

MRS. TURNBULL IN A WAR OF WITS IS HOLDING HER OWN

Three Days of Wordy Skirmishes Result in Draw—Woman Parries Questions Relative to Her Views.

(Continued from Last Week.)
 Los Angeles, Dec. 22.—Boatrice Anita Turnbull's contest for a daughter's share of the millions of the late E. J. Baldwin is rapidly becoming a war of wits between Mrs. Lillian Ashley Turnbull, the claimant's mother, and Attorney Gavin McNab, for the defense. For three days wordy skirmishes between the mother and the attorney have occurred, McNab seeking to force from Mrs. Turnbull a statement that would undermine some part of her story of her alleged romance with the late turtling.
 The attorneys for the defense are apparently concentrating on an effort to disprove Mrs. Turnbull's testimony that Baldwin introduced her as his wife and that she was known as such to his associates. During the closing hour of yesterday's session McNab tried to wring from the witness an admission that Baldwin addressed her as "wife" only before the negro servants. Mrs. Turnbull's only admission was that the person in question might have been rather dark.
 McNab abandoned this attack yesterday after recurring to the alleged marriage. Mrs. Turnbull reiterated her

statement that she believed Baldwin to have been divorced when their alleged marriage contract was signed.
 She denied under questioning that she had asked Baldwin regarding the wife she believed he had divorced, her statement eliciting from McNab the observation: "You must be a scientific example of the absence of woman's curiosity."
Withholds Views on Matrimony.
 Efforts of Attorney McNab to elicit from Mrs. Turnbull her views of the marriage relation, its meaning and the obligations incurred, were frustrated by Mrs. Turnbull's cross-examination yesterday afternoon. McNab repeatedly questioned Mrs. Turnbull as to her views regarding matrimony and whether or they had changed during the years that have elapsed since she first met "Lucky" Baldwin. Mrs. Turnbull skillfully parried the questions. Aside from intimating that her views probably differed little from those of other women, Mrs. Turnbull avoided a direct answer.
 The witness' first trip to California, after which she claims to have lived with Baldwin was the subject of a second line of questioning by McNab, who tried repeatedly to secure an answer to his query as to whether Mrs. Turnbull had been provided with a round trip ticket when she left her New England home for the Pacific coast. The witness asserted that she had forgotten about the ticket, and was unable to answer. McNab then reverted to his attempts to secure from the witness an exposition of her marital beliefs.

Will Not Play at Salem.
 Oregon Agricultural College, Corvallis, Dec. 22.—Salem will not see a production of the Junior play "Brown of Harvard," as the executive council of the Oregon Agricultural college at its regular meeting this week denied the petition of the Junior class for the presentation of the play in the capitol city. It had been planned to present the play during the month of February, but the council decided that the play should be presented only before the college and citizens of Corvallis.

AEROPLANE FLIES OVER CHANNEL IN FOG

Dover, England, Dec. 22.—A flight across the English channel between Dover and Calais in an aeroplane was made today by Cecil Grace, a Wright aviator.
 Grace ascended in an endeavor to beat the cross-channel record for distance, recently set by Sopwith, an English novice, in a English-built ma-

chine. Sopwith flew 173 miles, landing in Belgium.
 Grace crossed the channel without mishap and passed over Calais at an altitude of 500 feet. He headed inland and showed no signs of descending. It was believed he would try to continue the flight to Paris.
 The flight across the channel was made in a dense fog. Grace used a compass to steer by.
 Grace, however, was unable to continue the flight, and landed safely beyond Calais without breaking the record.

The Head of Every Home Ultimately Wanting a Chickering Should Read This

Two Carloads of Suberb Chickering's Being Sold for Marine Insurance Company's Account

Ten days ago we announced a most extraordinary sale involving the Chickering piano.

Never before have Chickering's been obtainable under price. But as announced heretofore, two carloads of Chickering's sustained slight damage in finish by coming in contact with some chemicals stored in the hold of a steamer on the Great Lakes. Rather than carry these instruments into next year, and refinishing them in our own shops, we arranged with the Marine Insurance Company to sell these Chickering's on their account at prices reduced so as to dispose of them immediately. Since then, we have sold more Chickering's than in any other period of four months heretofore.

Of course, we have also carloads upon carloads of absolutely perfect Chickering's, nine solid carloads came to us direct from Boston late in the year. Every type of Chickering from little baby uprights to largest Colonial uprights, from dainty "infant" and quarter grands to the magnificent orchestral concert grands are displayed. The Chickering is the greatest of all the great American pianos. Ever since we commenced business in Oregon we have sold the Chickering, and never below its established value. Thousands of Chickering's grace Oregon's mansions, but never heretofore has there been opportunity to buy a brand new Chickering under price. There is still a chance for a dozen high-class homes to secure Chickering's, upright or grands, of which the marine insurance people pay a liberal portion.

There were 26 upright and 16 magnificent grand Chickering's in this shipment. For quick work we're accepting \$435 for each Chickering upright in this shipment. The grands are now being sold at \$600 for the plain cases, while \$75 more is asked for very fancy figured mahogany and the larger size.

We are anxious to close out every one of these pianos this week. We must dispose of all of them before the close of the month, and these prices will do it. Here is the opportunity for many a home or music studio which has heretofore been prevented, owing to the high prices, from owning a Chickering, to get a Chickering piano.

The slight damage these Chickering's have sustained in the varnish work will hardly ever be noticeable. We will French (dull) finish any of these pianos in our shops for \$12. And if you are not prepared to pay all cash, pay one-tenth of the price and the balance in payments extending over a period of two years or two and a half years, for the mere additional simple interest.

All of these pianos are displayed at our Retail Establishment, No. 353 Washington Street, at the corner of Park. We repeat it—no chance to get a Chickering under price has ever heretofore been offered. It is safe to say that such an opportunity will never be presented again.

The regular, unconditional factory guaranty, duly countersigned by us, accompanies each piano, thus making every buyer positively secure in his purchase.
