

COMMITTEE FROM U. OF O. IN REPORT SAYS BEAN WAS HIT

A. C. Committee Has Not Yet Made Investigation—Name Confused With Another Student Named Bean.

(Special Dispatch to The Journal.) University of Oregon, Eugene, Or., Nov. 21.—Owing to the newspaper publicity which has been given to the incidents following the Oregon-O. A. C. football game at Corvallis, a committee was early last week appointed by the university faculty to make a full and fair investigation and report its findings back to the faculty.

Dish Cloths

Cheese cloth, unbleached cotton and heavy linen crash make most satisfactory dish cloths. One trouble with dish cloths is that they are hard to keep sweet, but they can easily be kept in good condition by washing occasionally in lukewarm water to which has been added a tablespoonful of Gold Dust washing powder; then scald, rinse and hang in the sunshine and fresh air to dry.

Where kitchen utensils become burnt or very "sticky," pot rings are easiest to use.

students and those who might have knowledge of the incidents following the game. It will not report back to the faculty until it shall have had an opportunity of consulting with a committee appointed for the same purpose by the faculty of the Agricultural college, which is awaiting the return of President Kerr from the east before going into conference with the university committee.

Was Immediate Statement.

The committee feels that an immediate statement is due as a matter of justice to Harold Bean of Portland, a junior in the university, whose integrity and physical stamina have been called into question by numerous reports which have been printed in the newspapers of the state.

Bean's Statement.

In vindication of Mr. Bean, his own personal statement to the committee and the corroborative testimony bearing on the case are given out as follows: Mr. Bean testified that he had not participated in any of the rushing, but some women being in the path of one of the rushes, he stepped in front of them to protect them. It was then that he was struck. He saw the fist coming. At the time he was standing near the railroad track. Asked if he told the chief of police that he was not struck, he said "no."

Was Another Bean.

Other testimony taken by the committee shows that at the time, Harold Bean was confused in the minds of many people with Hawley Bean, another university student, who was also present. Hawley Bean informed the committee that so many people, both Oregon students and Corvallis people, came up and asked him if he had been hit that the matter became a joke. He told them he had not been hit.

Two university students, John Kelly and Dan Mitchell, testified that they were near Mr. Bean at the time of the occurrence and saw him struck.

Portland Holds October Record for Foodstuffs

First in Exports, Compared With Other Coast Ports—Third in Nation—General Decrease in Exports.

By John E. Lathrop. Washington, Nov. 21.—Portland led the entire Pacific coast in quantity and total value of breadstuffs exported during October, 1930, according to the official figures of the department of commerce and labor, bureau of statistics. It also took third place among all ports of the United States, only New York and Baltimore exceeding it.

Keer to Return November 25.

President Kerr of O. A. C. is expected home from the east about November 25, when the joint meeting will be held. In the meantime the Oregon committee withholds its evidence with the exception of the above, which was given out for the justification of Mr. Bean, who has been accused by O. A. C. reporters, in the public press, of everything from absolute falsehood to feigned illness or fainting from excitement.

PORTLAND HOLDS OCTOBER RECORD FOR FOODSTUFFS

First in Exports, Compared With Other Coast Ports—Third in Nation—General Decrease in Exports.

By John E. Lathrop. Washington, Nov. 21.—Portland led the entire Pacific coast in quantity and total value of breadstuffs exported during October, 1930, according to the official figures of the department of commerce and labor, bureau of statistics. It also took third place among all ports of the United States, only New York and Baltimore exceeding it.

Foodstuff Exports Decrease.

But the most significant feature of the report is that for the whole country exports of foodstuffs during October, 1930, decreased over the same month of last year, from \$18,479,894 to \$10,559,293. Still further interest will be felt in the statement that for the 10 months ending October 31 exports of foodstuffs have steadily de-

creased for the whole country, as follows: For 1929, \$18,479,894; for 1928, \$20,111,249; for 1927, \$24,647,712. Decrease likewise is shown in other exports of agricultural products: Meat and dairy products, 1929, \$124,960,788; 1928, \$115,344,933; 1927, \$99,327,800; Cattle, hogs and sheep, 1929, \$20,248,339; 1928, \$15,932,511; 1927, \$5,444,870.

The total exports of breadstuffs, meat and dairy products, cattle, hogs and sheep, cotton and mineral oils decreased in the past three years during the 10 months ending October 31, as follows: For 1929, \$702,912,833; for 1928, \$636,313,493; for 1927, \$584,970,333.

Belief Through Better Methods.

But that there will be eventually some relief, thus bringing larger per acre production, is evident. The question however, is whether this improvement of methods will ever catch up with increased demands that are now decreasing exports and keeping up prices. There is good reason to believe that it will not; and that this country is face to face with the permanent condition of high cost of living—when expressed in existing standards of wages and money—one of the truths that will have to be accepted.
