Member of Reichstag Says His Majesty Makes Nation Ridiculous Before World-Charges Promises Broken.

(Dailed Press Leases Wire.)
Berlin, Nov. 26.—The "divine right" idea of Kaiser William was bitterly attacked in the reichstag today by Herr Ledebour, a Socialist member. The kaiser's recent speech glorifying his ancestors and upholding the claim of divine right irritated the people, Ledebour said, and held the German nation up to ridicule before the eyes of the world.

world.

Not only did the Socialist leader decry the kniser's speech, but he accused the emperor of bad faith, saying that promises solemnly given in the name of the throne had been forgotten and left unfulfilled. He suggested that the German people would like to have Wilhelm carry out these promises and then keep silent in the future.

"The promises were given solemnly in the mame of the emperor, and they were ruthlessly violated by the emperor at Koemigsburg and other places. Must the German people believe that the promises made from the throne are not intended to be kept? If this is the case, then the time has come when legislation must be enacted preventing the ruling monarch from making public utterances reflecting upon the people. The nation expects the emperor to maintain the places of 1909, and to assume the attitude of public reserve thereafter.

When it was first reported to me that Hedman had made threats I had a thought to call him in and make him give an account. I do not think now that I shall.
