

NEW "WET" TOWNS "WET" AT ONCE

Attorney General Holds Towns Voted "Wet" May License Salons Immediately.

(Salem Bureau of The Journal.)
Salem, Or., Nov. 17.—Attorney General Crawford has held in an opinion written yesterday that the city councils of towns that have voted "wet" in counties that went "dry" under the local option law at the election last week can license saloons by ordinance without another vote being taken on the matter. This is true, says the attorney general for the reason that the new home rule amendment to the constitution will go into effect as soon as the returns of the election are canvassed and the governor's proclamation has been issued, while counties that have voted "dry" will not be "dry" until January 1.

The law provides that the county courts shall make an order that no liquor be sold in a county where the official returns show that the people have so voted. This order cannot go into effect until January 1. For instance, in Willows county, the county court will order that no liquor be sold in that county on or after January 1. The governor will issue a proclamation, probably, before that time declaring that the home rule bill has been enacted into law by the people. It will go into effect at once, allowing the city of Joseph, in Willows county, through its city council, to license saloons despite the vote making the county "dry."

Also, the attorney general holds that it will be the duty of the county courts to redistrict the cities where election districts include part of the county and part of the incorporated city so that on matters of local option the cities will vote in the general elections independent of the voters who may be in the same election precincts as city voters

TWO CONVICTS ESCAPE FROM CARROLLTON CAMP

(Special Dispatch to The Journal.)
Kalamazoo, Wash., Nov. 17.—Two convicts working on the rockpile at the Carrollton convict camp, four miles north of this city, escaped by climbing over the 14 foot wall. Sheriff Carbine received word of their escape at 9 p. m. yesterday, and with Deputy Sheriff Close began a search for them. They were not captured. The state "blood-hounds" will be put on their trail. Both were serving a term for burglary and were brought to Carrollton from the Walla Walla penitentiary. They are said to be armed.

HOW CHRONIC COUGHS

Are Being Cured by Vinol—An Account of One Case.

New Haven, Conn.—"I was troubled with a most persistent chronic cough for a long time and had tried so many remedies and prescriptions without benefit that I was discouraged. I was persuaded by my friends to try Vinol. I must say that I had little confidence, but I made up my mind to give it a fair trial. Before I finished my first bottle of Vinol I commenced to notice an improvement in my general condition. After taking the second bottle, my cough left me, and I must say I never felt better in my life—all due to the use of Vinol. I can also recommend Vinol to anyone in a run-down condition as the best possible remedy." (Name furnished on request.)

It is the combined action of the medicinal elements of the cods' livers, aided by the blood-making and strength-giving properties of tonic iron which makes Vinol so efficient in curing chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system. Vinol contains no oil and tastes good.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

SISTER OF JAS. SUTTON ON WITNESS STAND

(Special Dispatch to The Journal.)
Wenatchee, Wash., Nov. 17.—Miss Nettie Sutton, sister of James Sutton, who was shot by Mrs. Della Totten last August, was the first witness called by the state when the jury to try the case had been completed this afternoon.

She told a straightforward story of the shooting that was not shaken by a rigid cross-examination. She said that Mrs. Totten had warned her brother to let the fence along several times before she fired the shot that killed him. She also said that her brother was threatened by Mrs. Bieba, who had an ax in her hand.

The state will put over 20 witnesses on the stand and the case will not be completed for several days.

Plants One Crop; Raises Many.
(Special Dispatch to The Journal.)
White Salmon, Wash., Nov. 17.—J. W. Overbaugh has fully demonstrated the high quality of White Salmon soil for potato growing. Five years ago the old gentleman planted a patch and without replanting since that time he has been able to fill his bins, and still besides. A new crop always comes up from potatoes left in the ground, the ground not freezing hard enough under the snow to kill the germ.
