The Best Treatment in the World, the Most Modern Methods, and No Guesswork or Experimenting. No Alling, Skeptical or Hopeless Man, It Makes No Difference How Long He has Treated, Can Doubt My Curing Him if He Will Take Time to Investigate for Himself How I Am Curing Afflicted Men After Other Specialists Fail, and After Some of These Men Had Given Up Hope of Ever Being Cured. I Prove to Every Man That I Can Cure Him and How I do It Before Asking Him to Take Treatment or Pay Me a Penny.

Why I Cure Afflicted Men After Others Fail

I am not surprised that the majority of men who come to me had not been cured, because they had not received the careful examination given by a skilled specialist who is an expert. Men tell me they never received a scientific examination until they came to my office, and their doctors seemed to be more anxious to get their money than anything else.

You will see when you come to me how different you will be examined. I don't treat men until I learn all about their condition; it makes no difference how long it takes me to find it out. This is why I cure after others fail. When you take treatment from me you get the benefit of my best skill, time and attention necessary to cure you. It doesn't make a bit of difference on account of your pocketbook. I treat men to cure them and give them treatment that cannot fail. want every afflicted man to call or write to me at once. That is all ask them to do to convince them beyond a doubt that I can cure them; make them strong, vigorous, whole, happy, hearty, even if they think they are wrecks. Men who take treatment from me improve from the start and know I can cure them.

Afflicted men, why wait, be skeptical, ailing or run down, or continue to take treatment that is doing you no good, when you can get treatment from me that is certain, that does you good at once and seen effects a cure? Many men have to come to me sooner or later if they are ever cured. Why not let me cure you before losing your money, health and strength in treating with unskilled specialists?

To but partially cure an allment is almost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed the probability exists that the allment will gradually work its way into the general system. Perhaps 25 per cent of the cases I treat are a direct result of some improperly treated allment. During the past five years I have treated over 6500 cases of these ailments and have effected an absolutely thorough and safe cure in each instance. There have been no relapses or undesirable developments whatever, and my patients have been cured in less time than other and less thorough forms of treatment require in producing even doubtful results. Blood Allments.

This most troublesome of all ailments can no longer be classed as incurable. The idea that the limit of medical aid is to keep the silment dormant by persistently dosing the system with medicines is as incorrect as many other ancient theories to which many of the profession cling. I positively drive the very last taipt from the system. The cure is thorough and permanent, and every symptom of the disorder vanishes forever. I employ no dangerous drugs or medicines, but use harmless, blood-cleansing remedies heretofore unknown in the treatment of this ailment. I regard my success as nent. I regard my success as crowning triumph of my pro-

general health, and even life itself, by allowing the aliment to
remain uncured. Varicose veins result from partial paralysis of the
lelicate nerve fibers that have a
part in controlling local circulation
of the blood. The muscular coating of the veins, being deprived of
servous communication and conrol, becomes inactive, weakens and
belaxes. The blood yessels exband from the pressure within, the
sirculation becomes sluggish, and
frequently stagrant pools form in
little nooks and pockets that constantly enlarge as the relaxation
continues,

I guarantee to cure varicose veins in one week by a method that involves no cutting. So thorough is my work that there need not be the slightest fear of a relapse into the old condition. Those who have been long afflicted with varicose veins will never realize the injury it has caused until they feel the vim, energy and buoyancy of spirits that a complete cure will bring.

Midney and Bladder.

My treatment removes the necessity of surgical operations, even in severe cases of long standing. No other physician employs my methods of overcoming this allment, so the service I offer you is original and distinctive. Do not rive up hope because others have falled. I will cure you and the cure will be a prompt and painless one. My treatment permanently removes all inflammation, relieves all irritation or congestion that may exist tation or congestion that may exist in the kidneys or bladder and restores health and tone to all organs affected.

Why My Cures Are Lasting

Because the methods I employ meet even the most minute details of these ailments to which they apply, and are readily modified to meet the requirements of the individual cases. Because my treatment is ample, scientific and thorough, my cures are complete and lasting, and my patients have no relapses. For the same reason I am usually able to cure in much less time than is commonly required in obtaining but partial results.
