Coach Earl has been putting his men through some hard practice during vacation week and teamwork has been turned to a fine point. Those who saw the eleven in action during the games of the scholastic league will see a different organization Saturday from the standpoint of team work.

Ead to Change Style. During the league scason Earl was compelled to change his style of play after each game so that the other coaches would be thrown off the track. As a result team work was not particularly brilliant but the players received a liberal education in the art of taking advantage of an opponent in the style of their attack.

Heretofore the offense has been more or less ragged when directed against a certain point of the enemy's defense, but Earl has worked hard for concentration of his men's assault and has succeeded to his own satisfaction.

The defense of the Washingtonians has always been strong and they were about the hardest team to advance on in the scholastic league. CALIFORNIANS PLAY TIE WITH VICTORIAS

Victoria, B. C., Dec. 27.-Football ensiasm never ran higher than it did at Oak Bay grounds yesterday afternoon when a memorable no score struggle be-tween the University of California and Victoria took place, being the first of a peries of three games for the possession meries of three games for the possession of the Kefth cup, which also carries with the championship of the Pacific coast. The game throughout was a rather poor one to watch. The weather was wet and raw and the grounds very nuddy, and as a consequence the play was uncertain. It was an open game throughout, but was lacking in spectac-ular features. Both sides agree the game was rough, but they differ com-pletely in their views as to who was

responsible for the roughness.

Nobody was hurt. Three men were ordered from the field, Emerson and King of Berkeley and Jeffs of Victoria.

Neither side was able to score, although the California boys had the pigskin dangerously near-the Victoria goal most of the time.

FIGHT FANS DIVIDED ON PHYSICIAN POWER

Philadelphia, Dec. 27.—Fight fans are divided over the adaptability of the new law giving a physician at the ringside power to stop a fight, even if the referee believes the men are in condition to go on. A majority of those who saw the Philly McGovern-O'Keafe bout here last night are inclined to think that the law worked to the disadvantage of McGovern, who was disqualified after being knocked down in the fifth round. McGovern did not appear to be in distress, according to the referee, but the physician at the ringside thought otherwise, and O'Keafe will be credited with a knockeut.
