

SUSAN STAIGER DIES AT SALEM

Pioneer of 1852 and Owner of Cottage Hotel Succumbs to Pneumonia.

(Salem Bureau of the Journal.)
Salem, Or., Nov. 25.—Mrs. Susan Staiger, proprietor of the Cottage hotel at Salem, and pioneer of 1852, died at 10 o'clock this morning after several weeks illness from pneumonia. Mrs. Staiger was one of the best known pioneers of Marion county and crossed the plains with her mother while yet a babe in arms.

ARMY OFFICER OF ROYAL FAMILY IN MACHINIST ROLE

(Continued From Page One.)
Journal reporter that in Mexico the military system is modeled after the United States militia. An officer receives no pay except when engaged in actual warfare. He says he regards the present situation one that the Mexican government can easily cope with.

to have him believe that I am disloyal. I wish the Journal would publish my denial that I have ever aided rebels in any way and my statement that I am ready to return to Mexico any time my country calls me."

Lieutenant Gonzales is 45 years old but he doesn't look a day more than 35. His youthful appearance betrays clean living in spite of his frank confession that he is "what you people call a 'noir do well'."

"Saw 'Down and Out."
The officer shows by his demeanor that he is highly educated and for all that he was clad in greasy blue overalls and jumper his manner was that of a dignified and cultured gentleman. His averseness to publicity he made very evident. He said the only reason that he has made known his whereabouts at this time is that he is "down and out," as he expresses it, and has not money enough to send a telegram to President Diaz. He has written to his chief, but wishes the Mexican governmental head to get his statement as quickly as possible.

REPORTED ST. PAUL BUYS ELECTRIC LINE TO GET INTO CITY

(Continued From Page One.)
It is reported by a line following the survey of a pass south of Mount Hood that was made by the Mount Hood railway's engineers. This pass is considered by many railroad men the easiest and best way of entering central Oregon from Portland. But it leaves unanswered two questions—where the Milwaukee will secure entrance into central Oregon and what figure the Mount Hood cuts in the scheme.

The Mount Hood road is being constructed rapidly and expensively. Its rails are almost within the city limits of Portland. The road has no franchise to lay rails within the city limits. Apparently, the graders were making for Sullivan's gulch, which, of course, is controlled entirely by the O. R. & N., a road not friendly to the rival Milwaukee.

ing up to any such arrangement that I know of."

Notwithstanding these denials, the enormous amount of work being done on the O. W. P. line especially between Portland and Sellwood Junction, as well as the work on the extension of the present Casadero line, would tend to show that something more than a small interior business is in prospect for the O. W. P. Steam shovels are at work cutting down the hills between the Imman-Poulson mill and the Oaks.

The swamp land in between the right of way and the hills is being filled and graded for use as extensive yards. It is reported that the Milwaukee recently acquired a large amount of this land lying between the river and the Sellwood embankment and it is certain that the extent and value of this property is such that it would scarcely be needed for yards for the O. W. P. with its present traffic.

13 CENT STAMP TO BE TAKEN OFF MARKET

Washington, Nov. 25.—The day of 13 as a postage stamp denomination is waning. Every postmaster in the United States is being notified that the supply of thirteen cent stamps at the post office department has been exhausted. Those already issued to postmasters will continue to be valid for postage, and will be sold until exhausted. The thirteen cent stamp was first authorized because it was a combination of a registry fee of eight cents and the foreign postage of five cents. When the registry fee was raised to ten cents, the thirteen cent stamp had no further mission. The postmaster general ordered its manufacture discontinued a year ago.

A bill is to be introduced in the chamber of deputies to give full civil responsibility to all constituted trades unions in France. It will make all the unions civilly responsible for destruction of property during strikes, and will go far to crush the power of the General Labor Confederation.

OLD GRAIN MARKET PLUNGER SHOWS UP IN GUISE OF HOBO

(Continued From Page One.)
La Crosse, Wis., Nov. 25.—Abner Bertram Frazer, former millionaire grain speculator of Minneapolis, was found here today as a tramp, Frazer dropped from sight after having lost a fortune in a wheat corner. For five years it was believed that he was dead. His memory has become clouded. D. S. Gries, who recognized Frazer, is attempting to restore Frazer's recollection of the past.

POLICE FIND ONE MORE GAMBLING DEN

One of the biggest Chinese gambling dens in the city was raided last night by Patrolmen Shaffer and Martine, who found four Chinese playing. About 15 men escaped. There were eight tables in the den, which is located at 287 Everett street. The officers confiscated \$190, which was on the table. Wah Chung and Ah Gim, two professional gamblers, were charged with conducting the game, while Lee Louie and Hen Sing were charged with visiting the place. The two former were each fined \$50, and the latter \$10. All four men pleaded guilty.

That Little Hacking Cough

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a history of weak lungs in the family. What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral. Ask him if this medicine has his full approval for throat and lung troubles. Then do as he says.

J. C. AYER COMPANY, Lowell, Mass.

Be well; be strong. You cannot if your bowels are constipated. The best laxative is Ayer's Pills, all vegetable. Ask your doctor if he agrees with us. Do as he says.
