

NEW LAW WOULD PROTECT FORESTS

Jackson Representative Would Change Opening of Hunting Season.

(Special Dispatch to The Journal.)
Medford, Or., Jan. 6.—On the strength of a belief shared also by officers of the United States Forest service, that 80 per cent of the forest fires last summer were caused by fires left burning by careless hunters, Representative-elect John A. Westerlund is framing a bill for presentation before the state legislature at its next session calling for the changing of the opening of the hunting season until after the commencement of the fall rains.

Investigation instituted by the government and state forestry departments following the disasters of last summer shows beyond dispute that almost all of the fires which originated away from railroad right of ways and traveled roads were caused by ashes left smoldering by careless campers.

That the proposed new law will not meet with any opposition from the hunting fraternity is the opinion of a number of local sportsmen of whom said that experienced hunters did not usually take to the woods until after the first rains, as tracking was almost impossible until the ground had been wet.

BOWERMAN IS LOSING GROUND; SELLING'S MAKES OUTLOOK GOOD

(Continued From Page One.)
declare they cannot at this time state the names of those from other counties who have assured them of their votes, but they assert that they have enough to bring them 25 votes on the first ballot. They also declare that on the second ballot four of the men who are Reynolds supporters will come over into the Rusk camp.

A majority of the legislators are in town and conferences of from two to six men are frequent. W. Lair Thompson claims he has added to his own support and he is doing some maneuvering looking toward the acquisition of additional votes. He maintains he has as many votes as any. Allan H. Eaton, Henry McKinney, Lloyd T. Reynolds and M. F. Eggleston all declare they

are hopeful and that no one has as yet means clinched the position as yet.

"Timidity is shown over the caucus opposition and no one has as yet shown any disposition to be the leader in the movement of holding one. With the senate flight disposed of there will probably be some action, however, and the caucus issue may be brought up tonight. Much has depended on the senate results and it is very likely that the caucus will now shape themselves more definitely among the representatives.

The Multnomah delegation will hold another meeting tonight.

CLEMENS TO ASK LEGISLATURE FOR REPORT ON BAILEY

(Continued From Page One.)
ever fooled the people of Oregon enough to get them to elect him. The office, however, was created by the legislature and the legislature has the power to remove him.

"I think the plan for rearranging the whole system of public health by giving the state board of health supervision over the enforcement of all health laws is good. This would make the dairy and food commissioner's office appointive, either by the governor or the health board, but it would comprise exactly the same power as it now has to appoint the state health officer, the state veterinarian and the state bacteriologist. I believe it would be well to have the governor appoint the commissioner subject to the approval of the health board, or have the health board make the appointment subject to the approval of the governor. The law could and should require that the commissioner be a scientist, qualified for the position by training, experience and character. Never again, with such an arrangement and such a law would it be possible for a man of Bailey's stamp to get the job.

Bailey Protected by Secret Fall.
"I have known for a long time that Bailey was not fit to be dairy and food commissioner, but when I tried in the legislature to get an investigation of his acts and fitness, I ran up against interests that wanted to hush the whole matter up. Leave him alone; he's a nice old fellow," they would always say. Apparently they were sorrier for Bailey than they were for the rest of the people of the state whose lives and health have been endangered by his failure to exercise the protection expected of his office, even while they have been paying him during the years past thousands and thousands of dollars for the service.

"I believe now, however, that an investigation will have new results. The truth of conditions is too well known by the people. Bailey's day has ended. When he came into office milk or food that did not taste sour or smell had passed as good. He was perhaps equal to tasting or smelling tests, but the

poisons that lurk in our food and take toll of human lives must be detected by scientific test now, and Bailey certainly couldn't make a scientific test of anything."

BURGLAR ESCAPES FROM CONDON JAIL

(Special Dispatch to The Journal.)
Condon, Or., Jan. 6.—Fred Shippey made a sensational jail delivery here last night between 4 and 5 o'clock by tearing out the brick from a wall of the building and crawling through. He had been sentenced to two years in the penitentiary and the guard was to take him to prison this morning. While he is only 19 years of age, he has served a term of two years at the penitentiary. He broke into a Condon store in November and was charged with burglary. The grand jury found an indictment for grand larceny.

YOUTH STRUCK DUMB HURRIES TO HOSPITAL; RESULT OF SCUFFLE

(United Press Leased Wire.)
Los Angeles, Cal., Jan. 6.—Stricken suddenly dumb while endeavoring to order breakfast, Frank E. Smith, 19 years of age, is under the care of physicians at the receiving hospital today. Smith went into a restaurant to get breakfast, and when the waiter asked for his order, he could not speak.

He cleared his throat and worked his jaws, but no sound resulted. Thinking he had become deaf, he frantically repeated the order. Assured that he had lost the power of speech, he hurried to the hospital. Smith explained in writing to Police Surgeon Wright that several days ago while engaged in a friendly scuffle with a companion he fell against a door, suffering a contusion of his left temple. As the nerves governing the organ of speech center at the temple, Dr. Wright believes this injury explains the youth's plight.

MEDFORD WOULD HAVE CARNEGIE LIBRARY

(Special Dispatch to The Journal.)
Medford, Or., Jan. 6.—The Medford library board today forwarded a re-

quest for a sum of \$20,000 to be used for the erection of a public library here to Andrew Carnegie. The site chosen for the building, if the "Iron Master" heeds the request, is situated in the center of the city park.

Between the city council and private subscribers a yearly maintenance fund of \$4000 has been pledged to be used for the upkeep of such a building.

Complete photographic and moving picture outfits are included in the equipment of three German scientists who are exploring the mountains in the north of the Malay peninsula, inhabited by wild tribes.

HEAD WAS SCALY HAIR ALL CAME OUT

And Baby's Face Broke Out in Red Bumps. Spread on Hands and Arms. Tried Several Treatments, but He Got Worse All the Time.

Mother Says, "I Don't Think Anything Else Would Have Cured Him Except Cuticura."

"When my first baby was six months old he broke out on his head with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over his head. All the hair came out and his head was scaly all over. Then his face broke out all over in red bumps and it kept spreading until it was on his hands and arms. I bought several boxes of ointment, gave him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days after using them he began to improve. He began to take long naps and to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breaking out of any kind. His hair came out in little curls all over his head. I don't think anything else would have cured him except Cuticura.

"I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. Cuticura Soap is the best that I have ever used for toilet purposes." (Signed) Mrs. F. F. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

Cuticura Remedies are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., Boston, for free Book on the skin.
