Tokay grapes from the Jacksonville, Or., district, are today offering in the Front street market. The fruit has been in a local storage plant for some weeks and its appearance today is fully as good, as the best fresh offerings from California during the flush of the season. The grape market in general is rather firm and for the Jacksonville stock the price is firm at \$1.50 per crate. California grapes are in fair supply and the best of these are quoted locally at \$1.35 a crate.

Dressed Ment Weaker.

Sales of dressed hogs were made as high as 12% a pound along Front street during the past 24 hours, few transactions were above 12c and even this figure was obtainable only for very light stock of quality. Dressed veal are likewise weak

New Creamery Established.

The Fones Creamery company is the same of a new butter plant in this city with headquarters on Second street. Officials are: President, C. B. Fones; vice president, H. N. Olson; secretary-treasurer, W. A. Hemleben.

Wild Ducks Arriving. Wild ducks are arriving in the local market. Sales are generally around \$2.50 a dozen for teal, \$5 for mailard and \$3.50 for widgeon, Wild geese sell around \$6 for best.

Eight Cars of Bananas Here. Eight cars of bananas arrived in this morning from New Orleans in good con-dition. The supply for the Thanksgiv-ing trade will therefore be ample.

### TARIFF TINKERING SCARING SHEEP MEN

Pendleton, Or., Nov. 17.—According to Dr. S. W. McClure, chief of the federal bureau of animal industry in the north-west, whose headquarters are in this city, the unsettled condition of the tariff is making this the greatest sheep-shipping year the country has ever seen. A million more sheep have been shipped out of Montana this season than during any previous one and about the same increase in number is rethe same increase in number is re-corded in Wyoming, according to Dr. McClure.

McClure.

These are two of the principal sheep states of the union and the fact that the growers of these states are going out of business entirely or cutting down the size of their flocks is proof, he says, that the dissatisfaction with the present condition of the wool and sheep industry is not confined to Oregon, Washington and the other far western states.

states.
Dr. McClure predicts that the infustry will not be placed on a stable basis again until the tariff question is definitely settled one way or the other.

Prominent Wholesaler Says There Will Be Enough Oysters to Go Around Despite the General Shortage.

there will be any further advance in the general market.

Prices of oysters is already at such a high point that consumption has been cut in half, and therefore the small visible supply will be sufficient to take care of the trade. It is usually the rule at holiday time for the oyster market to be forced higher, but this will not be the case this year.

"All present indications point to liberal supplies of shell fish for Thanksgiving week," says E. J. B. Malarkey, a local wholesaler. "So far as we know at present there will be plenty of all and no advance in price is likely."

While considerable strength is shown locally in the hallbut market, owing to the very small offerings from the north, there has been no advance in the price.
