ARMY OFFICER OF ROYAL FAMILY IN MACHINIST ROLE

Lieutenant Manuel Gonzales, Whose Father Once President of Mexico, Dons Overalls; Would Return to Fight.

DECLARES HE IS ALWAYS AT PRESIDENT DIAZ' CALL

Globe Trotter and Linguist at Present Works in Local Repair Shop.

Lieutenant Manuel Gonzales of the Mexican army, descendant of Castilian grandees of royal lineage and son of Manuel Gonzales, a former president of Mexico, who was assassinated in 1885, is working as a machinist in a North Portland automobile repair shop.

Although he has been an exile from his native land for 14 years, his heart throbs with loyalty to the flag of his republic. He declares that his services are and always have been at the disposal of his government and that dispatches from San Jose, Cal., in which he is quoted as saying that he has been recruiting men for the rebel army are untrue.

"I am the only Lieutenant Manuel Gonzales in the Mexican army," said the officer yesterday. "So it is quite apparent that the telegraphic dispatch to the effect that I was in San Jose yesterday cannot be true. I have been in Portland for the past three weeks. I am rooming at the Y. M. C. A. I came here from Rochester, N. Y., where I worked for a number of years with the Curtis automobile company.

AMERICAN CONSUL EDWARDS REPORTS REBELS SUBSIDING

All Quiet About Juarez and Excitement Apparently Dying Out Everywhere; Ambassador Says Same of Capital.

(United Press Leased Wire.)

Washington, Nov. 25.—United States Consul Edwards at Juarez, Mexico, telegraphed the state department today that all was quiet in his section, and that apparently the excitement everywhere in Mexico was decreasing. Edwards said that trains in northern Chihuahua were running on schedule time, and that few Americans were leaving the country. According to Consul Edwards, the reports of fighting at Torreon, Gomez Palacio, Parral, Durango and Zacatecas were exaggerated, and conditions in those towns have become almost normal.

A dispatch was received from Ambassador Wilson at Mexico City, advising that the Mexican capital was calm.

(United Press Leased Wire.)

Carrico Springs, Texas, Nov. 25.—Word reached here today that a band of Mexican revolutionists, escorting General Madero, who is wounded, had crossed the border yesterday 10 miles from here, into Texas, leaving their wounded leader at a ranch on the American side.

Messengers are now hastening to Eagle Pass to summon medical assistance, according to the report.

REPUTABLE CITIZENS SUSPECTED, RELEASED; MADERO MAY BE SAFE

(United Press Leased Wire.)

El Paso, Texas, Nov. 25.—Octaviano Perea of Lincoln, N. M., interpreter for the New Mexican territorial legislature, was arrested today as a revolutionary suspect and for several hours was held a prisoner. He was released when his identity became known.

Efforts to confirm the report that Francisco Madero, leader of the revolutionists, was wounded in a battle at Guerrero, have failed and it is generally believed that the report was erroneous.

TROOP OF CAVALRY ORDERED TO WATCH ARIZONA BORDER

(United Press Leased Wire.)

Huachuca, Ariz., Nov. 25.—One troop of the eighth United States cavalry stationed at Fort Huachuca, was ordered today to patrol the Mexican boundary near Douglas and Elmore, Arizona, and to prevent the crossing into Mexico of armed men.

The order followed the receipt of news by General Torres, commander of the military forces in Sonora, that armed men were mobilizing in Arizona for the purpose of entering Mexico.

Mrs. Pankhurst, Suffragette

Mrs. Emmeline Pankhurst, the militant suffragette, in the hands of English officers a prisoner of war. Mrs. Pankhurst recently led an army of 1000 suffragettes against the police forces surrounding the House of Commons in an attempt to pass them and reach Premier Asquith to insist upon the introduction of a woman's suffrage bill. Although the scrimmage was a lively one, the police were too strong for them.

12 STORY BLOCK WILL BE ERECTED

Syndicate Will Build Structure at Fourth and Washington Streets.

(United Press Leased Wire.)

Plans for a twelve story reinforced concrete building to be constructed on the northeast corner of Fourth and Washington streets, were filed in the City Building Inspector's office this morning. The structure will be known as the "Syndicate" building. It will cost in the neighborhood of \$300,000.

An association of local business men called the Associated Business Property Owners, has made application for the building permit. The plans were drawn by Architect J. A. Ingram. The building will be 52x100 feet in ground floor dimensions.

JOHN BIGELOW STILL ACTIVE, THOUGH 93

New York, Nov. 25.—Receiving congratulations from distinguished friends throughout America, and also from abroad, John Bigelow, who is frequently spoken of as "the first gentleman of New York," today observed his ninety-third birthday, surrounded by the members of his family, giving up a part of the day also to a general public reception. Mr. Bigelow began his public career in the forties. During the civil war he was United States minister to France. For many years now he has taken no part in public life, but has done much literary work. In spite of his advanced years he is still in good health and does more or less work every day.

CONNECTICUT BOY FOOTBALL VICTIM

Harry Lee, 17 Years of Age, Said to Be Season's Twenty-fourth Victim.

Winsted, Conn., Nov. 25.—A fracture of the skull, received during the Thanksgiving football game between the Tarnay Cadets and the Gilbert Preparatory school resulted today in the death of Harry Lee, 17 years of age, a member of the cadet team. Lee did not regain consciousness after being struck. His death is the twenty-fourth from football this year.

O. R. & N. TO LOSE IDENTITY THROUGH MERGER OF ROADS

Like North Coast Road, Will Be Known as Part of Oregon-Washington Railroad & Navigation Company.

JUDGE LOVETT TO BE PRESIDENT OF LATTER

His Name Gradually Replacing That of E. H. Harriman.

Because of the fact that Robert S. Lovett is president of all the Harriman railroads, it naturally follows that he will occupy the same position with the Oregon-Washington Railroad and Navigation company, which has been merged with the Harriman system.

As a result of the merging of the North Coast with the O. R. & N. into the company mentioned above, both the O. R. & N. and the North Coast will to a great extent lose their individual distinction, either of them being only a part of the Oregon-Washington Railroad and Navigation company.

Incidentally it is learned from various reliable sources that gradually the name of Lovett is replacing that of Harriman and that before very long the big trunk and its myriad of subsidiaries will be identified as the Lovett system.

The Harriman estate still holds large interests in the system, but the fact that Judge Lovett is the controlling spirit has started the movement to gradually work in the name of Lovett in place of that of Harriman. The Lovett idea has spread to Portland and other places on the coast, so that when employees have occasion to, they invariably speak of the Lovett system instead of the Harriman system.

"We do this to show our respect for our chief," said one of the men concerned.

CRASHING WALL NEARLY CATCHES MEN AT WORK

Without Warning East Side of Garage and Part of Roof Jarred Loose, Carrying Autos and Machinery.

(United Press Leased Wire.)

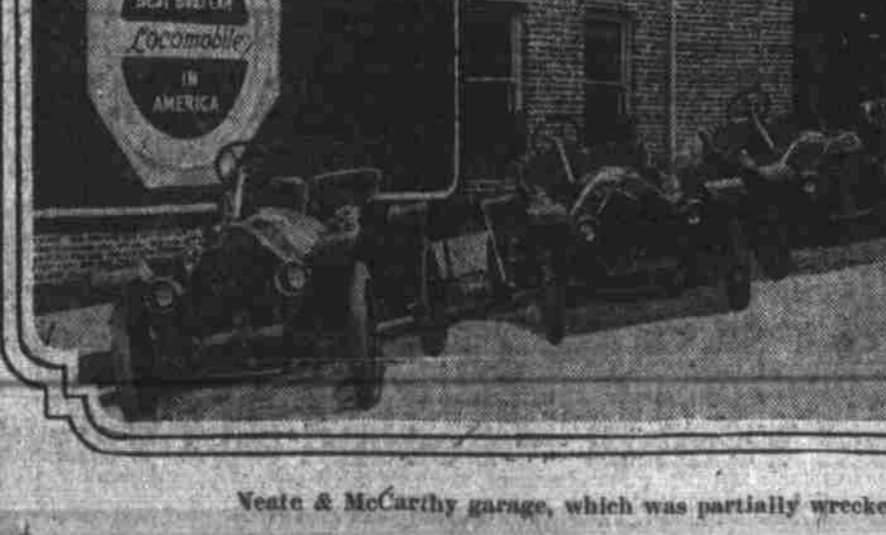

London, Nov. 25.—The correspondent of the Exchange Telegraph at Rio Janeiro cabled today that the mutineers on board the Brazilian battleships at Rio had surrendered unconditionally.

Rio Janeiro, Nov. 25.—Under assurances that they were not to be punished as mutineers, the sailors on board the four Brazilian warships in Rio Janeiro harbor surrendered today to the government authorities and the guns, which for four days had been trained on Rio Janeiro, were returned to their positions.

The surrender followed a visit of a government representative to the different vessels. Under a cover of a flag of truce this official advised the sailors of the amnesty granted by the chamber of deputies and the senate.

The amnesty was granted at an extraordinary session. During the session the guns of the belligerent battleships were trained on the government buildings.

The vessels seized by the mutineers were the battleships Minas Geraes, Sao Paulo, the protected cruiser De Odora and the scout ship Bahia.

Veate & McCarthy garage, which was partially wrecked this morning.

SLAYS WIFE; SHOTS HIMSELF

Upper picture shows Mrs. William Hassing, who was murdered by her husband. Baby Jans is holding a telephone receiver to his ear. The lower picture is that of the murderer, William Hassing.

JEALOUS HUSBAND LAY IN AMBUSH ON STREET OF CITY

William Hassing Released in Police Court Two Weeks Before, After Threatening to Kill Wife; He Will Recover.

"William Hassing appeared before me in the municipal court October 19," said Judge Taswell this morning. "He was charged with having threatened to kill Mrs. Hassing. I bound him over to the circuit court under \$500 bail. It seems that he had a day or two before his arrest obtained employment in the engine room of the Cornwell hotel.

The chief engineer came down to see me, interceding for Hassing. He said 'he was an excellent, well behaving man and that he needed him in the engine room. Hassing declared that he wanted to get to work again to support his wife. On his fervid promises that he would keep the peace, I called up the district attorney's office and asked Deputy Hennessy what he thought about it. Hennessy thought it would be all right to release the man under those circumstances.

"That's how he came to be let out."

"I believe I shall summon Hassing's brother into court and go into the matter of his criticism. I desire to have the whole matter fully cleared up."

"I hope Hassing lives, that he may receive punishment. He didn't love my sister. He didn't love little Jans. He only wanted her life and he planned in cold blood to take it. He had a good mouth and with his good mouth he..."

REPORTED ST. PAUL BUYS ELECTRIC LINE TO GET INTO CITY

Story Circulated That Casadero System of P. R., L. & P. Co. Latest Short Line Acquired by It.

WOULD BRING STEAM ROAD TO MADISON SPAN

May Also Use Gresham Line to Reach the Columbia River.

Reports originating today from apparently authoritative sources have it that the Casadero line of the Oregon Water Power division of the Portland Railway, Light & Power Co. has been acquired by the Chicago, Milwaukee & St. Paul railroad, and will be used by it as a means of entering the city of Portland.

These reports state that the Casadero line—the Springwater division of the O. W. P.—is to be a link in the chain of small lines the Milwaukee has been picking up with the ultimate purpose of getting right of way into Portland.

That there is anything substantial to the reports, however, is denied by President Josselyn of the Portland Railway, Light & Power Co.

The Milwaukee's plans include, it is said, entering Portland by way of the Casadero line, which follows the Willamette river for some distance, and leads down to the Madison bridge, and to Water street. The importance of this line is obvious, because of its highly valuable waterfront property between the Madison bridge and the Inman-Poulsen will.

The Casadero line is to be reached.

CONSUMPTIVES TO BE CARED FOR IN STATE SANITARIUM

Dr. C. S. White Insists That Institution Receive Every Patient in the Tuberculosis Ward at County Poor Farm.

"The Oregon State Tuberculosis Sanatorium will receive every patient consumptive now in the care of Multnomah county or I will give up my position."

In this way Dr. C. S. White, state health officer, announced yesterday two things of great interest to Multnomah county authorities, first, that hopeless consumptives will be received by the state institution; second, that the accommodations of the sanatorium are much greater than had been commonly believed.

"How many patients are there in the tuberculosis ward at the county poor farm?" questioned Dr. White.

"Sixteen, at the last visit," he was told.

"We have ready for occupancy within ten days 75 beds in the State Tuberculosis Sanatorium," continued Dr. White. "We have only 38 or 40 applications for entrance into the sanatorium from counties all over the state. Multnomah, being the most thickly populated county, has the right to send the largest number of consumptives there. Multnomah county can unload every single one of her dependant consumptives there, and we can take, in addition, all of those whom the Visiting Nurse association is caring for."

Dr. White added that he did not want the people of Oregon to understand the state hospital for consumptives to be an exclusive place with entrance only to be gained after enough red tape had been unreeled to give the patient time to die.

"It is for the care of tubercular dependants," he declared. "We will do our best to give good care to all, those who could get well if they had a fighting chance for life will get the fighting chance. It will be an institution of practical humanitarianism if I have my way."

COUNTESS TOLSTOY ILL OF GRIEF AND WORRY

(United Press Leased Wire.)

Tula, Russia, Nov. 25.—That the Countess Tolstoy, overwrought by the tragic circumstances preceding the death of her husband, Count Leo Tolstoy, has fallen ill with a fever is stated in a message that reached here today. The countess is at Yasnaya Polyana, the Tolstoy home.

British Army Veterans Organize

Winnipeg, Man., Nov. 25.—An organization of veterans of the British army was formed at a convention here today, marking the culmination of a movement which has been under way in western Canada for some months past. The new organization will be known as the Imperial Veterans' League and will be organized in its own right.

SOCIALISTS NOT FIGHTING GOMPERS

It is Predicted Only Max Hayes' Vote Will Be Cast Against Leader.

(United Press Leased Wire.)

St. Louis, Mo., Nov. 25.—It is intimated that the socialist element in the American Federation of Labor will not seriously oppose the re-election of President Samuel Gompers tomorrow. It is likely, however, that Max Hayes will vote "No," thereby preventing Gompers' re-election unanimously.

The socialists are concentrating their opposition on William Huber, candidate for vice-president.

The convention will close tomorrow night and the delegates will probably conclude their labors without endorsing either San Francisco or New Orleans as the place for the Panama-Pacific exposition in 1916.

Rochester, Atlanta, Washington and Minneapolis are in the field seeking the next convention of the federation.

STEEL COMPANY SUSPECTS PLOT

Seventeen Sticks of Dynamite Found Near Federal Plant at Chicago.

(United Press Leased Wire.)

Chicago, Nov. 25.—Seventeen sticks of dynamite were found today near the works of the Federal Steel company here. It is believed by the officials of the company that a plot was on foot to blow up the plant.

The American Bridge company, which controls the Federal Steel company, has been at war with its employees throughout the country.
