Salem, Or., Jan. 17 .- For an hour and quarter in the house yesterday afternoon Allen H. Eaton and his opponents engaged in a debate in which not a moment was wasted and in which no personal feelings were spared. Charges and conuter charges, smarting accusations and bitter invectives were thrown back and forth, with Eaton, Fouts, Mc-Kinney and Thompson as the chief figures in a controversy which held representatives and audience speli-Men in touch with legislative debates for the last 10 years say it has not been equaled in that time.

While primed for his attack, Eaton apparently had no intention of unlimbering his guns until he saw there was strength behind the movement to prevent the minority report from the committee on rules from being laid on the table. Eaton declared that his only reason in desiring this action was so the matter might be brought up at a later time and on a majority vote the rules be so changed for the next session of the legislature so as to have the committees named by the house as a whole.

He declared that he had proof that there had been a trade deal between Fouts, representing Rusk, and Thompson, and read a number of the names of committee chairmen, declaring the fact that he knew of these was ample proof that there was a deal. He then asserted that Senator Bourne, C. W. Fulton and W. S. U'Ren, through men they controlled in the house, dictated the committees. "Power is conferred by majority vote," he declared. "To that there can

be no exception. But when the speaker signs away the privilege of naming the committees to nine or ten men, when that power is signed away, which he has no right to sign, I object. The speaker was not directly responsible for the trades in the speakership fight. Fouts then proceeded to deny the assertion that he traded with Thompson for votes for Rusk and said the very fact that many of these appointments were known before their announcement proved that there was no trade and nothing secretive about the matter. I said then and I say now, that L wouldn't vote for Allen Eaton. You couldn't get our votes at any stage at any price.
