

CONFER ON NEW MILK ORDINANCE

Health Officer and Deputy City Attorney Plan Its Provisions.

City Health Officer Wheeler and Deputy City Attorney Tomlinson conferred yesterday morning concerning the terms of the new city milk ordinance, which it will be necessary for the council to pass next Wednesday. In preparing the ordinance Mr. Tomlinson has been consulting the best regulations enforced by many cities of the United States. He proposes then to write an ordinance which shall cover Portland's immediate needs of protection against bad milk.

Mr. Tomlinson agreed with Dr. Wheeler that the new law should make Portland independent of state enactments. The ordinance will stipulate that only those who can furnish satisfactory evidence to the health officer that their cows have been found by test free from tuberculosis will be permitted to sell milk within the city. If the services of the city inspectors are desired for this test to make the evidence satisfactory the dairymen must submit it from the health officer. If at the next session of the legislature the law requiring a state wide tuberculosis test for dairy cows shall be enacted its effect will be to relieve the city of the labor of testing, while at the same time necessitating no change in the city's regulations.

The meeting of official and non-official health protecting agencies Tuesday afternoon under the auspices of the Consumers League promises to have large importance in assembling the influence necessary to secure the passage of the state wide tuberculosis test law. Invitations to attend this meeting have been sent to city and state government officials, to leading citizens and legislators. Dr. Calvin S. White, state health officer, will preside. The meeting will be held in the auditorium of the Medical Building.

The enforcement of the plan for the state wide test, which was given by the state dairy convention at Eugene Friday has served as material encouragement for those who are locally desirous of seeing the law adopted. Dr. Wheeler, the city health officer, believes that if Portland demands that milk sold here must be certified as tuberculosis free, it also will serve as impetus in the campaign to gain the state wide test.

\$500,000 TIMBER DEAL; EASTERN FIRM BUYS

(Special Dispatch to The Journal.) Cordova Grove, Or., Dec. 10.—John F. Woodard of this city and C. H. Chick of Portland have just closed one of the largest timber deals made in Oregon this year, whereby \$500,000 worth of the best yellow fir in Coos and Douglas counties is transferred to eastern capitalists. The timber was owned by P. J. Haynes of Port Huron, Mich., and William M. Porter of Eugene.

FAIR BUILDING WILL BECOME HANDSOME RESIDENCE

New view of Massachusetts building on west slope of Mount Tabor, recently purchased for a home by B. S. Josselyn, president of the Portland Railway, Light & Power company. The building is to be altered and the grounds improved to an extent that will involve an expenditure of approximately \$15,000.

MANY GOING ON "ALOHA" EXCURSION

The itinerary arranged for the "Aloha" excursion could scarcely be more attractive. The cruise will not be thirty odd days of continuous sea travel, for the ship will be at anchor 14 days of the time she is away. This time will be divided as follows: One day in Astoria, two in San Francisco, three in Hilo and seven in Honolulu.

Leaving Portland at 9 a. m., a day-night ride will be had down the Columbia, the world's scenic waterway. Astoria will be reached about 4 p. m. With the tide the following day the Queen will sail for San Francisco, entering the Golden Gate the morning of February 4. The following afternoon full sail will be set for the faraway Hawaiian Islands, those mid-sea dots of the Pacific which today are a part of Uncle Sam's domain. Hilo will be the next stopping place. After three days there so that the excursionists will be able to visit the crater Kilauea, the world's largest active volcano, a day's ride through the maze of islands will take the ship to Honolulu. Here she will lay at anchor during the life of the Floral Festival, the only rival to Portland's now world-famed Rose carnival.

No better time could have been chosen for such an excursion, not only because of the Floral festival in Honolulu, but also because February is the best month of the year there and the worst of the year in Portland. The excursion will take you out of the rain of Oregon into the sunshine of Hawaii. If you think of going make your reservation at once. The party is limited

to 290, and if one-half go who now talk of doing so it will take three ships to accommodate the crowd. Cabin plans may be seen at the office of the Pacific Coast Steamship company, 348 Washington street. If you have not time to call telephone Main 528 or A-1293, and a representative will call upon you.

OFFERS ATTRACTIVE CHRISTMAS NOVELTIES

Raphael Tuck & Sons company are offering their usual line of Christmas cards, calendars and similar novelties to tempt the holiday shopper. For many years the name of the firm has stood for the best in design and execution of this line of goods, and each new season always produces interesting and elaborate effects from their workmen.

Christmas cards are one of their specialties, many of them appearing in booklet form with silk cards, gold Christmas balls and heavily embossed flowers in velvet. Their calendars are another feature of their work in which

is seen a wide range of subjects and sentiments. Christmas auto stationery and private greeting cards of parchment are among their best novelties.

One of the most interesting child publications of the firm for this season is a new edition of "Alice in Wonderland," with full page color illustrations by Mabel Lucie Attwell. The book is further ornamented with attractive pen and ink sketches, making it a thoroughly interesting and tempting feast for young readers.

Warm Election at Junction City.

Junction City, Or., Dec. 10.—At the election here Monday, in which four councilmen were elected, the heaviest vote ever polled at a city election was cast. Jesse Sovern, J. J. Boone, Richard Pope and Chris Strom were elected by a large majority, they representing the Taxpayers' ticket. The ticket called the Administration ticket, on which was running E. M. Jackson, J. J. Rann, William Leppert and Havin Balknapp, was defeated. The holdover councilmen and the mayor threaten to resign.

LIQUOR ORDINANCE APPROVED BY TWO

Rushlight, Third Member of License Committee, Withholds Opinion.

Two members of the city council's license committee approve the adoption of the proposed model liquor license ordinance by the council next Wednesday. They are Councilmen Annand and Lombard. Councilman Rushlight would not approve the ordinance for passage at a committee meeting held yesterday. Neither would he express himself in disapproval of its provisions.

In the same way Councilmen Lombard and Annand approved the placing of the license fee for manufacturers at \$500, while Councilman Rushlight withheld approval, taking the ground that local industry should be encouraged by low fees. Councilman Lombard at the beginning of the discussion strongly favored making the manufacturers' fee not less than \$100. Councilman Annand thought it should be low, but consented to a compromise at \$500. The scale of fees as approved by the majority in its favor:

	Per Year.
Manufacturers	500
Wholesale liquor dealers	500
Wholesale liquor dealers who are residents	1000
Grocers selling liquors in original packages	400
Restaurants selling or serving liquors	500
Druggists who sell or make display of liquors	400
Retail liquor dealers	300
Clubs serving liquor	300

It was provided yesterday that the number of those who may hold restaurant liquor licenses shall be limited to 49 and those holding club liquor licenses to 15. The power of attorney was refused to brewers and extra precautions taken to prevent corporations from getting control of the liquor business. It was stipulated that the city shall deal only with individuals in the granting of liquor licenses and not with partnerships or associations of persons. In addition to forbidding women to enter drinking places and stipulating that family and wholesale liquor stores or hotels where liquor is sold shall be open to public view the ordinance further requires that the place shall be one where:

*There are no screens, boxes, alcoves,

benches, stalls, highback seats, over three and one half feet in height, or other obstructions to a complete view of the interior from any part thereof.

Objections. For high grade culture information write The Special Crops Scientific Intensive Culture Ranch of nine years' experience, Salem.
