

3 WINDJAMMERS TOWED IN RIVER DURING AFTERNOON

Potalloch and Speranza Arrive to Take on Lumber and Ellerbek Will Take Aboard Wheat Cargo.

Three windjammers made their appearance off the mouth of the river yesterday and were towed into Astoria between 1 o'clock and 2:30 o'clock in the afternoon.

The Speranza, 1879 tons net register, Captain Laodanza, arrived in the river at 1 o'clock yesterday afternoon, after a passage of 30 days from Guaymas.

Another vessel, which will load lumber for South Africa, under charter to J. J. Moore & Co., is the British ship Potalloch, 2133 tons net register.

The German bark Ellerbek, 1613 tons net, Captain Bewsdorff, arrived at 2:30 o'clock from Guaymas, making the passage from the west coast in 25 days.

The British ship Strathfillan, under charter to the Portland & Astoria Steamship company for a voyage to the Orient, arrived in the river at 4:30 o'clock yesterday afternoon from San Francisco.

The schooner Annie Campbell was towed to Westport yesterday, by the steamer Ocklahama, where she will load lumber for Australia.

The rate on the British ship Blythwood from Portland to Cork for orders for the United Kingdom, was 27s 6d. Carrying passengers and freight, the steamer Breakwater, Captain Macgregor, will be due to arrive this afternoon from Coos Bay.

The British ship Scottish Moors will shift from the North Bank dock to the Star Sand company's dock at 1 o'clock this afternoon, after which the French bark Michelet will be moved from the stream to the south end of the North Bank dock.

Reports received yesterday afternoon by Captain A. B. Graham were to the effect that the river had begun to rise near Sydney, where the Pomona was aground, at about 3 o'clock in the afternoon, and he says that if it continues to get higher the steamer will be afloat today.

Several weeks of inspection work are in sight for Commander J. M. Elliott, light-house inspector for this district, before and after the holidays, during which time he will inspect and report on six dolphin lights wanted by the people of Tillamook.

He says that he expects to inspect North Head and Disappointment lights between now and December 15, and between that time and Christmas he will go to Tillamook, six dolphin lights in the channel between Tillamook and the bar and two range lights on the bar are desired, and he says that he will probably recommend

DISPUTE OVER REPAIRS TO VESSEL

The North Pacific Steamship Company's steamer Roanoke, a bill for the repairs of which is in dispute between the underwriters and the Willamette Iron & Steel Works. The latter presented this bill recently for repairs on

the steamer necessitated by the vessel striking her stern on the bank of the river last summer on her way down, bound for San Francisco. Extensive repairs were made on her rudder and the bill, amounting to over \$4000, which in-

cluded the time that she was on the Oregon drydock, was claimed by the underwriters to be too high. The matter may be settled when the steamer arrives in port again a week from today, from San Francisco.

WESTERN UNION STARTS OCEAN MAIL SERVICE

The local Western Union office has received a long telegram from headquarters at San Francisco containing instructions to put into effect at once a new ocean mail service effective at Seattle and Vancouver, B. C. The special ocean mail service is designed to save time in foreign correspondence. A letter from San Francisco to London requires as much time crossing the continent as it does crossing the ocean.

The same plan will be followed in San Francisco, Seattle and Vancouver, B. C. for Transpacific mails. This will enable correspondence to be dispatched from any part of the United States for an ocean mail within a few hours of sailing time. The only change in addition to usual telegraph tolls to the ocean mail port will be 5 cents for postage. The telegrams will, of course, bear the full message address of the foreign correspondent for whom they are intended and marked "ocean mail, New York," or other ports, as the case may be.

The great advantage gained would, in time, no doubt result in foreign correspondence directing their correspondence to the Western Union to be transmitted from the port of entry of the mail steamer.

GUNBOAT CONCORD MAY BE ASSIGNED TO NAVAL RESERVE

Encouraging News Received by Commander McNulty of Local Organization; Contributions to Fund Reach \$280

Word has been received by Commander J. M. Elliott, U. S. N., light-house inspector for this district, from Admiral Cottoman, commandant of the Puget sound navy yard at Bremerton, that the latter had recommended to the navy department that the gunboat Concord be assigned to the Oregon naval reserve. The communication was turned over by Commander Elliott to Commander John McNulty, of the reserve.

Although the recommendation has been made by the commandant of the Puget sound yard, the navy department has not yet acted on the matter and it is not known here whether the action will be favorable or not. It is estimated that the cost of fitting the Concord up for the use of the Oregon naval reserve would be \$14,800. The gunboat Concord, together with the Boston, was ordered up for sale by the government and it was through Lieutenant Commander J. F. Blain, navigating officer of the reserve here, that the fact became known to Captain Shepard and Commander McNulty.

Commander McNulty, chief of office of the naval militia of the navy department at Washington, has advised Commander McNulty that Admiral Cottoman would be down here soon to see personally what Portland had done toward assisting the reserve here, and it is said that on his report to Washington will depend the government's future patronage of the Oregon naval militia.

Uncle Sam in giving the use of many hundred thousand dollars worth of equipment expects the people of the city and state interested to give a certain amount of support.

Some equipment belonging to the old reserve, which has been under the care of the Oregon national guard, was turned over to the naval reserve yesterday. It consists of cutlasses, single sticks and other paraphernalia necessary to the training of the citizen sailor. In addition to this, there were two three inch field pieces, including dummy shells, instruction pieces and other parts required to teach the setting up of the guns.

The members of the reserve are as enthusiastic as ever and at the last drill in the Army Wednesday night the entire band turned out with the divisions.

The Oregon naval reserve fund is growing. Yesterday Roscoe Howard, a business man with offices in the Railway Exchange building, and retired commander of the U. S. M. C. called on Captain George S. Shepard and donated \$25 to the fund.

"It is a worthy cause," said Mr. Howard, "and I am glad to see it getting on its feet."

PEACE, SWEET PEACE, FOR MEXICO

Diaz Representatives and Revolutionists to Hold Get Together Meeting.

(United Press Leased Wire.) Mexico City, Dec. 3.—Preparations for a conference between the government and representatives of the insurrectionists began today with the authoritative announcement that the Diaz officials would treat with the revolutionists. A peace committee comprising the governors of the several states in the Mexican republic will be selected. It is reported that Rosendo Finela, leader of the government party; Demetrio Soli, Demetrio de la Gara and Guillermo de Landa y Escandon will be the delegates for the government.

Rafael Martinez, a supporter of General Reyes, petitioned the president today to extend clemency to insurgents who surrender. It is believed the rebels are favorable to the peace proposals and will withhold active operations pending the overture.

El Paso, Tex., Dec. 3.—Amnesty for all revolutionists, including Francisco Madero, and a new election, with free suffrage guaranteed, were the terms laid down by the Mexican revolutionary leaders as the price of their surrender and the calling off of the Mexican rebellion, at the peace conference held today at San Isidro. The Mexican government was represented by Judge Jose Gandara, Lio Gardones, Amador Gonzales and Jose Gonzalez.

Captain Herrera, rebel chieftain in charge of the revolutionary movement about San Isidro, presented the demands of his followers.

Howard, who was a stranger to Captain Shepherd, "and I would like to give a hand."

"How do the subscriptions run," Mr. Howard asked. "Oh, anywhere from \$5 to \$25," Captain Shepherd replied. "Well, how would \$15 suit you?" inquired the retired commander.

"Very fine," said Captain Shepherd. Mr. Howard at once wrote out a check for \$25, saying as he handed it over: "Should be encouraged."

"I guess that'll be better. The boys are welcome to it. The naval reserve should be encouraged." The Chamber of Commerce sent in its check for \$25 to the fund being collected by The Journal.

The fund now stands: Received by The Journal... \$140.00. Chamber of Commerce... 25.00. Total... \$165.00. Other subscriptions... \$30.00. Roscoe Howard... 25.00. Received by The Journal... \$165.00. \$280.00.

CHANCE FOR GAS IN MALHEUR CO.

Government Geologist Thinks There May Be Discovered Good Flow There.

By John E. Lathrop. Washington, Dec. 3.—The chances are good for developing a gas field in Malheur county. C. W. Washburn, geologist of the geological survey, officially makes the foregoing statement. Active prospecting for gas and oil has been carried on in Malheur county for about three years. Mr. Washburn says in 1907 seven companies were operating in the field, 15 wells had been drilled, and drilling was in process on eight others. At one place in Ontario, Malheur county, gas is obtained from a well in quantity sufficient to operate 12 jets for lighting a house and to supply a cooking range, but no well in that region has yet made a commercial output of gas or oil.

The investigations by Mr. Washburn cover a field including Vale and Nyssa, Malheur county, Oregon, and Payette and Wadswa, Idaho. Mr. Washburn sketches the geology of the field and gives accounts of the hot springs and mud volcanoes which are found there.

ANEGLECTED COUGH--DANGEROUS CATARRH FOLLOWED. "I have been using Peruna for some time for a cough and catarrh of the throat with very satisfactory results. Having neglected the cough, catarrh developed, and my physicians said I was threatened with catarrh of the stomach. My breath was very offensive, and I was troubled with nausea. Less than two bottle of Peruna cured me."

MR. GEORGE PARROTT. Had Dyspepsia 25 Years. Mr. Sidney Wessels, Merritt, Ont., Canada, writes: "I have been troubled with dyspepsia and indigestion for twenty years, during which time I tried different doctors, but did not get the desired results. I have been compelled for weeks at a time to give up work, being completely prostrated. I had to confine myself to a milk diet as nothing would remain on my stomach. "I had about given up, thinking my case incurable, when I heard of Peruna and decided to try it. One bottle made a great change, and after using another bottle of this wonderful medi-

cine I had complete freedom from pain, my appetite had returned and I could again enjoy my meals. "I believe Peruna to be the grandest medicine under the sun. Today I weigh over 225 pounds. Is it any wonder that I praise Peruna?" Says Peruna Entirely Relieved. Mr. Emilio Merola, 1879 Ontario St., Montreal, Canada, writes: "After taking nine bottles of Peruna, I find that I am cured. I will take it occasionally. For me it is the best medicine in the world. I have recommended it to a number of persons."
