Attorney General Crawford, by request of Representative Brownhill of Yamhill county, is drawing a bill which vill be introduced in the house next Monday. Senator Wood of Washington county is preparing another. The object in each case is to avoid the necessity

of taking a vote by the state at large.
A bill of the same general tenor was DAY and NIGHT voted down by the people at the November election, but friends of the idea contend this adverse vote was not due to opposition to the principle. There were specific objections to the bill, many believing it unfair to allow division of a county on the easy terms then proposed. Others are claimed to have voted against the bill in the haste of election day by the mere fact that the ballot title showed it related to county division. Without \$500,000 Building close scrutiny and being opposed to all schemes of county division, with which this measure was sometimes confused, many voters are believed to have voted against it, although favoring some step to eliminate county division questions

Having assured herself that if her sterilization bill is passed by the legislature it will not meet with veto by the governor, as it did three years ago, Dr. Owens-Adair is busy lining up members of the legislature to pass the bill over the veto when it comes up at Salem next week.

Dr. Owens-Adair, who has been working for this bill for years, says she has been assured by Governor West that he will sign it if it reaches him. He told her this in the waiting room of the governor's office, yesterday, she says, so she is concentrating all her

attention upon the legislature.

The sterilization bill, which is officially styled "a bill to prevent the procreation of confirmed criminals, insane, idiots, imbeciles and rapists," passed the senate two years ago by a two-thirds vote and there were only five opposing votes in the house. It was vetoed by Governor Chamberlain. A. two-thirds vote in each house is required to pass the bill over the veto.

Dr. Owens-Adair is also preparing to fight the bill through the Washington legislature and will go to Olympia in a few days to work for it. If the bill fails to pass over the veto, she says, it will be at once introduced as a new measure and she will try to have it

over the extreme high water mark o of having it damaged or interfered with by high water.

The girder spans are from 75 to 102 feet long, the through spans from 230 to 320 feet in length and the draw span 250-feet long. It is expected to be ready for opera-

tion of trains early in the summer.

Ainsworth, \$5; Albina Homestead, District Attorney Says Grand Jury Need Only Hear Him Talk.

> "J. W. Bailey is such an ignoramus that his appearance before the grand jury tomorrow will be the best possible evidence of a fact of which I have long been convinced, namely that he is unfit to hold the office of state dairy and food commissioner," said District Attorney George J. Cameron, yesterday. Bailey has been called to answer charges of graft and incompetency before the grand jury at 1 o'clock tomorrow-morning. These charges have been made by three deputies, Maris, Williamson and

Maris accused Bailey of buying house-

eling expenses to his farm near Eugene Verne Williamson, is said to have been most damaging of all. Williamson inspected Balley's laboratory charges against the state as filed in the office of the secretary of state. He says he found the statements of expense he had turned over to Bailey, nad been re-written, the costs multiplied and articles which he had never bought added. Before the investigation is concluded it is expected the grand jury will visit Bailey's offices in a body to look over

his accounts. The evidence of Bert Pilkington, former chemist in the office of the dairy and food commissioner, will also be asked, it is understood. Pilment of the state agricultural college. A. H. Lee, president of the Oregon Butter and Cheese Makers' assocition, sand yesterday that arrangements were being made by the executive committee of the organization to conduct an independent investigation of the charges against Bailey. "If we find," said Mr. Les, "that the charges are true, we shall pass resolutions asking his removal. I will say frankly that there has been for a long time a question as to his competency and we desire to learn for urselves the exact facts."

chemist by Bailey for this purpose. At the same time all other creameries were given the same opportunity, but for some reason they did not avail themselves of the offer. We now pay for this testing, although we have our own chemist and equipment, because we believe that the testing should be done in this official way. Our company has also insisted that no milk be sold to us for delivery to Portland people except that which was produced in accordance with state and city laws. In this we encountered the displeasure of some of the bigger creameries and it took so much nerve on our part to stand up for the law that we really thought we ought to have a little credit for it. We don't want to get into this Bailey fight. If kington is now in the chemical depart- he is an incompetent we will insist upon

though with a large rorce of men. Engineer Hunt promises to give fur-ther details concerning the company in the near future and says that construction work will begin this year.

### NO RADICAL CHANGE IN STATE'S FISH LAW

A wrong impression seems to prevail among sportsmen and others as to the action taken by the Oregon Fish and Game association at its last meeting,

The bill which A. E. Gebhardt, secre tary of the association, drew and prethe trout law which was in existence adopted by a unanimous vote, closes the season on all trout, except salmon trout, during the months of November, December, January, February and March and allows the fishing for salmon trout in tide waters at all times. In all other respects the trout law is left just as it

# FAT is Dangerous

It is unsightly, uncomfortable, spoils the figure causing wrinkles, flabbiness and loss of vigor.

Let me send you my Proof Treatment absolutely Free; you can safely reduce your fat a pound a day.

Note what my treatment has done for others.

Note what my treatment has done for others.

Lost 120 Pounds.

Mrs. Eva M. Reynolds, Box 114, Lehigh, Webster Co., lowa, writes: "When I commenced your treatment is weighed 35 pounds. I now weigh 155 pounds, and never felt better in my life."

Lost 51 Pounds.

Mrs. W. D. Smith, Box 35, Abbott, Me., writes: "A have lost 51 Pounds, have lost 51 Pounds, have lost 51 Pounds.

Mrs. J. H. Wooldridge, Galena, Mo., writes: "My figure and appearance have been wonderfully improved, have lost 36 pounds. Priesds amazed."

I could fill every page of this journal with testimonials from grateful patients.

It is dangerous, unsightly, uncomfortable and embarassing to be too fat. Excess fat weakens the heart. The liver, lungs, stomach and kidneys, become diseased, the breathing becomes difficult and the end comes in HEART FAILURE and sudden death. You H. C. BRADFCRD, M.D. 192 a. ### The Doctor's Answers On **Health and Beauty Questions**

By Dr. Lewis Baker

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bid'g., College-Ellwood Sts., Dayton, Ohio, enclosing self-addressed, stamped envelope for reply. Full name and address must be given, but only initials or ficticious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

repeat this formula which is superior to anything I know of to cure chronic bronchitis, hoarseness whooping cough, sore throat, etc. Obtain from any well-stock druggist a 2½-oz. package of essence of Mentho-Laxene, and mix it with a home-made syrup according to directions accompanying it; this makes a full pint of the finest laxative, curative and tonic cough syrup, superior to patent or labeled goods and about 8 times cheaper. It makes the most effective cough remedy that I have ever prescribed.

Nerveus:—I receive many letters from both men and women who class themselves as "nervous wrecks." Some attribute their condition to dissipated lives, some to society and its functions, some to indiscretion of youth, and others have no explanation.

This condition begets much misery, melancholia, and is accompanied with such symptoms as timidity, downcast eyes, lack of confidence, lost memory, and vigor, cold extremities, dizziness, heart palpitation, trembling limbs, shortness of breath, sleeplessness, discontent, irritability and a general inability to act naturally at all times. Scientifically concentrated drugs, free from opium, cocaine and the like will overcome such conditions. Obtain these ingredients separately, avoid any embarrassment, and mix at home as follows: Get three ounces of compound syrup sarsaparilla in a six ounce bottle. Get one ounce each of compound fluid balmwort, compound essence cardiol and tincture cadomene compound. Add balmwort to sarsaparilla, shake and let stand, two hours. Then add other two ingredients, shake well and take a teaspoonful after each meal and one when retiring. Drink slowly, at least a pint of water between each meal, and soon new life and nervous force will be felt coursing through the system and all distressing symptoms will be at an end. This condition begets much misery, symptoms will be at an end.

Florence:—Your questions and symptoms have been answered and explained several times heretofore in these columns, but as they may have escaped your attention I will repeat my advice, as I have for many others. You have an extremely chronic and dangerous case of massal catarrh, and this is responsible. an extremely chronic and dangerous case of nasal catarrh, and this is responsible for your headache, four breath and indigestion. The mucus drips into your throat and thence to the stomach while sleeping. Obtain two ounces of vilane powder; take a level teaspoonful and mix it thoroughly with one ounce of white vaseline. This makes an excellent healing balm when applied to the nostrils daily. Use the remainder of the powder as a nostril wash, a half teaspoonful to a pint of warm water. Snuff the water from the hollow of the hand well up into the nostrils until all mucus is removed. Do this twice daily and in a week or two all trace of catarrh will vanish. Keep up the treatment as a preventative.

Frank:—If you are thin and bloodless and suffering with acute indigestion, nervousness, sleeplessness and weakness. I would advise that you obtain a package of 3-grain Hypo-Nuclane tablets and take one before eating and one after. Do not eat between meals. Drink nothing but milk at meal time, and drink it very slowly.

O. I. K .: - Kidney and bladder disea

Mack:—Your request for a simple but efficient cough and lung remedy has already been answered in these columns, but I will repeat this formuto anything I know bronchitis, hoarseh, sore throat, etc. ll-stock druggist a sesence of Menthowith a home-made lirections accompana full pint of the ive and tonic cough patent or labeled times cheaper. It cive cough remedy

John Henry K .: - Chronic constipation John Henry K.:—Chronic constitution is another of mankind's afflictions, which has always proven troublesome to remedy until the following prescription was originated in one of our large hospitals. This not only relieves pleasantly and promptly, but it really cures the most chronic cases ever brought to my attention: Compound essence cardiol one ounce, aromatic caseara one ounce and syrup of rhubarb 2 ounces. Mix and take from ½ to 1 teaspoonful after each meal and one when retiring. Children less according to age. If given to children it prevents much sickness and contagion. and contagion.

Retail:—For sore, swollen, tired, aching, calloused feet I can recommend nothing better than the following: Obtain two ounces of vilane powder; to a gallon of steaming hot water add a teaspoonful of the powder and immerse the feet, seaking them from 10 to 20 minutes every night. This draws out the poisons and soreness, removes corns, bunions, callouses, etc., and enables any one to be on their feet many hours daily.

Fanny:—If your hair is "greasy," oily and dead in lustre, you can quickly restore its lustre and eliminate the oily appearance and at the same time cure the worst case of dandruff and itching scalp. Obtain a four ounce jar of plain yellow minyol and use as per directions accompanying same. Beautiful, lustrous, fluffy hair will be your early reward.

Miss Francis:—Those people who are too thin, who are weak and puny in body, with scrawny arms, shoulders and bust, can readily increase their weight, improve the quality of their blood by taking regularly for several months the following: Tincture cadomene compound one ounce and comp. syrup hypophosphites five ounces. Mix and take from ½ to one teaspoonful before meals and the same after meals. Also take 3-grain hypo-nuclane tablets as per directions accompanying sealed package. As much as two to six pounds a week should form in flesh on the abnormally thin.

thin.

Eczema M.:—The most certain cure for eczema that I have been able to find must be carefully prepared as follows: Have your druggist mix, carbolic acid 30 drops, citrine ointment I os. Innolin I oz. Then buy separately a 34 dram package of rose-kayloin; take home, heat the ointment slightly, and gradually stir in the rose-kayloin. This makes a uniform and affective remedy for any skin affection, but is particular, by a fine remedy for eczema. Many druggists will try to substitute something for the rose-kayloin because II is a rarely used powdered drug and they do not keep it in stock—but they arreadly obtain II from wholesare. Wash parts with castile soap and apply the ointment mixture twice-daily
