

THREE CITIES ARE AFTER ASYLUM

Baker City, Pendleton, Union Send Delegations to Pull for New Institution.

The state board is now confronting the problem of selecting a site for the branch insane asylum to be located in eastern Oregon. Delegations from Baker City, Pendleton and Union have been in the city for the past several days, negotiating with the members of the state board, which is to make the selection.

same argument, and adds that it is more nearly in the center of the eastern Oregon district. Union contends that it is still more centrally located, is in the heart of the Grand Ronde valley, and has every advantage of location and climate that could be desired.

After conference with the state board the members of the latter decided they would make a trip to the cities and investigate conditions for themselves. It is probable that Governor Benson will be represented by Senator Bowerman on this trip.

PANAMA SAFE LONG AS IT STAYS GOOD

(United Press Leased Wire.) Colon, Nov. 17.—A message signed "The Men," received by President Taft and telling of the work on the Gatun locks, caused the president to wear an expansive smile for fully three minutes as he glanced over his morning's telegrams. It read: "Four thousand, four hundred and forty cubic yards of concrete laid Gatun locks, and 441 in Gatun spillway, laid yesterday for fully three minutes. This is a record for any single day since the canal was begun."

President Taft scanned the message, read it, and then showed it into an inside pocket. Apparently it pleased him more than his hundred other telegrams received from other sources. At a dinner given in his honor last night by President Roosevelt and attended by 200 officials, diplomats and merchants, Mr. Taft around the greatest enthusiasm when he declared that the American people would feel utterly dishonored in annexing Panama unless some conduct on the part of the Panama people left no other course.

This contingency Mr. Taft was sure would never arise. The presidential party will sail tonight on the cruiser Tennessee for Guantanamo, Cuba, where a brief stop will be made.

60-SECRET SERVICE MEN WATCH MADERO

(United Press Leased Wire.) San Antonio, Texas, Nov. 17.—Francisco Madero, leader of the anti-Diaz faction in Mexico and said to be one of the boldest revolutionists in history, is being watched here by 60 secret service agents, it was learned today. Madero, who has been on the northern side of the border since his plot to start a revolution in Mexico was discovered, it is thought to be ready to start a second uprising and to be taking advantage of the recent trouble between Mexico and the United States to cover up his movements.

The secret service men are said to have found evidence of his plotting in 13 Mexican states, and to have warned the Mexican government in time to have the plans frustrated.

Death of Mrs. Leibold. Forest Grove, Or., Nov. 17.—Mrs. Carl Leibold, a native of Washington county, aged about 27 years, died in Portland Tuesday evening, the remains being brought to this city yesterday for burial in the Union cemetery beside the grave of her mother, who died some years ago. Mrs. Leibold was the daughter of E. B. Sappington, treasurer of this city, and spent her childhood in Forest Grove, where she was well known and greatly esteemed. She was married to Carl Leibold four years ago, and besides her husband is survived by a small daughter.

Whitman Bars the Greek Staff. (United Press Leased Wire.) Walla Walla, Wash., Nov. 17.—Greek letter societies, whether affiliated with national societies or otherwise, will be barred this year at Whitman college. This is the decision of the faculty board made public today. It is not unlikely that the students will ignore the order and set on with the organization of chapters in open defiance of the faculty.

In the last quarter century the number of central stations for the production of electricity in the United States has grown from less than 50 to more than 5000.
