

TO OFFER PLANS FOR NEW DOCKS

Civic Improvement League Will Also Ask Commission to Accept Architect.

The Civic Improvement league has asked the public docks commission to set a date when representatives of the league may appear before it and make a formal offer of the services of E. H. Bennett, municipal architect, in formulating a public docks plan. A preliminary report made by Mr. Bennett, together with maps and drawings illustrative of a tentatively suggested plan of harbor improvement, will be submitted at the same time. The next meeting of the public docks commission is appointed for Thursday, January 5, when it is expected that all of Mayor Sidman's appointees will be present. This it is believed would be a convenient time to receive the representatives of the league.

The services of Mr. Bennett and the cooperation of the Civic Improvement league are offered free of charge, their interest in the matter being to make the plan of harbor improvement and public docks building a unit in the city practical plan. A communication addressed to the public docks commission by Dr. J. R. Wetherbee, chairman of the league, reads:

"As chairman of the Civic Improvement league of Portland it gives me pleasure to inform you that the Civic Improvement league stands ready at any and all times to assist your honorable body in any way that it can in securing and carrying out proper plans looking toward the establishment of public docks, and also that E. H. Bennett of Chicago, who is the municipal architect and engineer of the league, is making a careful survey and study of the Portland dock problem, having been thus engaged for several months with the assistance of government data and surveys.

"We shall be pleased to place all of these at your disposal, and also to call Mr. Bennett from Chicago to give you the benefit of his information at any time you may suggest. I beg the privilege of appearing before your commission when it is organized for the purpose of addressing you on the plans already formulated for the 'city practical' and to give you such information as the Civic league now has in its possession regarding the outside forces that must be taken into consideration in the development of the future Portland, and the economical interchange between land and water transportation."

Gold and Silver

Mounted pipes and plain ones; all kinds of pipes—Meerschaums, Briars, Calabashes, etc. They make fine gifts. Sig. Sichel & Co., 92 Third and Third and Washington.

NURSES' EXPLAIN WHY PEOPLE SHOULD AID STAMP CAMPAIGN

Sketch of visiting nurse calling at home to investigate case of consumption.

Leaders in the Red Cross campaign are asking this question: "Why shouldn't every good citizen in Portland help us fight consumption by taking a few of the 1,000,000 Red Cross seals that we must sell to raise the \$10,000 we need to carry on next year's work?" A little explanation of what the Red Cross seal should mean follows: The little Red Cross seal is doing splendid work if it does nothing more than to arouse the people to a keener sense of responsibility. It is the hope of the Visiting Nurse association that stringent laws may be passed requiring the immediate reporting to the health board by any hotel or lodging house of any case of tuberculosis cared for overnight. A complete registration of all active cases is the most important step toward controlling tuberculosis. The history of every city that has undertaken a campaign against tuberculosis is, first, a recognition of its prevalence; then a gathering of forces to care for

the cases for which no shelter was provided either by public or private forces. An awakening of the authorities, both state and local, to a sense of responsibility, then the educational campaign which teaches people how to live so as to avoid the disease is desirable. It was recently said in Washington at the conference of the National Association for the Prevention of Tuberculosis: "The backbone of the work of a committee on prevention of tuberculosis should be the educational work." "There should be strict enforcement of the ordinance against expectorating in public places. The physicians tell us if this practice were stopped the percentage of cases would be reduced fully one-half." Booths for Monday will be in charge of the following women: Meier & Frank, Mrs. William Biddle, Mrs. Hawley Hoffman, Miss M. Bouchka, Miss Mildred Grinstead, Olds, Wortman & King—Miss DeFries.

Miss Eliza Goldsmith, Miss Elise Simon, J. K. Gill—Miss Ethel Gordon, Woodard & Clarke—Mrs. A. V. Morrow, Miss Lucile Kennworthy, Tull & Gibbs—Miss Luella Dunno, Mrs. Charis Hobberd, The Owl—Mrs. C. B. Woodruff, Miss Margaret Duniap, Lipman, Wolfe & Co.—Miss Agnes Muckle, Mrs. A. Foulhouse.

Frederick W. Lehmann of St. Louis, who has been appointed to succeed the late Lloyd W. Bowers as solicitor general of the United States, is a former Democrat, who left his party at the time of the free silver agitation in 1896. Until recently he was president of the American Bar association.

HOOD RIVER MAY BUY WELCH WATER SYSTEM

(Special Dispatch to The Journal.) Hood River, Or., Dec. 17.—With the deal made by N. C. Evans for the sale of his stock in the local electric light and water plant the entire property now belongs to A. Welch of Portland. Mr. Evans secured, in the neighborhood of \$14,000 for the shares of stock that he held. With the passing of this title

several suits pending in Hood River and Wasco counties, wherein N. C. Evans was plaintiff and the light and water company through its former president, H. F. Davidson, was defendant, have been canceled and the two factions are now at peace. The citizens of Hood River are generally pleased that the long and bitter fight that has figured in local politics so long has come to an end and that the Evans and Davidson factions are now entirely eliminated from the water situation at Hood River. Mr. Welch desires to give his entire time to the further development of the electrical end of the plant and desires to dispose of the water plant to the city for what it is worth. It is thought that he

citizens will gladly pay Mr. Welch what the plant is actually worth, and that with the sole control of the water for the city the new pipe line from above Tucker spring or lava beds will be brought in at once.

Dinner to New Governors. New York, Dec. 17.—Several of the Democrats elected to governorships at the recent election, including John A. Dix of New York, Woodrow Wilson of New Jersey and Eugene N. Pess of Massachusetts, came to New York today to be guests of honor at a brilliant banquet at the Waldorf-Astoria under the auspices of the National Democratic club of this city.
