NO CARS RUN AFTER DARK IN WINNIPEG

Civic Committee Is Unable to Settle Trouble Between Strikers and Company.

(United Press Leased Wire.) Winnipeg, Manitoba, Dec. 22.—The civic committee which was engaged all day yesterday in trying to bring about peace in the street railway strike admitted today that their efforts had been unavailing and the situation has reached an acute stage. Six cases were heard in court yesterday of men charged with damaging street railway property, all being remanded for trial in a higher court.

Today the company issued a statement in which it attacks the strikers, accusing them of trying to stir up the foreign population and of being at the bottom of the trouble when the Fort Rouge car barns were attacked recently. The men, on their part, when asked at a mass meeting today if any of them wished to take advantage of the company's offer to return tomorrow, said emphatically they would not.

The company took off all cars soon after 7 o'clock last night, but before that hour many of them were stoned. The police were unable to cope with the situation.

Serious trouble is expected at any moment and the militia have been notified to be in readiness for instant duty.
