

### FACULTY OF REED INSTITUTE WILL BE OF HIGHEST TYPE

#### President Foster Returns From Eastern Trip With Applications From Many Educators of Well-Known Ability.

President W. T. Foster of the Reed Institute, who is building a college of liberal arts after his own ideas and who promises to give Portland an institution of learning that will be noteworthy in rank from a three month trip through the east, the greater part of which he spent inspecting various colleges and universities securing tips on things collegiate.

One of the things President Foster learned on his trip was that the Reed Institute, with a half dozen exceptions, will have the largest endowment of any college in the United States. There is only one college west of the Atlantic seaboard that has more than a \$1,000,000 endowment—Beloit college, Wisconsin. There are universities, of course, that pass the Reed Institute's endowment, but the number of colleges that do so is very small.

#### Facility Places Desirable.

With this encouraging argument to present, the number of those anxious to become members of the faculty is large. Mr. Foster has had applications that insure for the Portland school instructors of the very highest type. The salaries to be paid are good—well up toward the top scale. Besides this, there is the remarkable opportunity—and the one President Foster counts on most to bring him the men he wants—to start departments unhampered by traditions. There will be traditions in time to come, but they will be those founded by President Foster and his faculty.

"I did not see any particular school that I desire to take as a model for this one," said he, "and I am anxious not to take any school and transplant it to Portland. The Reed Institute must be unique, just as Portland and the northwest are unique. The school must meet the demands of the people of this part of the country, must try and train its students to take part in the industries of this section and to meet the approval of the people here. There is a great deal of just criticism of American colleges and their work and I am anxious to avoid that as much as possible.

#### Date Not Decided.

"I cannot give exact information as to when we will build, when we will open our college and other such matters, because they are things that must be decided with the trustees and first it is necessary that I become better acquainted with this part of the country and its particular needs."

Incidentally Mr. Foster is a believer in newspapers. "I believe," he said, "the newspaper is one of the most important and most helpful factors in modern life. Many people whose intentions are good will not give information to a newspaper, leaving it to seek it at places other than those where it is known correctly. The result is some mistakes that could easily have been avoided by those knowing the facts. The institute wants the cooperation and the assistance of the papers in the work it is to do here."

#### YOUNG GIRL NAMED BY WIFE IN DIVORCE SUIT

Jennie A. Harris is plaintiff in a suit for divorce from Patrick L. Harris in the circuit court charging him with habitual drunkenness and with improper relations with Grace Dye, a 16-year old girl of Beaslie. She asks for custody of their two children, \$200 attorney fees and \$40 per month alimony. She is 23 years old and Harris 36.

#### Trains Arrive on Time.

With the exception of the Oregon-Washington express, the second section of the California express and the Seattle express of the Oregon & Washington, which were about 10 minutes late, trains are today arriving on time.

### \$726,000 ASKED IN CROSS COMPLAINT

A judgment for \$726,191 is asked for against R. A. Graham in an answer and cross-complaint filed in United States court today by J. D. Sprackles & Brothers company and the Southern Pacific. The answer comes in response to a suit brought against the two corporations by Graham, alleging they were withholding stock and bonds of the Roseburg, Coos Bay & Eastern Railway & Navigation company, which are his property.

The stock and bonds of this 25-mile line, running from Marshfield to Myrtle Point, have been the constant subject of dispute since the organization of the railroad company. In 1890 the company gave Graham, it is alleged, first mortgage bonds and securities valued at \$225,000 to construct the road. Graham was the organizer of the company. In 1892 the Sprackles advanced something over \$500,000 with which to construct the line, taking stock and bonds as security. Later, after the road had gone into the hands of a receiver, it is alleged, they advanced more, this time \$200,000 more. In response to Graham's demand that the stock and bonds be given him they ask that he pay the \$726,000 they claim is due them.

### GUARDIAN APPOINTED FOR CHARLES W. SMITH

A compromise for settlement of a complete hearing in the petition of Dr. R. E. Smith for the appointment of a guardian for his brother, Charles W. Smith, in the county court yesterday afternoon. It was alleged by Dr. Smith that his brother is incompetent from excessive use of cigarettes and last spring gave Henry Schuderman an option for \$5000 on one fourth interest in valuable property at 127 Marshall street where the brothers live with a sister, Lena B. Smith, and another brother, Milton G. Smith.

By the compromise agreement a guardian was named for Smith without contest and Schuderman took an option on the entire property for \$51,000, which is about the figure Dr. Smith claimed it is worth. Whether or not a sale will be made at this figure was left undetermined.

### FACE AND HEAD AN AWFUL SIGHT

Eruption Broke Out when 2 Weeks Old—Itched So He Could Not Sleep—Hair All Fell Out—Cuticura Cured Him.

"I wish to have you accept this testimonial, as Cuticura did so much for my baby. At the age of two weeks his head began to break out with great sores and by the time he was two months his face and head were an awful sight. I consulted a doctor, who said it was nothing but a light skin disease which the baby would soon get over. But he seemed to get worse so I called another doctor. His opinion seemed to be the same. They both prescribed medicine that did not do a bit of good. A friend advised me to take him to the hospital, which I did. Two doctors there gave me medicine in a liquid form. It did him no good. Nearly every day I would read a testimonial in regard to Cuticura and my wife thought she would try it to see if it would help the baby. I got a box of Cuticura Ointment and a cake of Cuticura Soap and after using these he was entirely cured. Before Cuticura cured him he could not seem to sleep, as his face and head would itch so. What hair he had all fell out but soon had a nice head of hair and his face was perfectly clear. It is now nearly five years since he was cured and there has been no sign of the eruption returning. Chas. B. Evans, 81 Flint St., Somerville, Mass., April 19, 1910."

A single set of Cuticura Soap and Ointment is often sufficient to cure, rendering it the most economical treatment for ailments of the skin and scalp. Sold throughout the world. Potter Drug & Chem. Corp., Sole Proprietors, Boston, Mass. 25¢ Mailer free, latest book on Care of Skin and Scalp.

### WANTS DIVORCE FROM 80-YEAR-OLD HUSBAND

Mrs. Mary Melvin Epton, 41 years old, desires to be freed from her 80 year old, \$12,000 husband, John Epton, alleging he has been cruel and has twice deserted her, although they were married only last May. She asks for \$5000 alimony, with \$250 extra for her attorneys and \$100 paid to him on a lot before marriage.

Mrs. Epton says her husband left her the first time on June 1. Just before they were married, she alleges, she contracted with him to purchase a lot in Mount Tabor Villa for \$1350. She paid \$100 down and was to pay \$15 per month, she states, but before the first installment became due she married him. Disregarding her contract, she says, he sold the property on June 5, at least gave a quit claim deed to Alice Sedore on that date.
