

ESTABLISHED GUILTY, WHETHER "WHITE SLAVE" TRIAL ON

Federal Jury Convicts Man of Betraying His Wife and Her Cousin After Single Ballot; Nathan Case Heard.

David Westman, debaucher of his wife and her young cousin, Carrie, was critically ill at local hospital yesterday found guilty on two of the counts in the indictment charging him with having violated "the white slave traffic act." The jury found it necessary to cast only one ballot, and the vote was unanimous. Westman will be sentenced by United States District Judge C. E. Wolverton tomorrow afternoon. The maximum punishment that may be imposed upon the degenerate husband is 30 years at hard labor in the federal prison at McNeil's island. Immediately after the Westman case had been finished the government began the prosecution of 18 charges against Al Nathan, an Astoria bartender. Nathan was indicted for the alleged importation of Hazel Morrison from Victoria, B. C., last April, into this country for immoral purposes.

The government expects to find it a difficult task to convict Nathan, as the Morrison girl is an unwilling witness. She told the prosecuting officials before the trial began that she would do all she could to acquit her lover. Yesterday afternoon in the courtroom she continually sought to catch Nathan's eye, smiling and winking at him repeatedly.

In his opening statement to the jury Assistant United States District Attorney W. H. Evans, said that the government expected to show that Hazel Morrison had been living with Nathan in Astoria previous to April 1 this year; that she went home in March and that Nathan visited her there, telling her mother that he wished to marry the girl.

"We will show," declared the assistant prosecutor, "that Nathan did not marry the girl, that he brought her down on a boat from Victoria to Seattle and from that city to Astoria, where they lived together."

The charge against Nathan is not brought under the "white slave traffic act," but under the immigration laws forbidding the importation of alien women. Fern Fulton, state senator of W. Fulton is defending Nathan. He said yesterday to the jury that he would prove that Nathan intended to marry the woman, but that he was already married and had to wait for a divorce. Counsel told the jury that Nathan had been invited to visit Miss Morrison by the girl herself, and that he went to Victoria at her solicitation.

Hazel Morrison is the youngest child of one of the well known families in the Canadian city. Her two sisters are very popular in the world of Victoria. Hazel is said to be of naturally wayward inclinations, preferring a life of "excitement" to the less spectacular joys of home.

LOON LAKE TO BE MADE RESORT
Inland Empire Business Men to Establish Summer Homes in Beautiful Section.

NEW TELEPHONE CO. FOR EASTERN OREGON

(Special Dispatch to The Journal.)
Spokane, Wash., Nov. 24.—The Loon Lake Outing club, made up of men prominent in business circles of Spokane and the Inland Empire, composed of 150,000 square miles, has consummated a deal for the purchase of 76 acres of land for summer home sites, golf links, tennis courts and other features, on the shores of Loon lake, north-east of Spokane. An option has also been secured on an additional 15 acres, where the new organization contemplates the erection of a splendid club house. An expenditure of \$20,000 is involved in the purchase of the 76 acres of ground and when the option on the remaining 15 acres is taken up an additional outlay of \$20,000 will be entailed. Lots, having a frontage of 75 feet on the lake and a depth of 125 feet are to be deeded to shareholders in the company. About 40 acres of the land will be reserved for future development as a big field for summer sports of all kinds. Spring water is to be piped under pressure to each of the building lots.

The incorporators are J. E. Jennings of Salt Lake City, M. G. Hope, Harry Abrant and T. W. Halliday of Vale. Work has already started on rewiring the town, putting new cables and poles. On January 1 when the system has been overhauled an increase of rates will be asked. The company also intends to build a modern fire proof telephone building in this city.

Three Trains Daily
New Great Northern train service Portland to Puget sound and Vancouver. B. C. Leave Hoyt street station, Elveworth and Hoyt streets, 10 a. m., 5 p. m. and 11:30 p. m. Tickets, sleeping and parlor car reservations, city ticket office, 122 1/2 Third street, and at depot.

An observatory to be devoted to meridian measurements of fundamental stars is to be built in Argentina by the Carnegie Institution.

WATER BOARDS BIG MONEY MAKER

Report of the Superintendent Shows Profits for Six Months.

(Special Dispatch to The Journal.)
Salem, Or., Nov. 24.—Amazing as it may appear, it is nevertheless true, that one department of the state government, not essentially a revenue department, has received fees in six months in greater amount than the entire appropriation for the two years of 1909 and 1910 provided by the last legislature. That department is the board of water control. The state engineer's office has also received fees independent of the water board during the past year which are nearly \$1300 in excess of the expense of the office for the year.

Yesterday Water Superintendent F. M. Saxton of water division No. 2, which is comprised of all that part of the state east of the Cascade range, turned over to the state treasury \$15,224.48, which are the fees received in connection with adjudication of water rights in his district alone for the six months ending November 16. The entire appropriation for the work of the water board including the maintenance of an office and secretary at Salem was \$10,000.

The fees for the six months ending April 13, 1910, were but \$955.35 for the reason that few adjudications can be made during the winter months. The fees during the first six months' existence of the board ending November 17, 1909, were \$2,958.18 for the reason that the work of the board the first summer was more toward effecting an organization and the development of plans for work more than for any actual results accomplished. These are the fees for the eastern district alone. Superintendent Holgate of the first division or the western division has not yet submitted his report.

The total then for the eastern division alone is \$14,219.13. The new water code not only has made the water board more than self-supporting, but has made the state engineer's office self-supporting as well. For the first three-quarters of the year 1910 the fees received by State Engineer Lewis were \$11,417 or \$1217 more than the appropriation for the maintenance of the office for the entire year. Besides paying office expenses the state engineer has in addition located 2445 miles of main canals which serve to irrigate 110,096 acres scattered over 14 townships at a cost of 7.7 cents an acre. These surveys were made as a basis for the adjudication of water rights by the board of water control during the past two seasons.

LUMBERMAN EXCITES INTEREST AT COOS

(Special Dispatch to The Journal.)
Marshfield, Or., Nov. 24.—That he believed the largest city in Oregon would some day be located on Coos Bay, was the statement of C. A. Smith, the lumborman, who was given the honor of a booster banquet given by the business men at the Chandler hotel. Mr. Smith has large interests here and urged the improvement of the harbor. There were a number of speeches and the result of the meeting was the formation of a new Chamber of Commerce for the next year. Members were enrolled and subscriptions will be taken and the development work for Coos Bay carried on more vigorously than ever before.

Don't Suffer With Piles

Send For Free Trial and Know How to Quickly Cure Yourself.

There are thousands of men and women actually wearing pile trusses when all they need to do is to step into any drug store and ask for a 50c package of Pyramid Pile Cure.

And all pain will then cease, the protrusions will disappear and the cure will be quick and permanent.

Don't befooled by assuming you must be operated on for a cure. And to test the merit of this really wonderful pile cure, send your name and address to the Pyramid Bldg., Marshall, Mich., and they will send you by mail in plain wrapper, a convincing free trial package that will forever put you at ease as to what you need for piles.

You can then step into the nearest drug store, get the regular 50c package, and the cure will be quick, complete and permanent. It acts like a charm.

Nine women in ten have piles and they often let the trouble grow until it is a racking torture. But never mind how severe the case, Pyramid Pile Cure will at once take out the inflammation, reduce the swollen protrusions, stop bleeding, prevent the soreness that often makes an operation imperative.

Do not fail to get the free trial and always keep in mind that you can step into any drug store and get the 50c package quickly, just when you need it most. Be sure and get what you ask for. The quick relief will astonish you—the cure is certain.

SILVER LAKE LAND OPEN FOR ENTRY

Rich District Offers Many Advantages; Under Irrigation Project.

(Special Dispatch to The Journal.)
Lakeview, Or., Nov. 24.—The lands in the Silver Lake irrigation project that were withdrawn from all forms of entry some years ago are to be thrown open to entry and settlement next week. These lands comprise some that are especially adapted to agriculture as the soil is very deep, fertile and productive when properly handled. Good water is to be had at depths of from 10 to 24 feet and there is an abundance of fuel and fencing material within a short distance from a portion of the lands through open.

The survey of the Oregon Eastern will run within 20 miles of the tracts and there is a town of 500 people, schools, stores, etc., within six miles of some of the land. One thing that makes it attractive is the fact that there are thousands of geese on the lake and marsh close to the agricultural land every day in the year, while ducks abound. Good fishing is at hand and with a delightful climate there is an opening for the man that desires a

SILVERTON COP IS EXONERATED

Many Charges Dismissed and New Officer Discharged— Councilmen May Resign.

(Special Dispatch to The Journal.)
Silverton, Or., Nov. 24.—Resolving itself into a court of justice the city council, at a special meeting held Tuesday evening proceeded to try out the charges preferred against the city marshal, A. G. McMillen, by Undertaker W. S. Jack, et al. Mayor Fishburn was the acting judge of the court and the six councilmen served as jurors.

McMillen was accused of assaulting the undertaker, of giving tax receipts to persons without having received compensation, of appropriating tax money for his own use and of selling liquor to one S. T. McMannus. The debate is said to have been warm. Three of the councilmen, E. E. Adams, J. F. Fishwood and J. E. Conrad, voted to suspend the officer, and Messrs. L. Ames, George W. Hubbs and L. H. Fischer voted to retain him. Mayor Fishburn cast the deciding vote in favor of the marshal and the charges were dismissed.

John Quall, who was elected marshal at a recent meeting to succeed McMillen,

BEGIN WORK ON NEW VALE WATER SYSTEM

Two Inches of Snow in Josephine.

(Special Dispatch to The Journal.)
Grants Pass, Or., Nov. 24.—Ground covered with snow to the depth of two inches this morning. It is melting slowly. Heavy rain has fallen the past three days. The Rogue and Applegate rivers are high for this season.

(Special Dispatch to The Journal.)
Salem, Or., Nov. 24.—The American Light & Water company of Salt Lake City and Kansas City, has started work on the 12 miles of gravity flow line from Vale to the Willow Springs, which when completed will supply the already completed network of pipes within the city limits. Superintendent Dutch states that water will be flowing in the mains on January 1.

The new water and sewer systems will mean an expenditure of \$102,000.

Easy to Stop Stomach Distress and Food Fermentation

Mi-o-na Gently Coaxes the Gas- tric Juices to Do Their Duty.

Belching of gas and sour food into the mouth means that the food in your stomach is fermenting and forming poisonous gases. It means more; it means that your stomach is bad; that it is not pouring into and mixing with the food the gastric juices which are necessary to properly digest food.

If this condition is allowed to continue the stomach will become flabby and weak and the blood will become watery or impoverished. You only have one stomach to take care of; it will be with you as long as you live.

Treat it as well as you can and when it fails to do its work and causes dis-

tract, give it the best remedy for stomach ailments known to science. Give it MI-O-NA stomach tablets, the remedy that is guaranteed to cure any stomach trouble, or money back. There is nothing on earth that will turn a tired, flabby, overworked stomach into a strong, vigorous one in so short a time as MI-O-NA. For distress after eating, fermentation, heaviness, heartburn or gas, two MI-O-NA tablets will chase away the misery in five minutes. MI-O-NA surely does cure indigestion, and all diseases caused by out of order stomach such as nervousness, dizziness, headache, biliousness, foul breath and constipation. The price is only 50 cents a large box at Woodward, Clarke & Co. and druggists everywhere. Mail orders filled, charges prepaid, by Booth's MI-O-NA, Buffalo, N. Y., who will gladly send free trial treatment on request.
