perseverance and toil. Two of them, working together, climbed the mountain containing the gold and silver of the Swastika claims, and when one "sign" had been discovered there was no more rest for these hardy fellows until, yard by yard, they had curried the ground, set their stakes and recorded their findings. But their means were so limited they could not proceed with development to any appreciable extent, so were forced to sell. It was for this reason alone that we were so fortunate as to secure the property, and we are now selling shares to amass the money to buy a mill and add four or five machine drills to our equipment.

When we bought these claims we determined to not sell a share of stock until we had demonstrated WE HAD A MINE! We set miners at work almost immediately, and before we offered a share of treasury stock for sale had completed 88 feet of tunnels, and in addition a 5 1/2-foot upraise and an 80-foot crosscut, baring gold and silver ore, constituting the most lading of all mines, and assaying \$20, \$40, \$55, \$150, \$175, \$210, \$255, \$315, \$440, to \$487 to the ton.

## WITH \$50 ORE AND A 50-TON MILL WE CAN PAY 200 PER CENT PER ANNUM.

On the stock of this company, but if our ore were to average \$350 to the ton, then our stockholders would receive as much as ONE THOUSAND FIVE HUNDRED PER CENT PER ANNUM. If our ore were to average \$500 to the ton, a 50-ton mill will run the profits up at the rate of 200 per cent for each \$50, so that \$100 ore, for example, would pay 400 per cent, \$150 ore 600 per cent, etc., because the mill will concentrate 10 tons into ONE ton, and we will have freight and smaller charges to pay only ONE ton instead of TEN. Thus concentrated, 10 tons of \$50 ore would become ONE ton of FIVE HUNDRED DOLLAR concentrates, or the same as one ton of \$500 ore. A 50-ton car of this would be worth \$15,000, and 30 tons a day, for the 315 working days of the year would foot up \$4,500,000, or 600 per cent per annum on the entire capitalization of the mine. And we have no idea that it will be necessary to sell more than half, or at most three-quarters of our shares, and that would spell even greater distribution of profits.

## SUCH AN INCOME WOULD MEAN \$600 PER YEAR ON \$100 WORTH OF STOCK.

FACTS ABOUT MINING.  
Mother Earth yields the wealth; we simply use it.  
The profits of the mines exceed the profits of all the banks of the country.  
Mining stocks pay larger dividends than any other line of securities known.  
The mineral resources of the United States show a greater ratio of increase than any other industry.  
The annual dividends of the mines are greater than those paid by all the railroad interests of the country.  
The possible profits upon a small investment in mining is unequalled by any other industry.

The United States Government reports show that the mines of the United States, in one year, produced \$1,925,224,380, which sum exceeded the total combined value of the wheat and cotton produced.  
The United States census for 1906 shows that, for every man engaged, mining pays seven times as much as farming, five times as much as lumbering, and three times as much as manufacturing. It's a spotless occupation, too.

No one is prevented from securing these profits, for it does not require a large investment to make a handsome fortune. A few dollars invested has returned thousands. And it is the cleanest business on earth. There is not a spot upon it.

A fool once started the story that "there is more money put into the ground than is taken out of it," and other fools have been repeating the lie from that day to this. Yet neither ever saw a dollar of coined money, a jewel or a piece of gold or silver plate that was not taken out of somebody's mine.

Robert F. Scott, of Portland, worked fourteen years in the First National Bank—and saved up \$120. He invested this in mining stock and in two years had drawn down \$2200 in dividends, and sold his shares for \$105,000. He is at this very time living in luxury on rents he collects on property bought with the proceeds of that sale.

A young man, who works in the circulation department of the Portland Daily Journal newspaper, quit his job and went to mining in Goldfield, Nevada. In five years he had cleaned up \$2,000,000, and now owns the Webber block in Goldfield. He would have worked over 3500 years to have earned that much money at \$4 per week. He doesn't work at all now.

A lady residing on Park street, Portland, was the wife of a theatrical man in Salt Lake. He had her a stated sum of money weekly for her incidental expenses. She invested about half of it in mining stock, and when her husband discovered this, the took her to task declaring "I did not give you this money to be swindled out of it." "I would have spent it foolishly, very likely, and would have had nothing for it," she explained. The husband soon after died, and all the property he left had left was her shares in some Nevada and Idaho mines. She is now living in luxury from the profits on her investments that, according to her husband, were "swindled." No one need attempt to disparage mines to this woman.

Thousands of similar cases might be cited, wherein men and women, on small investments, have been lifted from want to affluence on small investments in mines, and there will be other thousands, as the years go by. The Swastika will be one, we have not the slightest doubt that will be equally generous with its stockholders. The very fact of its small capitalization and that the indications are not half of that which is sold, therefore will not draw dividends from the mine, would mean an ample assurance that its shareholders will be well taken care of for years to come. And another fact is that its officials are NOT professional miners, but practical men, neighbors and friends, anxious to make a big mine out of this property, and to honestly and fairly distribute its profits to each individual owning a share or ten thousand of them, of its stock, as his interests may appear. With our mine, our limestone ledge at Lakeview, right on the shore of a body of water containing 400 miles of shore line, of itself worth four to five times the cost to this company of ALL its properties; our townsite and hotel and waterworks, there can be no reason that we can see WHY the Swastika will not pay enormous profits to its stockholders.

OUR FREE BOOKLET WILL BE OUT NOVEMBER 11. MAIL US YOUR ADDRESS AND GET A COPY.

# Shares 10c Each Payable in Installments

Swastika Stock is not assessable. Shares cover ALL our properties in Idaho Mine, Lime Ledge, Waterpowers, Townsite and Hotel.

# FREE MERIT AWARDS FREE FOR EFFICIENCY IN NATURE STUDY

GENUINE HAVILAND CHINA DINNER SET 100 Pieces—Exquisite Design. SET OF GENUINE WALLACE SILVER 26 Pieces—Mahogany Chest. HANDSOME LEATHER UPHOLSTERED ROCKER. BEAUTIFUL MAHOGANY CENTER TABLE. HANDSOME LADY'S OR GENTLEMAN'S UMBRELLA. \$150.00 CREDIT CHECK.  
Good on any New Piano or Player-Piano in Our Building.  
And other valuable prizes free, for solving this Puzzle Picture. Don't let anything or condition switch you in your determination to answer this puzzle.  
There are Five Animals and One Bird in this Picture. Can you find three of them?

Directions: Trace the animals and bird on this or a separate sheet of paper and send or mail to us, care Puzzle Department, on or before 6 P. M., November 15, 1910. Be sure to write your name and address plainly on the solution which you send in.  
For the nearest correct solution we will give a Genuine Imported Haviland Dinner Set, 100 pieces, and a credit check for \$100. The second nearest correct solution, we will give a set of Genuine Wallace Silver, 26 Pieces in Mahogany Chest, and a credit check for \$100. For the third nearest correct solution, we will give a Handsome Leather Mahogany Rocker and a credit check for \$100. For the fourth nearest correct solution we will give a Beautiful Mahogany Center Table and a credit check for \$100. For the fifth nearest correct solution we will give a Handsome Lady's or Gentleman's Umbrella and a credit check for \$100. For the sixth nearest correct solution we will give a Credit Check for \$150, good on any new Piano or Player-Piano in our store. For each of the next 50 nearest correct solutions will be given a Credit Check of \$125, good on any new piano or player piano in our store. To all others will be given credit checks ranging from \$125 to \$25, according to merit.

## NO CHARGE OF ANY KIND TO ENTER

WIN A PORTION OF YOUR PIANO PURCHASE MONEY  
We want everyone interested in pianos or player-pianos to enter this contest. Remember, only one answer allowed from any one family. No winner of first prizes in any of our former contests will be allowed to enter our present one. No employees of the Bush & Lane Piano Company or any member of their families will be permitted to enter this contest. In the event that the judges find two or more answers of equal merit, duplicate of the Prize offered will be given to each. The decision of the judges will be absolute, final.  
You have the same opportunity as anyone else to win. Be sure and enter. Yours may be the answer that will secure one of the large prizes. There is no catch, everyone has an equal opportunity. You know the Bush & Lane way of doing things, of doing everything just as it is advertised to be done, therefore you can rest assured that by entering this Puzzle Contest if yours is the nearest correct solution you will be the one to win the first prize. All answers must be mailed on or before November 15, 1910, 6:00 P. M.

THIS CONTEST POSITIVELY CLOSURE AT 6 P. M., NOVEMBER 15, 1910.  
All contestants sending in correct solutions to this puzzle will receive a substantial Credit Check, good on any new Piano or Player-Piano in our building and a piece of Sheet Music free.

WINNERS WILL BE NOTIFIED BY MAIL.  
Solutions accepted from people living in Oregon and Washington. Send your solution and name and address, written plainly, to:
